

Scholarship Program Participation Probation Policy

Participating schools should now be aware of the **TBHF scholarship program participation probation policy**. In order to maintain the high-level candidacy and competitive nature of these scholarships, schools that do not provide “strong” nominations for two consecutive years may be notified and placed on probation, and may be disqualified from participating if an appropriate candidate is not provided in the third year. If this should occur for any reason, the school will be contacted, and provided the guidelines that identify “strong” vs. “un-qualified” candidates, based on a predetermined scoring system. We encourage schools to reach out to the TBHF office and leadership if there are any concerns about your nominations. It is also recommended to review the sample “Profile of a TBHF Scholar” as a guideline to use during your candidate search.
