

RETURN FOR CARE

It's a Win-Win-Win for Adopters, Shelters, and Veterinary Practices!

Return for Care uses a technology platform that automates and facilitates smooth connections and information transfer between shelters, pet adopters, and veterinary practices - and *benefits all three*.

This platform:

- Stores and transmits pet health summary from shelter to adopter to practice
- Makes smooth introductions for adopter and pet to veterinary practice
- Interfaces with practice and shelter software via Optimizer to collect pet health information
- Aggregates program-level data on Return for Care for continuous improvement

Actions

Technology Platform

Wins!

	Shelter	Adopter	Veterinary Practice
Shelter	<p>Adoption counselor helps new owner choose a veterinarian at the time of adoption</p> 	<ul style="list-style-type: none"> Shelter uploads pet health summary and adopter contact info to platform Shelter receives its own performance metrics and community-wide impact data 	<ul style="list-style-type: none"> Shelter connects pet to a forever home and a lifetime of veterinary care
Adopter	<p>Adopter chooses veterinarian at time of adoption</p> <p>Adopter takes new pet to veterinarian for complimentary check-up</p> 	<ul style="list-style-type: none"> Adopter receives link to veterinarian contact info and pet health summary in platform Adopter can access platform to update info or change veterinarian 	<ul style="list-style-type: none"> Shelter-related health issues are diagnosed and treated at no cost to adopter Adopter gets peace of mind and connection to veterinarian
Veterinary Practice	<p>Practice reaches out to build relationship with pet owner</p> <p>Practice provides free first exam and treats shelter-related issues</p> 	<ul style="list-style-type: none"> Practice connects software via the Practice Optimizer, which automatically uploads pet outcomes to platform Practice receives pet health summary and adopter contact info from platform 	<ul style="list-style-type: none"> Practice delivers a lifetime of care to pet and owner Practice receives access to an ongoing source of new clients
