

Launch an ePayments program in 30 days or less

30

days or less
to get up
and running

20

hours or less
of client time
to implement

80%

of clients say
implementation
was easier than
they expected

“ This is by far the easiest implementation I have ever participated in. We brought this project up in a matter of 30 days. Paymerang really does pick up so much of the initial implementation work.”

“ The process is much easier than I thought going in—pretty seamless. It doesn’t take too much of your time and is worth the time it takes to implement.”

“ It really is a simple process and doesn’t take much time at all. Most of the work is done in the background by Paymerang.”

“ Go ahead and invest the time as it is a great service.”
