THE FORENSIC PATHOLOGY WORKSHOP

TODAY'S PRACTICE, TOMORROW'S CHALLENGES

Saturday, March 6, 2027, 1:00pm - 5:00pm

Sunday, March 7, 2027, 9:00am - 5:00pm

Location: Radisson Blu Hotel

An extraordinary educational experience designed for practicing forensic pathologists committed to advancing their knowledge and practicing at the highest level.

Over two intensive days, participants will join some of the most respected and influential practitioners in forensic pathology for an in-depth exploration of the science, practice, and challenges shaping modern medicolegal death investigation. This is an opportunity to learn from and engage directly with experts whose experience spans the most complex and consequential cases in the field.

Key Features

- **Advanced Forensic Pathology Practice:** Explore contemporary approaches to complex forensic pathology cases, including challenging autopsy findings, equivocal causes of death, unusual injuries, and difficult determinations of cause and manner of death.
- **Emerging Technologies and Diagnostic Tools:** Examine emerging AI applications, with emphasis on their practical application to the field of forensic pathology.
- **Case-Based and Hands-On Learning:** Apply advanced forensic pathology principles through case studies that address challenging findings encountered in contemporary practice.
- **Advanced Injury Interpretation:** Strengthen the evaluation and interpretation of complex blunt-force, sharp force, firearm, thermal, asphyxia, and patterned injuries, with emphasis on distinguishing significant findings from incidental or nonspecific postmortem changes.
- **Standards, Ethics, and Best Practices:** Examine current professional standards, ethical considerations, quality assurance practices, documentation requirements, and strategies for minimizing cognitive bias and strengthening the reliability and defensibility of forensic pathology conclusions.
- **Professional Excellence and Lifelong Development:** Gain practical insight into continuing education, peer consultation, mentorship, professional leadership, quality improvement, and strategies for maintaining excellence throughout a forensic pathology career.

WHO SHOULD ATTEND

- Forensic Pathologists
- Forensic Pathology Fellows
- Forensic Pathologists' Assistants
