## **OAC Research & Technology Event**

March 20 & 21, 2019

Toronto Airport Marriott Hotel

**Additive Manufacturing & Proposal Writing Workshops**  
**College/University Poster Session**  
**Tier 1 Networking Reception & Dinner**  
**Conference & Trade Show**

### **SPONSOR INFORMATION PACKAGE**

*Sponsors will receive recognition on both March 20th & 21st!*

Before R&T becomes a working project, it takes some research to find the resources required to “get it off the ground”.

We invite you to consider being a sponsor of our fourth annual R&T Beyond the Barriers event. Due to the great response to our first two programs, we are pleased to once again offer an expanded program including two full day workshop sessions, a College/University poster session as well as an amazing **Tier 1 Networking** opportunity.

Beyond the Barriers Workshops on March 20<sup>th</sup> are:

- **Additive Manufacturing in Aerospace**
- **Proposal Writing – from a Reviewer’s Perspective**

**Meet Canada’s Next Generation of Innovators** at the conclusion of the workshops, join us at our University/College poster session and Tier 1 Networking Reception, followed by our Tier 1 Networking Dinner.

Confirmed Tier 1’s: Diamond Aircraft, Magellan Aerospace, MHI Canada Aerospace, Safran Landing Systems,

# BEYOND THE BARRIERS

Building the  
Ontario Aerospace  
R & T Community

Beyond the Barriers Day 2, on March 21<sup>st</sup>, offers attendees an opportunity to:

- meet with industry to explore or expand collaboration prospects
- gain greater understanding of capabilities of academic partners
- gain awareness of funding programs available
  
- INDUSTRY PANELS this year include:
  - **Winning Strategies for a New Space Economy**
  - **The Collaboration Equation = Industry x Academia x Funding**
  - **Digital Thread & Cyber Security**

The conference format is designed to provide industry delegates a toolbox of resources that will assist in addressing:

- *Finding an academic partner*
- *Identifying capabilities and areas of focus of academic institutions*
- *Understanding the funding program options that are available*
- *Developing a network across all levels of the research & development chain*
  - *With industry - OEM & Tier 1's to SME – all levels in the supply chain*
  - *With academic partners - universities & colleges*
  - *With funding partners – who to contact, programs currently available*

In addition, *Conference day attendees receive the 4<sup>th</sup> Edition of our Aerospace R&T Source Book – identifying academic partners, funding partners, contacts. This Source Book will also be distributed at International Airshows (PARIS 2019) as well as selected Aeromarts and NBAA shows.*

A preliminary agenda is included for your reference. We look forward to your participation as we continue building the community and growing our networks.
