OAC Research & Technology Event
March 30 & 31, 2020
Toronto Airport Marriott Hotel

SPONSOR INFORMATION PACKAGE
Sponsors will receive recognition on both March 30th & 31st!

We invite you to consider being a sponsor of our fifth annual R&T Beyond the Barriers event. Due to the great response to our past events, we are pleased to offer an expanded program including two full day workshop sessions, keynote speakers, a College/University poster session as well as an amazing Industry Networking opportunity.

Beyond the Barriers 2020 includes:

⇒ Additive Manufacturing in Aerospace
  o Building on the success of this workshop last year, join subject matter experts to discuss the evolution, advances and applications of this technology

⇒ Intellectual Property Discussions & Workshops
  o Panel Discussion, IP Fundamentals Workshop, IP Strategy & Valuation Workshop

⇒ Ways to Engage and Show Me the Money
  o Hear about Funding Programs & ITB Considerations

⇒ “Dragon’s Den” - Project Pitch Session
  o Pitch your idea to possible funders and partners, and meet in our Connections Cafe

⇒ Seeking Innovative Solutions
  o Join us to hear what OEM and Tier 1’s are looking for in an innovation partner for the near future. INVITED: Pratt & Whitney Canada, Airbus, Lockheed Martin, Bombardier, De Havilland Aircraft of Canada, Safran Landing Systems

⇒ Meet Canada’s Next Generation of Innovators
  o At the conclusion of Day 1, join us at our University/College poster session and Networking Reception

⇒ OEM/Tier 1 Networking Dinner
  INDUSTRY Participants: Bombardier, Celestica, Collins Aerospace, Cyclone Manufacturing, De Havilland Aircraft of Canada, Diamond Aircraft, Magellan Aerospace, MHI Canada Aerospace, Pratt & Whitney Canada, Safran Landing Systems
The conference format is designed to provide industry delegates a toolbox of resources that will assist in addressing:

- Developing a network across all levels of the research & development chain
  - With industry - OEM & Tier 1’s to SME – all levels in the supply chain
  - With academic partners - universities & colleges
  - With funding partners – who to contact, programs currently available
- Finding an academic partner
- Identifying capabilities and areas of focus of academic institutions
- Understanding the funding program options that are available
- What OEM’s/Tier 1’s are looking for in an innovation partner

In addition, Conference day attendees receive the 5th Edition of our Aerospace R&T Source Book – identifying academic partners, funding partners, contacts. This Source Book will also be distributed at International Airshows (Farnborough 2020) as well as selected Aeromarts (Seattle, Spain, Toulouse) and NBAA shows.

A preliminary agenda is included for your reference. We look forward to your participation as we continue building the community and growing our networks.
