Disclosure:

To assist in determining the value of its programs, the International Trade Branch will request at periodic intervals (6 months and 1 year), an estimate or actual dollar value of new business and/or dollar value of total new export sales your company achieved (along with a brief description), resulting from your company's participation in this trade program.

Please note that the information provided will be treated as confidential, will not be released to and/or shared with the third parties, and will solely be used to report the aggregated results from all program participants. This will also help us better evaluate our programs for business planning and service improvement purposes.

Your cooperation is appreciated.
