

Fibrotek Advanced Materials are very pleased to announce the launch of our newly designed website. Visit us at our new web address www.fibrotek.com. The site's homepage features an uncluttered design which will make your website viewing experience faster, easier to navigate, and more user-friendly.

As an Aerospace and Automotive Composite manufacturing leader, it's important for us to make information regarding solutions and services easily accessible for our current and prospective clients. Fibrotek endeavors to provide our clients with the most accurate, up- to-date manufacturing methods & information and share our knowledge and expertise in the field of Composites driven by our in-house R& D laboratory.

We also wanted to give our clients an opportunity to know us better, who we are as a company, and the leaders driving the Fibrotek team. By browsing through our new site you'll get a pretty good idea of who we are, what we do, and solutions we can offer.

You'll find our new site is divided into four main sections: Products, Equipment, Innovations and clients so our clients can easily navigate our site and locate the information they need. You can also navigate to the Careers section. Here you can also get information about being a part of the Fibrotek Team in our Careers section and learn how to contact us.

The Fibrotek Team has worked hard to design this website, rich in information, to be used as a resource. We pride ourselves on being a thought leader in the Composite Manufacturing Industry and look forward to hearing from you.

If you experience any problems using the new website or if you have any questions, please contact us at simon.stern@fibrotek.com
