COMMUNITY SPREAD IS LOW

NO CASES IN THE BUILDING					
Cloth face coverings, distancing, hand hygeine expected in all situations					
For EVERY identified case →	Has individual been in the **BUILDING** or at school activities since 48h prior to onset of symptoms?	Yes	Can all contacts be easily traced?	Yes	Notify local public health. Close **CLASSROOM x 24h for cleaning and until the school has identified close contacts.** Exclude contacts from the building for x 14d. Reinforce prevention measures. Reopen **CLASSROOM**
		Yes		No	Notify local public health. Close **BUILDING** x 24h for cleaning and until the school has identified close contacts. Exclude contacts from the building for x 14d. Reinforce prevention measures. Reopen **BUILDING,** including **CLASSROOM.**
		No			Notify local public health to assist with contact tracing of contacts outside of the building. Ensure contacts do not return to the building for 14 days from the last exposure.
Two or more unlinked cases (no common classes, close friends, teammates).					Treat as any other identified case as above. See PURPLE section for management of increasing number of cases within 14 days.
Two or more linked cases within 14days (common classmates, friend group, team mates, etc (excludes siblings))?	Are cases within a physical CLASSROOM space or relatively confined area?	Yes	Confident that contacts have been identified?	Yes	Respond to cases as outlined above. Continue with current plan.
		No		Yes	May need to consider 14 day closure of a section of hallway, grade or the entire building depending upon degree of involvement. Consult local department for guidance.
		No		No	Seriously consider 14-day closure of the involved areas. May need to consider **BUILDING** closure, if extensive exposure. Consult local health department for guidance.
Increasing number of cases identified within 14 days?					**Seriously consider 14-day closure of the BUILDING unless circumstances dictate otherwise. Consult local health department for guidance.**

COMMUNITY SPREAD IS MODERATE

Increasing number of cases identified within 14 days?					**Minimum 14-day BUILDING closure unless circumstances dictate otherwise. Consult local health department for guidance.**

Outside of state, county, or local executive order, district-wide closures should occur under only the most extreme circumstances.

The use of "percent active cases" as a sole determinant of district-wide closure is strongly discouraged

Every effort should be made to make school-level decisions that allow schools that are not impacted by active cases to conduct in-person instruction at some level.

District administrators are strongly encouraged to include local, regional, and/or state public health officials in any discussions regarding district closure.
