

2017 Limits on Qualified High Deductible Health Plans and Health Savings Account Contributions

For 2017 the minimum acceptable deductible amounts for a high deductible health plan to qualify for an individual to make contributions to a Health Savings Account are:

Individual coverage	\$1,300
Family coverage	\$2,600

The maximum out of pocket limits a plan may have are:

Individual coverage	\$ 6,550
Family coverage	\$13,100

Note: "Family" coverage means self plus one or more covered dependents

The maximum allowable contributions that may be made to a Health Savings Account (HSA) are:

Individual coverage	\$3,400
Family coverage	\$6,750

Under guidelines implemented in the Patient Protection and Affordable Care Act, over-the-counter drugs may only be reimbursed if they have a prescription. If a policyholder uses an HSA to pay for items or services that aren't qualified medical expenses, the tax penalty is 20 percent of the HSA distribution.
