# ONE-MINUTE PHONE SCRIPT

Hello, my name is **[Name]**, and I live in **[City]**. I'm a constituent and a member of the Texas Physical Therapy Association.

I'm calling to ask Senator/Representative **[Last Name]** to support **[Bill Number]**, which ensures Texans are not charged higher copays for physical therapy than they pay for a physician office visit.

High physical therapy copays force many patients to delay or stop treatment, resulting in poorer outcomes and higher overall health care costs.

Physical therapy is one of the safest and most cost-effective treatments available. Affordable copays improve access, reduce unnecessary surgeries and opioid use, and help Texans recover faster.

Thank you for sharing my support with the Senator/Representative.
