

The Panhandle Society of Health System Pharmacists
Presents:

**What's New in Drug Therapy? A Review on Recent
FDA Approved Medications**

Melissa Williams, Pharm.D.

PGY-2 Pharmacotherapy Resident

Texas Tech University Health Sciences Center School of Pharmacy
Amarillo, Texas

Tuesday, November 27, 2018

Texas Tech University HCS

School of Pharmacy Academic Building

1300 S. Coulter

Amarillo, TX

Registration begins at 5:45 PM

Continuing Education Program Details:

Target Audience: Pharmacists, pharmacy technicians, and pharmacy students

Activity Type: Application-based

At the completion of this activity, the pharmacist participant will be able to:

1. Identify indications for the following newly approved medications in 2017-2018: Andexxa (andexanet alfa), Bevyxxa (betrixaban), Baxdela (delafloxacin), Ozempic (semaglutide), and Steglatro (ertugliflozin).
2. Evaluate the literature that led to the FDA approval of these medications.
3. State adverse drug reactions associated with medications discussed.
4. Discuss the role of these medications in treatment compared to currently available therapies.

At the completion of this activity, the technician participant will be able to:

5. State the generic and brand name of the discussed therapies.
6. List the indications for the therapies discussed.
7. Identify common side effects of these medications.
8. State medication assistance programs for the therapies discussed.

Schedule of Activities:

5:45 PM	Registration
6:00 PM	Dinner
6:30 PM	PSHP Monthly Business Meeting
7:00 PM	CE Presentation
