Invigilation at USA Dance Competitions

In its continued efforts to give every athlete the same advantages and opportunities in competition, USA Dance has taken a special interest in invigilating sanctioned closed syllabus events. Invigilation is being watchful or observant of athletes dancing figures out of category, timing, or position thereby gaining an advantage over the competitors in their field. With the understanding that Invigilation begins with the instructor or coach providing choreography for a specific level of competition, such as Bronze, Silver, or Gold, the responsibility remains with the athlete, therefore this document is being sent to all amateur competitors and professional members of USA Dance.

Based upon the Invigilation Forms collected from USA Dance Nationals and the various NQE’s the following general statements can be made:

- Start in the appropriate hold and position for the syllabus figure being danced. No choreographed entrances are allowed in any of the dance categories.
- All figures must be danced with the appropriate timing.
- All figures must be danced with the appropriate hold and position.
- All figures must be danced using precedes and follows outlined in the manuals.
- The rule of thumb should be “When in doubt….leave it out!”

For the International Standard and Latin dances, USA Dance only recognizes the Imperial Society of Teachers of Dance “The Ballroom Technique”, for Waltz, Tango, Foxtrot, and Quickstep; and the “Latin American Cha Cha Cha”, “Latin American Samba”, “Latin American Rumba”, “Latin American Paso Doble”, and “Latin American Jive” manuals. The precedes, follows, timing, hold and positions, may be found in these manuals. These manuals and DVD’s may be purchased at www.usistd.org.

The American Smooth and Rhythm present more of a challenge in that there are many dance organizations that have their own unique figures for the American Style dances. USA Dance has tried to incorporate the most common figures used throughout the various schools. However, each school has figures that are not allowed and covered by the Restrictions listed in the Appendix 8 of the USA DanceSport Rulebook.
