

SAFER AT HOME: PHASE ONE
FARMERS MARKETS

PHASE 1: Establishments must either implement the following mandatory requirements or close.

MANDATORY REQUIREMENTS:

Businesses must strictly adhere to the physical distancing guidelines, enhanced cleaning and disinfection practices, and enhanced workplace safety practices provided in the “Guidelines for All Business Sectors” document. Virginia Department of Health and Virginia Department of Agriculture and Consumer Services regulated facilities must continue to follow requirements related to prohibiting sick employees in the workplace, strict handwashing practices, and procedures and practices to clean and sanitize surfaces.

During Phase 1, farmers markets should continue to offer order ahead and pickup options. If markets choose to open, they may only do so in outdoor spaces and they must adhere to the following additional requirements for outdoor service:

- ✓ Post signage at the entrance that states that no one with a fever or symptoms of COVID-19, or known exposure to a COVID-19 case in the prior 14 days, is permitted in the establishment or farmers market.
- ✓ Post signage to provide public health reminders regarding physical distancing, gatherings, options for [high risk individuals](#), and staying home if sick (See samples at the bottom of this document).
- ✓ On-site shopping is allowed, as long as physical distancing guidelines are adhered to. Configure operations to avoid congestion or congregation points.
- ✓ Employees and vendors working at the farmers markets must wear face coverings over their nose and mouth, such as using [CDC Use of Cloth Face Coverings guidance](#).
- ✓ Provide a minimum of six feet between parties at tables, (i.e., the six feet cannot include the space taken up by the seated guest). Spacing should also allow for physical distancing from areas outside of the facility’s control (i.e. provide physical distancing from persons on public sidewalks).

- ✓ Provide hand sanitizer stations or hand washing stations for patrons and employees.
- ✓ Vendors must use enhanced cleaning and disinfecting practices to regularly clean and disinfect spaces and equipment.
- ✓ Vendors and employees handling money should wash their hands between each transaction.

BEST PRACTICES:

In addition to the requirements provided above, farmers markets are encouraged to utilize the following best practices to the extent they are feasible:

- ✓ Encourage customers to wear face coverings while entering, exiting, or otherwise traveling throughout the farmers market. Face coverings may be removed while seated.
- ✓ Promote no touch or low touch purchasing opportunities by pre-boxing or pre-bagging food items.
- ✓ Update your website and social media with detailed instructions so patrons understand the expectations while at the market.
- ✓ Discourage vendor sampling.
- ✓ A mobile market could be used to reach communities with low food access but should comply with physical distancing guidelines for customers shopping and follow all recommended hygiene and sanitation protocols.
- ✓ Limit vendors to those selling food and horticultural products, or other handcrafted products critical for hygiene and sanitation such as handmade soaps and facemasks.
- ✓ Encourage touchless payment systems.
