

Accounting Consultants
VML/VACo Finance
Statewide recruitment

VML/VACo Finance seeks excellent, experienced accountants for temporary or continuous placement with our Accounting Services consulting program. A local governmental accounting background is required. Both current and retired local government accountants and Finance Directors are invited to apply.

This is an excellent opportunity for highly motivated, self-starting accounting professionals who seek challenge and enjoy working in flexible and varied assignments. Typical assignments include:

- Interim placements of Finance Directors and senior accounting personnel over several weeks or months;
- Annual pre-audit preparation assistance;
- Project management related to grant reporting, system implementation, etc.;
- Periodic assistance throughout the year with accounting entries, reconciliations, reporting, etc.

Our clients include counties, cities, towns, authorities, and other governmental entities. We will match your interests and background to the clients you are best suited to serve, taking into account your skills and background; willingness to travel; and desired hours and availability.

Compensation is highly competitive and commensurate with experience. We offer both hourly contract positions as well as hourly employee positions with benefits. We can meet your requirements for either flexible or, in some cases, full-time hours.

In addition to having experience in local government (or an audit setting with local government clients), applicants should have familiarity with governmental GAAP, solid references, and the ability to effectively communicate and interact with clients and auditors. CPAs and CPA candidates are encouraged to apply.

VML/VACo Finance is the financial services arm of the Virginia Municipal League and Virginia Association of Counties. Our Accounting Services program, established in 2009, has placed Accounting Consultants with dozens of governmental entities, large and small. More information is available at **valocalfinance.org/accounting**.

Interested persons should submit a confidential resume to:
