SAFETY MONDAY

Use of a Spotter

- Driver must take full responsibility of the backing maneuver and the Spotter’s safety.

- If driver loses sight of the Spotter...STOP!

- A reliable and qualified guide can keep pedestrians out of the blind zone.

- Agree on hand signals you both understand.

- Turn off your radio and open your window.

- Keep your guide in sight at all times. If your guide disappears from sight - stop immediately!

- The final responsibility for safe backing remains with the driver - not the guide.

When in doubt, remember your G.O.A.L. - Get Out And Look!
