The Healthcare Waste Institute (HWI) is a special industry group within the National Waste & Recycling Association. The HWI mission is to facilitate responsible healthcare waste management from all types of generators; to be the resource network for technical and regulatory assistance; to be respected as a proactive, responsive, and credible organization; and to create high value for membership.

### **A sampling of HWI Services/Benefits**

- National Waste & Recycling Association staff help HWI members interact with state and federal regulators and legislators regarding either company-specific or industry-wide advocacy issues
- Association staff educate policymakers about key concerns raised by HWI members
- Members are exposed to networking opportunities along the full value chain for the medical waste community
- Members who do not have the resources to monitor regulations, legislation, and new technologies receive current intelligence about changing issues important to the industry
- Members have access to industry specific educational programs that are especially critical to success in fast moving environment
- Fall and winter HWI meetings each year provide face to face networking and educational opportunities
- The HWI Annual Conference, held in conjunction with WasteExpo, is a one of a kind event for the industry with special access for HWI members
- There is one company, one vote in HWI decision-making
- HWI members are also members of the larger National Waste & Recycling Association, and can take advantage of member discount and business savings programs

### **New Member Special!**

The Healthcare Waste Institute is committed to having a strong presence in the industry and a broad representation across the country. To achieve these goals, we are offering a special new member rate of only \$990 for your first year of membership. This pricing includes both Healthcare Waste Institute dues and National Waste & Recycling Association dues, which would normally total at least \$1,500. After year one, dues will adjust to the standard rates.
