

This award is in recognition of Diane's efforts to keep the history of Norma and the WCET® alive through the three editions of the Festschrift Book that she and Paula Erwin Toth co-wrote/edited. WCET® is extremely appreciative that she has also given WCET® the opportunity to use the Festschrift book as a fund raiser to continue the association's important mission to educate nurses globally so that all patients worldwide can be cared for by nurses with specialized knowledge in ostomy, wound or continence.
