Our main office is located at 2605 Development Drive, Green Bay.

# ANESTHESIA

The BayCare Clinic anesthesia team is responsible for anesthetic care and management, from pre-op through surgery and recovery. Our specialists focus on patient safety and comfort.

The type of anesthesia used is determined by the anesthesiologist in conjunction with the surgeon or proceduralist and is based on the wishes of the patient, their medical condition, and the requirements of the surgery.

**Our anesthesiologists and certified registered nurse anesthetists have expertise in general and regional techniques for anesthetic needs including, but not limited to:**

- Advanced imaging requiring anesthetic management
- Bariatric surgery
- Brain surgery – including “awake” procedures for deep brain stimulation
- Cardiothoracic surgery, including bypass and valve surgery, and circulatory arrest
- Childbirth: including cesarean and vaginal delivery
- ENT procedures
- Fertility procedures including in-vitro fertilization
- GI procedures
- Gynecological and gynecological oncology
- General and vascular surgery including open bypass and endovascular procedures
- Ophthalmology and cosmetic eyelid surgery
- Orthopedic surgery
- Peripheral nerve surgery
- Plastic and reconstructive surgery
- Spine surgery
- Urological procedures

**For more information, call 877-229-2273.**

We provide services at Aurora BayCare Medical Center – BayCare Clinic Anesthesia, 2845 Greenbrier Road, Green Bay; Aurora BayCare Health Center BayCare Clinic Anesthesia, Green Bay and Kaukauna.

# BARIATRIC SURGERY & MEDICAL WEIGHT LOSS

When patients are struggling with excess weight, our program offers comprehensive weight management. Our integrated approach to improve health includes surgical, and / or medication interventions, diet, behavioral changes, group, and one-on-one support, and help navigate the insurance process.

## The services we provide include:

**Roux-en-Y Gastric Bypass:** This procedure involves creating a smaller stomach to restrict portion size. Digestive fluids are diverted, which decreases intestinal absorption of calories. People undergoing this procedure experience a decrease in appetite, aiding in weight reduction.

**Gastric Sleeve Restriction:** This surgery removes most of the stomach, limiting portion intake. A smaller stomach reduces appetite and limits the amount of food that can be digested at one time. As fewer calories are taken in, the body adjusts and burns stored fat for energy. This results in consistent weight loss.

**Medical Weight Loss:** This program includes treatment using anti-obesity medications, along with nutritional support. Medications are prescribed in oral or injectable forms and are used as a tool to aid in appetite control and weight regulation. This may be prescribed alone or used as an additional tool for bariatric surgery patients.

Our surgical and medical weight loss programs require dedication on the part of the patient, along with a readiness to make change. Our team works closely with our patients to be sure that this type of treatment is right, and that the patient has support throughout their weight loss journey.

## For appointments, call 877-677-5384.

Our main office is located at Aurora BayCare Medical Center – Aurora BayCare Bariatric Surgery, 2845 Greenbrier Road, Green Bay. We have additional locations in Kaukauna and Marinette.

# BREAST SURGERY

The Breast Services team at Aurora BayCare Medical Center provides a patient-centered approach for treatment of breast cancer and benign breast concerns. In order to provide exceptional care and outcomes a comprehensive team is developed for each patient's individual care needs and includes specialists from Aurora BayCare General & Vascular Surgery, a High-Risk Breast Program Coordinator, BayCare Clinic Radiology, Plastic Surgery & Skin Specialists by BayCare Clinic, as well as ancillary staff and providers throughout Northeast Wisconsin.

## **Patients with breast cancer have two primary choices for breast cancer surgery:**

- Mastectomy (removing all breast tissue) with or without reconstruction
- Lumpectomy (localized tumor removal)

The federal Women's Health and Cancer Rights Act of 1998 requires that insurance plans that cover breast cancer surgeries must also cover breast reconstruction surgery. Sometimes reconstruction can be done immediately, for others it is done in a staged approach.

## **Multidisciplinary High-Risk Clinic**

Aurora BayCare Breast Services team is proud to be an innovator in Northeast Wisconsin offering a comprehensive High-Risk Breast Cancer Program. With a dedicated nurse coordinator, this program proactively works with patients at a higher risk for developing breast cancer. This program provides early intervention aimed at preventing breast cancer.

## **Breast Diagnostics**

Our primary breast diagnostic technology is located at Aurora BayCare Medical Center, and if more convenient, patients can have screening mammograms done at our surrounding locations. At our hospital location, patients can expect 3-D mammography and 'Sensory Suites', including calming audiovisual technology. We pride ourselves on being the first hospital in Wisconsin to offer this mammogram experience.

**Natalie Luehmann, MD**

**Molly Linzmeier, APNP**

**For appointments, call 920-288-8480.**

Our main office is located at Aurora BayCare Medical Center – Aurora BayCare Breast Surgery, 2845 Greenbrier Road, Green Bay.

# CARDIOLOGY

Cardiac care includes evaluation and treatment of a multitude of cardiovascular diseases. These include blockages in the heart arteries, heart attack, blockage in the peripheral arteries (that feed the abdomen, legs, arms, and brain), abnormalities in heart rhythm, and diseases of the heart muscle, heart valves, and lung vessels.

The Comprehensive Heart Failure Clinic at Aurora BayCare provides specialized care and education for patients diagnosed with heart failure to help lower the risk of further complications.

## **Cardiology services include:**

- Cardiac Imaging:
  - CT
  - Echocardiology
  - MRI
  - Nuclear imaging
- Comprehensive Cardiovascular Consultation
- Electrophysiology:
  - Ablation
  - Complex rhythm diagnosis and treatment
- Device implementation:
  - Defibrillators
  - Pacemakers including biventricular
  - Rhythm monitoring including implantable loop readers
- Invasive cardiovascular procedures:
  - 78% of heart cauterizations can be performed through wrist
  - Cardiac catheterization and interventional procedures
  - Peripheral angiography
  - Radial artery cauterizations
  - Standard heart disease treatment
- Comprehensive Heart Failure Program:
  - 24/7 on call Cardiothoracic and Vascular Surgeons
  - cardioMEMS insertion and monitoring
  - Includes follow-up in Green Bay, with advanced heart failure specialists
  - Referral for transplant, and congenital heart disease
  - Seamless referral for advanced management and therapies

**For appointments, call 920-288-8300.**

Our main office is located at Aurora BayCare Medical Center – 2845 Greenbrier Road, Green Bay. We have additional locations in Kaukauna, Marinette, Shawano, Sturgeon Bay, and Two Rivers.

# EMERGENCY MEDICINE

**BayCare Clinic Emergency Physicians** staff the emergency departments and urgent care clinics at Aurora BayCare Medical Center and several Advocate Aurora facilities throughout Northeastern Wisconsin. BayCare Clinic has more than 40 emergency physicians and experienced advanced practice providers. Our physicians are the most tenured group of emergency physicians in the area.

All of our emergency physicians are board certified by or board eligible for the American Board of Emergency Medicine, the American Osteopathic Board of Emergency Medicine, or the American Osteopathic Board of Internal Medicine, and the American Board of Family Medicine. Some of our emergency physicians have additional fellowship training in areas that include emergency medical services, and critical care medicine. Comprehensive care is available for everything from minor illness and accidents to major, life-threatening injuries and conditions. When needed, our providers have immediate access to highly skilled trauma surgeons, radiology, orthopedics, plastic surgeons, neurosurgeons, and cardiologists.

# GYNECOLOGIC ONCOLOGY

**Aurora BayCare Gynecologic Oncology** provides comprehensive care for women with cancers of the reproductive organs.

Our providers are backed by a gynecologic cancer care team that offers the most advanced surgical procedures, chemotherapy, radiation therapy, genetic counseling, and access to clinical trials. Our team offers treatment to women with gynecologic cancers as well as certain benign (non-cancerous) conditions that involve potentially challenging surgery.

## **Gynecologic Oncology provides treatment for:**

- Complex endometrial hyperplasia
- Ovarian cancer
- Ovarian cyst or mass
- Ovarian risk reduction surgery
- Uterine cancer
- Vaginal and vulvar cancers

**Elizabeth L. Dickson Michelson,**

# HAND SPECIALISTS

## ORTHOPEDIC HAND SPECIALISTS

The human hand is intricate and complex. Trust any problems, big or small, to our experts in hand care. BayCare Clinic's **orthopedic fellowship-trained hand specialists** have extensive training and experience to treat hand-related traumatic and medical issues. They treat a wide spectrum of hand, wrist, and elbow related conditions.

Thanks to surgical advancements, our hand surgeons have more tools than ever before to restore hand function and appearance, even for severe injuries.

Our goal is to minimize pain and restore function. Our hand specialists work with staff to create an individual program to help each patient regain strength and maximize range of motion. Additionally, they will recommend preventative measures to decrease the chance of re-injury.

### Conditions we treat include but are not limited to:

- Arthritis
- Carpal tunnel syndrome
- Congenital abnormalities
- Cubital tunnel syndrome
- Dislocations
- Elbow and humerus fractures
- Emergency and long-term hand conditions
- Nerve disorders
- Numbness in hands or fingers
- Severed fingers
- Tendon and ligament injuries
- Tendon and nerve lacerations
- Trigger finger
- Work-related injuries
- Wrist, hand and finger fractures
- Wrist or elbow pain

**Andrew Kirkpatrick,**  
MD

**Brian J. Klika,**  
MD

**For appointments, call 920-288-5555.**

Our main office is located at: Horizon Square – Orthopedics & Sports Medicine BayCare Clinic , 1110 Kepler Drive, Green Bay. We have additional locations in Kaukauna, Manitowoc, Marinette, and Sturgeon Bay.

# HAND SPECIALISTS

# INTERVENTIONAL RADIOLOGY

Our board-certified interventional radiologists perform minimally invasive image-guided procedures to diagnose and treat a variety of diseases and conditions. Minimally invasive approaches can reduce healing time and speed recovery.

Our interventional radiologists offer an office consultative service to provide a thorough evaluation and discussion of the best treatment options for each patient.

## **We encourage outpatient consultations for patients needing the following procedures:**

- Chemoembolization (TACE)
- Endovascular and other oncology treatments
- Endovascular treatment of arterial and venous conditions
- IVC Filter, management, and removal
- Kyphoplasty and Vertebroplasty
- Laser ablation
  - for varicose veins
- Mesenteric angiogram
- Microwave ablation
- Radiofrequency ablation
  - for soft tissue tumors (liver, lung, and renal)
- Renal angiogram
- Sclerotherapy
- Uterine Fibroid Embolization (UFE)
- Varicocele embolization

# PAIN & REHAB MEDICINE

When a patient's lifestyle is impacted by pain, injury, or serious illness, we focus on helping them regain control and resume their daily activities.

Pain & Rehab Medicine integrates the best medical and procedural approaches to address each patient's unique concerns. We don't just treat your pain; we go further with a focus on finding and eliminating its cause.

**BayCare Clinic Pain & Rehab Medicine** has advanced expertise in many areas, including:

- Abdominal pain
- Arthritis pain
- Back/neck pain
- Carpal tunnel pain
- Complex Regional Pain Syndrome (CRPS)
- Headaches
- Joint pain
- Musculoskeletal disorders
- Peripheral neuropathy
- Spinal cord injuries
- Stroke
- Work and sport injuries

You will find a wide range of treatments including minimally invasive procedures, ultrasound guided injections, spinal cord stimulators, threaded procedures, EMG, outpatient care, medication management, acupuncture, BOTOX® therapy, and conservative non-surgical approaches.

**For appointments, call 866-965-4380.**

Our main offices are located at 2401 Holmgren Way, Green Bay and Aurora BayCare Medical Center – BayCare Clinic Pain & Rehab Medicine, 2845 Greenbrier Road, Green Bay. We have additional locations in Kaukauna, Marinette, Manitowoc, Shawano, and Sturgeon Bay.
