ANESTHESIA

The BayCare Clinic Anesthesia team is responsible for anesthetic care and management, from pre-op through surgery and recovery. Our specialists focus on patient safety and comfort.

The type of anesthesia used is determined by the anesthesiologist in conjunction with the surgeon or proceduralist and is based on the wishes of the patient, their medical condition, and the requirements of the surgery.

Our anesthesiologists and certified registered nurse anesthetists have expertise in general and regional techniques for anesthetic needs including:

- Advanced imaging requiring anesthetic management
- Bariatric surgery
- Brain surgery, including “awake” procedures for deep brain stimulation
- Cardiothoracic surgery, including bypass and valve surgery and circulatory arrest
- Childbirth, including cesarean and vaginal delivery
- ENT procedures
- Fertility procedures, including in-vitro fertilization
- GI procedures
- Gynecological and Gynecological oncology
- General and vascular surgery including open bypass and endovascular procedures
- Ophthalmology and cosmetic eyelid surgery
- Orthopedic surgery
- Peripheral nerve surgery
- Plastic and reconstructive surgery
- Spine surgery
- Urological procedures

We provide services in Green Bay and Kaukauna. For more information, call 877-229-2273.

AUDIOLOGY

Our audiologists diagnose and treat various symptoms/conditions and all degrees of hearing impairment, including mild, moderate, and severe hearing loss in both adults and children.

To ensure superior patient management and care, our audiology team collaborates with onsite otolaryngology.

They specialize in providing and treating:

- Hearing evaluations, as well as hearing aid fittings, adjustments and repairs for all ages
- Newborn and infant hearing loss
- Tinnitus (ringing in the ears)

BARIATRIC SURGERY & MEDICAL WEIGHT LOSS

Our program is designed to provide an individualized approach for weight management for those patients who are struggling with excess weight. We offer a comprehensive approach involving dietary counseling, behavioral health, exercise therapy, medication intervention, and a supportive nursing staff to guide you through bariatric surgery and/or medical weight loss.

The services we provide include:

Roux-en-Y Gastric Bypass: This procedure involves creating a smaller stomach to restrict portion size. Digestive fluids are diverted, which decreases intestinal absorption of calories. People undergoing this procedure experience a decrease in appetite, aiding in weight reduction.

Gastric Sleeve Resection: This surgery removes 80% of the stomach, limiting portion intake. A smaller stomach reduces appetite and limits the amount of food that can be digested at one time. This tool uses restriction and decreases hunger to aid in long-term weight control.

Medical Weight Loss: This program includes medically supervised weight management, sometimes with the use of an anti-obesity medication. Medications are prescribed in both oral and injectable forms and are used as a tool to aid in appetite control and weight regulation. Our clinic only prescribes FDA approved, on-label anti-obesity medications. This can also be used as an additional tool for bariatric surgery patients, when appropriate.

Our surgical and medical weight loss programs require dedication on the part of the patient, along with readiness to make change. Our team works closely with patients to be sure that the type of treatment is appropriate for each patient and that the patient has support throughout their weight loss journey.

BREAST SURGERY

The breast services team at Aurora BayCare Medical Center provides a patient-centered approach for treatment of breast cancer and benign breast concerns. In order to provide exceptional care and outcomes, a comprehensive team is developed for each patient's individual care. This includes specialists from Aurora BayCare General & Vascular Surgery, a High-Risk Breast Program Coordinator, BayCare Clinic Radiology, Plastic Surgery & Skin Specialists by BayCare Clinic, as well as ancillary staff and providers throughout Northeast Wisconsin.

Patients with breast cancer have two primary choices for breast cancer surgery:

- Mastectomy (removing all breast tissue) with or without reconstruction
- Lumpectomy (localized tumor removal)

The federal Women's Health and Cancer Rights Act of 1998 requires that insurance plans that cover breast cancer surgeries must also cover breast reconstruction surgery. Sometimes reconstruction can be done immediately, for others it is done in a staged approach.

Multidisciplinary High-Risk Clinic

Aurora BayCare Breast Services team is proud to be an innovator in Northeast Wisconsin offering a comprehensive High-Risk Breast Cancer Program. With a dedicated nurse coordinator, this program proactively works with patients at a higher risk for developing breast cancer. This program provides early intervention aimed at preventing breast cancer.

Breast Diagnostics

Our primary breast diagnostic technology is located at Aurora BayCare Medical Center, and if more convenient, patients can have screening mammograms done at our surrounding locations. At our hospital location, patients can expect 3-D mammography and 'Sensory Suites', including calming audiovisual technology. We pride ourselves on being the first hospital in Wisconsin to offer this mammogram experience.

Natalie Luehmann,
MD

Molly Linzmeier,
APNP

We provide services in Green Bay. For appointments, call 920-288-8480.

CARDIOLOGY

Cardiac care includes evaluation and treatment of a multitude of cardiovascular diseases. These include blockages in the heart arteries, heart attack, blockage in the peripheral arteries (that feed the abdomen, legs, arms, and brain), abnormalities in heart rhythm, diseases of the heart muscle, heart valves, and lung vessels.

The Comprehensive Heart Failure Clinic at Aurora BayCare provides specialized care and education for patients diagnosed with heart failure to help lower the risk of further complications.

Cardiology services include:

- Cardiac Imaging:
 - CT, Echocardiology, MRI, Nuclear Imaging
- Comprehensive Cardiovascular Consultation
- Invasive Cardiovascular Procedures:
 - 65% of heart cauterizations can be performed through the wrist
 - Cardiac catheterization and interventional procedures
 - Peripheral angiography
 - Standard heart disease treatment
- Comprehensive Heart Failure Program:
 - CardioMEMS insertion and monitoring
 - Includes follow-up with Advanced Heart Failure Specialist outreach in Green Bay
 - Seamless referral for advanced management and therapies including advanced heart failure, transplant, and congenital heart disease
- Structural Heart Program:
 - Interventional cardiologist with advanced training in minimally invasive structural heart procedures
 - Left Atrial Appendage Occlusion with Watchman and Amulet Devices
 - Patent Foramen Ovale (PFO) / Atrial Septal Defect (ASD) Closure
 - Congenital Heart Catheterization
 - Transcatheter Aortic Valve Replacement (TAVR)

We provide services in Green Bay, Kaukauna, Marinette, Shawano, Sturgeon Bay, and Two Rivers. For appointments, call 920-288-8300. For appointments in Marinette, call 715-735-8607; for Two Rivers, call 920-793-6550.

CARDIAC ELECTROPHYSIOLOGY

Cardiac care includes evaluation and treatment of a multitude of cardiovascular diseases. These include abnormalities in heart rhythm, device monitoring, and highly specialized treatments. Arrhythmia patients treated by electrophysiologists have better outcomes, including lower risk of complications, hospital readmission, and mortality. Aurora BayCare Medical Center is a destination for specialized care of atrial fibrillation.

Electrophysiology services include:

- Cardiac Imaging:
 - CT
 - Echocardiology
 - MRI
 - Nuclear Imaging
- Comprehensive consultation and management of heart rhythm medications
- Electrophysiology Procedures:
 - Electrophysiology studies for complex arrhythmia diagnosis
 - Cardiac ablation procedures for treatment of arrhythmias
- Device Implantation:
 - Pacemakers including cardiac resynchronization and leadless devices
 - Defibrillators including subcutaneous devices
 - Rhythm monitoring including implantable loop recorders
 - Left Atrial Appendage Occlusion with Watchman and Amulet Devices

We provide services in Green Bay, Kaukauna, Marinette, and Two Rivers. For appointments, call 920-288-8311; Marinette, call 715-735-8607; Two Rivers, call 920-793-6550.

CARDIOTHORACIC SURGERY

Our cardiothoracic surgeon works closely with primary care physicians, cardiologists, and pulmonologists to ensure the best care possible. We provide the following procedures to help treat heart, lung, and other thoracic diseases:

Heart Surgery:

- Atrial fibrillation surgery
- Coronary revascularization, including "Beating Heart Surgery"
- Heart valve repair or replacement
- "Maze Procedure" cardiac tumor resection
- Patent Foramen Ovale closure (PFO)
- Pericardial window

Lung Surgery:

- Biopsy
- Decortication
- Lobectomy / wedge resection
- Pleurodesis
- Pneumonectomy
- Video assisted thoracic surgery

Other Thoracic Surgery:

- Ascending aortic aneurysm repair
- Bentall procedure
- Cervical mediastinal exploration
- Chest wall reconstruction
- Diaphragmatic pacemaker insertion
- Diaphragmatic plication
- Subclavian artery bypass
- Thymectomy

EMERGENCY MEDICINE

BayCare Clinic Emergency Physicians staff the emergency departments and urgent care clinics at Aurora BayCare Medical Center and several Advocate Aurora facilities throughout Northeastern Wisconsin. BayCare Clinic has more than 40 emergency physicians and experienced advanced practice providers. Our physicians are the most tenured group of emergency physicians in the area.

All of our emergency physicians are board certified by or board eligible for the American Board of Emergency Medicine, the American Osteopathic Board of Emergency Medicine, the American Osteopathic Board of Internal Medicine, or the American Board of Family Medicine. Some of our emergency physicians have additional fellowship training in areas that include emergency medical services and critical care medicine. Comprehensive care is available for everything from minor illness and accidents to major, life-threatening injuries and conditions. When needed, our providers have immediate access to highly skilled trauma surgeons, radiologists, orthopedics, plastic surgeons, neurosurgeons, and cardiologists.

We provide services in Green Bay, Kaukauna, Oshkosh, and Two Rivers.

GENERAL & VASCULAR SURGERY

The General & Vascular Surgery department at Aurora BayCare Medical Center provides surgical treatment for a range of conditions. Our providers offer advanced care options treating cases from routine to medically complex.

Listed below are conditions we treat and surgeries our surgeons perform:

- Achalasia
- Anal/rectal procedures
- Bariatric surgery
- Breast surgery
- Colon and rectal surgery
- Colonoscopy and upper GI endoscopy
- Endocrine surgery
 - Adrenal
 - Pancreas
 - Parathyroid
 - Thyroid
- Esophageal surgery
- Gallbladder and bile duct surgery
- Gastroparesis surgery
- Gastroesophageal reflux disease
- Hernia repair, routine and complex
- Laparoscopic and robotic surgery
- Medical weight loss
- Skin and soft tissue surgery
- Skin cancers
- Trauma and critical care
- Wound care

Our providers also offer open and endovascular treatment of a wide range of vascular disorders including:

- Aneurysm
 - Aortic
 - Peripheral
 - Visceral
- Arterial occlusive disease
 - Carotid
 - Extremities (PAD)
 - Mesenteric
 - Renal
- Chronic kidney disease
 - Hemodialysis access
 - Peritoneal dialysis access
- Venous insufficiency and varicose veins

We provide services in Green Bay. For appointments, call 920-288-8250.

GYNECOLOGIC ONCOLOGY

Aurora BayCare Gynecologic Oncology provides comprehensive care for patients with cervical, ovarian, uterine, vaginal, or vulvar cancer.

Our providers are backed by a gynecologic cancer care team that offers the most advanced surgical procedures, chemotherapy, radiation therapy, genetic counseling, and access to clinical trials. Our team offers treatment to patients with gynecologic cancers as well as certain benign (non-cancerous) conditions that involve potentially challenging surgery.

Gynecologic Oncology provides treatment for:

- Complex endometrial hyperplasia
- Ovarian cancer
- Ovarian mass
- Ovarian risk reduction surgery
- Uterine cancer
- Vaginal and vulvar cancers

INTERVENTIONAL NEUROLOGY

Interventional Neurology (also known as Neurointerventional Radiology or Endovascular Neurosurgery) utilizes state-of-the-art imaging to perform minimally-invasive diagnostic and therapeutic procedures in the brain, neck, and spine. BayCare's experienced, fellowship-trained neurointerventionalists collaborate with other specialists to provide comprehensive management of complex neurovascular diseases, including:

- Cerebral aneurysms
- Arteriovenous malformations
- Dural arteriovenous fistulas
- Acute ischemic stroke
- Intracranial atherosclerotic disease
- Carotid disease
- Dural venous sinus thrombosis
- Epistaxis

NEUROPSYCHOLOGY

Our neuropsychologist specializes in issues related to cognitive, learning, emotional, and behavioral problems. These challenges may be the result of injuries, illness, or developmental conditions. Patients who have difficulties at work or school, or with memory loss, inattention, or problem solving may benefit from a neuropsychology evaluation.

Common conditions the neuropsychologists at BayCare Clinic addresses:

- Alzheimer's disease
- Attention problems, including ADHD
- Brain tumors
- Concussion and head trauma
- Dementia
- Memory problems
- Multiple sclerosis
- Parkinson's disease
- Seizures or epilepsy
- Stroke

Julie Hoida Bobholz,

ORTHOPEDICS & SPORTS MEDICINE

Our Orthopedic Surgery and Sports Medicine providers are the area's leaders in orthopedic firsts. We have a large team of orthopedic surgeons, podiatrists, and advanced subspecialists that offer diagnosis, treatment, and rehabilitation for people with bone, joint, and connective tissue disorders.

We offer many common treatment options including, but not limited to:

- Arthritis treatment, including joint replacement surgery
- Carpal tunnel treatment
 - Open carpal tunnel and endoscopic surgery
- Cartilage restoration and transplantation
- Elbow dislocation surgery
- Foot and ankle repair surgery
- Fracture repair
- Hip, knee, shoulder, and ankle arthroscopy
- Knee ligament reconstruction
- Minor in-office hand procedures
 - Carpal tunnel release
 - Trigger finger release
 - Trigger thumb release
- Restorative treatment/medicine
- Rotator cuff surgery and rehabilitation
- Total hip replacement
- Total knee replacement
 - Custom knee implants
 - High flex knee replacement
- Total shoulder replacement
- Trigger release surgery
- Work comp cases

We provide services in Green Bay, Manitowoc, Kaukauna, Marinette, New Franken, Pulaski, Shawano, and Sturgeon Bay. For appointments, call 877-884-8796; for Manitowoc, call 877-618-6676.

ORTHOPEDICS & SPORTS MEDICINE

HAND SPECIALISTS

The human hand is intricate and complex. Trust any problems, big or small, to our experts in hand care. BayCare Clinic's orthopedic fellowship-trained hand specialists have extensive training and experience to treat hand-related traumatic and medical issues. They treat a wide spectrum of hand, wrist, and elbow related conditions.

Thanks to surgical advancements, our hand surgeons have more tools than ever before to restore hand function and appearance, even for severe injuries.

Our goal is to minimize pain and restore function. Our hand specialists work with staff to create an individual program to help each patient regain strength and maximize range of motion. Additionally, they will recommend preventative measures to decrease the chance of re-injury.

Conditions we treat include:

- Arthritis
- Carpal tunnel syndrome
- Congenital abnormalities
- Cubital tunnel syndrome
- Dislocations
- Elbow and humerus fractures
- Emergency and long-term hand conditions
- Nerve disorders
- Numbness in hands or fingers
- Severed fingers
- Tendon and ligament injuries
- Tendon and nerve lacerations
- Trigger finger
- Work-related injuries
- Wrist, hand and finger fractures
- Wrist or elbow pain

Andrew Kirkpatrick,
MD

Brian J. Klika,
MD

We provide services in Green Bay. For appointments, call 920-288-5555.

PAIN & REHAB MEDICINE

When a patient's lifestyle is impacted by pain, injury, or serious illness, we focus on helping them regain control and resume their daily activities.

Pain & Rehab Medicine integrates the best medical and procedural approaches to address each patient's unique concerns. We don't just treat your pain; we go further with a focus on finding and eliminating its cause.

BayCare Clinic Pain & Rehab Medicine has advanced expertise in many areas, including:

- Abdominal pain
- Arthritis pain
- Back/neck pain
- Carpal tunnel pain
- Complex Regional Pain Syndrome (CRPS)
- Headaches
- Joint pain
- Musculoskeletal disorders
- Peripheral neuropathy
- Spinal cord injuries
- Stroke
- Work and sport injuries

You will find a wide range of treatments including minimally invasive procedures, ultrasound guided injections, spinal cord stimulators, threaded procedures, EMG, outpatient care, medication management, acupuncture, BOTOX® therapy, and conservative non-surgical approaches.

We provide services in Green Bay, Kaukauna, Marinette, Manitowoc, Shawano, and Sturgeon Bay. For appointments, call 866-965-4380.

RADIOLOGY

BayCare Clinic has one of the region's most advanced radiology teams. Our board-certified radiologists interpret more than 230,000 images each year. These medical imaging experts use the latest technological advancements to diagnose and treat a wide range of diseases and medical conditions

Our radiologists offer:

- Clinical trials
- Diagnostic Body Imaging
 - Bone density
 - Computed Tomography (CT)
 - Computed Tomography Angiography (CTA)
 - Fluoroscopy
 - Magnetic Resonance Angiography (MRA)
 - Magnetic Resonance Imaging (MRI)
 - Nuclear medicine
 - Positron Emission Tomography (PET)
 - Ultrasound
- Specialty Specific Imaging:
 - MRI Prostate imaging
 - Musculoskeletal radiology
 - Neuroradiology
 - Women's imaging

We provide services at Green Bay. For appointments, call 920-288-4848.

INTERVENTIONAL RADIOLOGY

Our board-certified interventional radiologists perform minimally invasive image-guided procedures to diagnose and treat a variety of diseases and conditions. Minimally invasive approaches can reduce healing time and speed recovery.

Our interventional radiologists offer an office consultative service to provide a thorough evaluation and discussion of the best treatment options for each patient.

We encourage outpatient consultations for patients needing the following procedures:

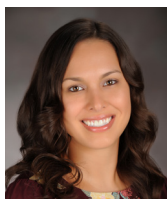

- Chemoembolization (TACE)
- Endovascular and other oncology treatments
- Endovascular treatment of arterial and venous conditions
- IVC Filter, management, and removal
- Kyphoplasty and Vertebroplasty
- Laser ablation
 - Varicose veins
- Mesenteric angiogram
- Microwave ablation
- Radio frequency ablation
 - Soft tissue tumors (liver, lung, and renal)
- Renal angiogram
- Sclerotherapy
- Uterine Fibroid Embolization (UFE)
- Varicocele embolization

UROLOGICAL SURGERY

Our board-certified urological surgeons provide the latest bladder and kidney treatment options, always with strong attention to patient care.

At Aurora BayCare Medical Center, you'll find innovative urology treatments, including minimally invasive and robotic-assisted surgery for urological and kidney conditions.

We treat conditions such as:

- Benign Prostatic Hyperplasia (BPH)
- Bladder cancer
- Bladder control
- Erectile dysfunction
- Incontinence (male and female)
- Kidney cancer
- Kidney stones
- Pediatric urinary disease
- Prostate cancer
- Urinary diseases
- Urinary tract infections

Our urological surgeons remain at the forefront of rapidly changing medical advancements, providing pediatric to adult patients with better care. Accomplished in robotics and laparoscopy, with vast experience in robotic surgical procedures including radical prostatectomy, pyeloplasty, HoLEP procedure for BPH, partial and total nephrectomy.

We also provide additional in office services including vasectomy and pediatric and adult circumcisions.

We provide services in Green Bay, Kaukauna, Manitowoc, and Sturgeon Bay. For appointments, call 920-288-8280.
