

CONSULT[®] URINE ANALYZER

For in vitro diagnostic use

Product features

- 36 tests per hour routine mode capacity
- 300 tests per hour quick mode capacity
- Capability to store up to 2,000 tests
- TFT LCD display with touch screen
- CLIA waived
- Sleek, compact design

*Results in as few
as 6 seconds**

MFG#	Item Description	Additional Features	UOM
773	Urine Analyzer	1 year warranty	1 ea
774	Urinalysis Test Strips	10 SGL	100 ea/bx, 10 bx/cs
775	Thermal Paper	2.25" wide, 150 feet in a roll	6 ea/cs

* 100 seconds = routine test mode. 6 seconds = quick test mode (for batch testing after waiting one color development period)

Product description

The CONSULT® Urine Analyzer is designed for use with our CONSULT® Urinalysis Test Strips. This semi-automated analyzer is CLIA waived and its ease of use, fast time to result, and compact size are designed for use in the physician practice. It features a convenient TFT (Thin Film Transistor) LCD display with touch screen, a built-in high speed thermal printer, and an optional cord for easy connection to the computer. The analyzer does not require any software and can be connected to either PC or MAC. Additional features include alphanumeric operator's and patient's ID functions, and an optional bar code reader allowing entry of lengthy patient IDs.

The CONSULT® Urine Analyzer provides caregivers with information to help detect the early stages of a number of disease states. A sensitive CCD color sensor and semi-automatic operation aid in elimination of human error caused by visual reads and help ensure accuracy of diagnosis with nearly immediate results.

Dimensions: Size: 8.3" (W) x 9.4"(D) x 3.5" (H), Weight: 2.1 lb.

Storage Requirements: Temperature: 32° F to 104° F. Humidity: 10% to 85%

Product Comparison

CONSULT® URINE ANALYZER

Feature	Consult® Brand	CLINITEK Status® manufactured by Siemens Healthcare Diagnostics Inc*
Memory capability	Up to 2,000 tests	200 tests
Time to result	100 seconds in routine mode 6 seconds in quick mode	60 seconds
Test Capacity	36 tests/hour in routine mode 300 tests/hour in quick mode (after color development time)	60 tests/hour
