COURSE OVERVIEWS

CHIROPRACTIC TECHNICIAN CERTIFICATION - 12 CE CT

This Course will provide students with an overall understanding of chiropractic and basic anatomy, while providing the necessary training to satisfy the State of Wisconsin licensing requirements for certification as a Chiropractic Technician. Topics covered include - Chiropractic scope of practice - Basic musculoskeletal anatomy - The basis of current physiological therapeutics utilized within an office setting including indications and contraindications - Skills associated with obtaining patient history and baseline data regarding a patient - Skills associated with obtaining vital signs. A final assessment is given at the end of the course.

CT MODALITIES TRAINING - 11 CE CT

Chiropractic Technicians are required to take the specific modalities they plan to perform in the office, but are encouraged to complete all modules in order to better understand the full scope of CT Delegation. Modules will consist of a review of each of the modalities/therapies, followed by complete instruction in the performance of the given therapy along with hands-on practice. Each module includes a final exam.

Please note: Cold Laser & Light Therapy for CTs and DCs is offered separately. See the CE Calendar at www.wichiro.org.

Thank you to our sponsor!
