# ADVANCED EXERCISE REHAB • 12 CE DC/CT

## FRI JUNE 21, SAT JUNE 22, 2019

### AURORA SUMMIT, OCONOMOWOC

#### COURSE OVERVIEW

This class is a progressive level providing advanced training for DCs and for CTs who currently have the Exercise Rehab endorsement. This allows CTs to continue to learn concepts and advanced their skills beyond the required material, and be able to add in active care into their practice

Identify common structures of anatomy and normal movements (range of motion) of the lower and Upper extremities; evaluate the upper and lower extremities for functional deficits, using movement screens; understand a guided problem solving approach to treatments; and use prognostic values for objective goal setting for patients.

Fri Jun 21, 11am-5pm: Lower Extremity

Sat Jun 22, 8am-2pm: Upper Extremity

#### INSTRUCTOR BIO

**Dr. Jeffrey Sergent** is a graduate of National University of Health Sciences. He is a certified Dynamic Neuromuscular Stabilization Exercise Trainer (DNS-EXT) and Certified Kinesiology Tape Practitioner (CKTP). He treats a variety of athletes from weekday warriors to professional sports players. His practice in Cedarburg, WI integrates manual therapy, Chiropractic and rehab, and attracts CrossFit athletes from all over the world. As a speaker for Midwest Rehabilitation institute, Dr. Sergent lectures for doctors, CrossFit gyms, personal trainers and massage therapists on bridging the gap between rehab and performance.

#### LOCATION

Aurora Summit Medical Center  
36500 Aurora Drive  
Oconomowoc, WI 53066

Use the Hospital Entrance. Class takes place in Draper Hall in the Conference Center.
