COURSE OVERVIEW:

Designed for the licensed CT who is already working in a practice, this course includes a closer look at the healing process, especially the Psychology of Pain, and will help CTs to understand various factors such as mood, culture and past experiences with pain that can vary from patient to patient. We will also discuss advancements in therapeutics that may have developed since you were first certified, review the various stages of healing and dive deeper into how therapeutic modalities can influence the healing process of your patients.

INSTRUCTOR: Brenda Holland, DC, DICCP
