

Dear Members,

Beginning this month, we have now increased our frequency of the WE Newsletter to a monthly basis. You can also view this Newsletter and previous editions in the [Newsletter](#) segment of the website. We remind you to take advantage of key members-only features such as the job openings in the [Career Center](#) and keep your membership profile up to date. Check out our new video clips, [Why WE](#), [Why Sponsor](#), [WE Founders](#) where WE leaders and sponsors share their impressions of the mission and benefits of Women in ETFs.

WE Membership has now exceeded 1,000 members globally - a significant milestone! Our chapters around the globe have continued to deliver a diverse array of events - see below for some photos and details. These gatherings have brought in new members as they serve our mission of CONNECT, SUPPORT, and INSPIRE the advancement of women in the ETF industry. Please take this opportunity to log into womeninets.com to view the Membership Directory, which is searchable by company, name, etc and invite other industry colleagues to [apply for WE Membership](#). You can also view consolidated statistics in the [Membership Profile](#) segment of our website. Our thanks to Natalie Zahradnik and Kristine Delano, Co-Heads of the Global Membership Committee, and their committee for managing the membership process.

After expanding to Asia in March of this year, we are excited to announce an upcoming WE event this summer in [South Africa](#). Extending our reach, we have renamed the WE Europe region as WE EMEA (Europe, Middle East, and Africa) to encompass a growing list of chapters that have a local WE presence. WE EMEA is also continuing our educational series of webinars with an [upcoming WE Webinar](#), Impact of Liquidity, Tax & Regulation when using ETFs: A view from Europe.

Looking to fill the need for more educational materials on ETFs, Co-President, Joanne Hill, is the co-author of a new CFA Foundation Monograph on ETFs, **A Comprehensive Guide to Exchange-Traded Funds**. She is joined by co-authors Dave Nadig and Matt Hougan of etf.com and by WE Founding Member Deborah Fuhr who authored an Appendix on the Global Footprint of ETFs. This book covers the history of ETFs as an innovative product, the features of ETFs, trading and strategy applications, and in-depth coverage of ETFs by asset class category. Those interested in accessing the book can use this [link](#) to download a free copy or purchase it in paperback form.

Lastly, we would like to congratulate Deborah Fuhr for receiving the [Nate Most Award as Greatest Contributor to the ETF Market](#), which is another award in a series of many that Debbie has earned this year!

We look forward to seeing you at future WE events! As always, we also welcome your input at board@womeninets.com.

Joanne Hill & Sue Thompson
Co-Presidents, Women in ETFs
