Women’s Society of Cyberjutsu (WSC) has been successful due in part to volunteers and generous sponsorships for companies like CISCO: companies that see the value in gender diversity in security and in technology. Through CISCO’s sustaining sponsorship, WSC will continue to grow and reach multitudes of women and girls around the country and the world.

Approximately 180 girls attend these hands-on workshops, which are led by over 50 active volunteers. The workshops are held on a weekly basis in Alexandria, VA, College Park, MD, Ashburn, VA, and Tysons Corner, VA. The workshops are designed to give middle and high school girls hands-on experience with STEM fields, preparing them for potential careers in technology.

One of the 1st Year students, Brooke, is going off to California to study Computer Science; she was enrolled in Medicine in the previous year.

Six teams, 36 girls, and 6 volunteers have worked to form new teams headed to finals in 2017. The National Youth Cyber Defense Competition puts students in the position of newly hired IT professionals tasked with managing the network of a small company.
1st Year student Eden won science fair pairing security, tech and medicine by securing a pacemaker.
