

Dear friends:

On behalf of the Local Organizing Committee of the 6th World Parkinson Congress, we invite you to save the date to join us for the next World Parkinson Congress, which will take place in Barcelona from 7 to 10 June, 2022. This is the first time the WPC is being held in Spain. The WPC 2022 is expected to attract around 5,000 delegates from around the world who are interested in Parkinson's disease. Hosting the WPC in Barcelona will be an incredible experience, and we invite you to help spread the word, engage in the outreach, and get involved today!

The innovative program of the WPC will offer some of the most exciting talks on cutting edge basic science, clinical research, and research on care taking place today. Different session formats and different sizes of sessions from large auditoriums down to small interactive roundtables with just 12 people will take place. New research, models of care, and collaborations that are changing the lives of those living with Parkinson's today will be highlighted. While the program is designed in English, main sessions will be translated to Spanish and each afternoon a track will be offered in Spanish to delegates who prefer Spanish sessions. This meeting is designed to be accessible to everyone.

What makes the WPC so unique and exciting is that **ANYONE** touched by Parkinson's is invited to attend. We expect basic scientists, neurologists, nurses, movement disorder specialists, physical and occupational therapists, speech and language pathologists and social work professionals to be in attendance **alongside people with Parkinson's and their family members and care givers.**

If you are researching Parkinson's, living with Parkinson's or providing care to someone with Parkinson's, please consider attending this meeting. Starting with the pre-congress courses on Tuesday, June 7, 2022 all the way through to the

closing remarks at 7PM on June 10, 2022, you will find a session that interests you.

There is no Parkinson's meeting like the WPC. We hope to see you in Barcelona for WPC in June 2022. Learn more at www.WPC2022.org.

Kindest regards,

Eduardo Tolosa, MD
