“Advancing Education through Digital Transformation: Collaborating for Success” reflects the core values and objectives of both A4L and PESC. Jointly, we believe that by fostering collaboration and leveraging technology, we can unlock new opportunities to enhance educational experiences, streamline processes, and empower learners and educators alike.

Join us at this landmark conference as we forge new pathways for digital transformation in education, ensuring access, equity, and excellence for the pK20W+ sector. Together, we can collaboratively shape the future of data standards in education and make a lasting impact on the lives of students, educators, and educational institutions worldwide.

**OBJECTIVES**

- **Expanding interoperability**: Discover how interoperable solutions revolutionize data exchange, enhance system integration, and promote seamless information flow between educational institutions and stakeholders.
- **Leveraging Data for Insights**: Explore the power of data standards, and best practices in utilizing data to drive informed decision-making, personalized learning, and improved educational outcomes.
- **Ensuring Privacy and Security**: Address the critical challenges surrounding data privacy, security, and compliance, and learn about strategies and policies that safeguard sensitive information while promoting data-driven innovation.
- **Collaborating for Impact**: Engage in dynamic discussions, collaborative sessions, and networking opportunities to build partnerships and foster cross-sector collaboration that paves the way for transformative change in education.
