

Student Data Privacy Consortium

Preferred Provider Program

Program Guide

Rationale

The Student Data Privacy Consortium (SDPC), A Special Interest Group (SIG) of the Access 4 Learning Community (A4L), has had immediate and still growing success addressing “tactical” student data privacy issues facing schools each day. This unique Consortium, made up of K12 end users and marketplace product and service providers, has had an immediate impact in schools and the vendor’s partners they work with in delivering better operational and learning technical solutions.

The intent of the Consortium is to have this diverse group of stakeholders to identify and then collaborate on projects that are not addressing, or needing additional support, their student privacy issues. The intent has always been to focus on those collaborative activities and not replace products or services available in the marketplace. This allows for marketplace ingenuity and opportunities for vendors to be a part of the Community.

The SDPC has already been positioned as a trusted resource and information source for both marketplace providers and end users. With its exponential growth and development of tools that have already been embraced tools, the community already is asking for “more”! There have been multiple requests from schools, districts and state agencies asking for additional legal, implementation, professional learning, etc. support as they now pivot to addressing their student privacy pain points. These additional “services” requested may or may not be in the core activities of, but are impacted by, the Consortium tools, effective practices, etc.

Program Description

The Consortium’s Governance Group, as well as the A4L’s Board of Directors, are very aware to not enter into the competition space with community members but want to play a leadership role in supporting the numerous requests from members to make the SDPC Project a success. In an attempt to balance those required requests and the desire to not enter into competition with members, the ***SDPC Preferred Provider Program (P³)*** has been developed. The Program consists of:

- A possible set of SDPC Services established and approved by SDPC leadership (Appendix A)
- A call sent to marketplace providers to become a cadre of possible entities that can provide such goods and/or services to interested customers
- These providers will enter into a contractual agreement with the SDPC to become a “*SDPC Preferred Provider*” (P³) containing a set of established rules and benefits
- P³ members will be promoted in all SDPC communications
- These providers will be reviewed by customer surveys after each engagement

Preferred Provider Requirements

To become an “SDPC Preferred Provider” the following criteria must be met:

- The organization/individual must:
 - Be a member in good standing of the SDPC
 - Promote their products/services in the A4L/SDPC Marketplace and keep information current
 - Have two verifiable recommendations from clients on products/services
 - Enter into an agreement with the SDPC to accurately reimburse 15% of gross income from engagements to the SDPC for reimbursable overhead and product/service promotion
 - Provide a six-month summary of engagements with fee payment – 6 months or 3 months as stated down further
 - Provide customers with a “SDPC Preferred Provider Survey” after engagement

- The organization/individual can:
 - Use the SDPC logo on promotional materials as long as they maintain good standing status
 - Update their promotional information on the SDPC Marketplace
 - Schedule a once a year SDPC sponsored webinar to promote privacy support activities across the entire Community and marketplace
