

## American Association of Code Enforcement Conference Speaker Submission Form

Securing speakers that have the expertise to benefit our members is of the utmost importance. Your submission will be evaluated based on subject matter, experience in a training environment, the courses that the executive board deem beneficial and other mitigating factors. Please fill out this form completely so that a fair, unbiased evaluation can be conducted. If you are not selected for this year's conference, do not be dismayed. Every year the subject matter changes from conference to conference. There will be other opportunities in the future.
