Article I. Overview of the Continuing Education Program
Section 1.01 Purpose and Scope

This document has been developed by the Education Committee of the American Association of Electronic Reporters and Transcribers (AAERT) to define the rules under which AAERT's Continuing Education Program operates.

These rules are intended to apply to both continuing education activity sponsors seeking preapproval of those activities, as well as to individuals seeking to claim CEUs from AAERT for non-pre-approved activities.

At its most basic level, continuing education is defined as the education of an individual beyond the basic preparation for his or her profession. In the AAERT setting, as in many other professions, continuing education plays a crucial role in ensuring that the high levels of knowledge, ability, and professional competence that are needed to become certified are maintained and improved over time.

The goal of continuing education for AAERT is to equip credential holders with the knowledge and skills necessary to compete in a world of ever-changing information and technology. A uniformly applied continuing education program ensures that clients will experience a consistently high level of quality, proficiency, and knowledge among AAERT credential holders.

The world of knowledge is constantly changing driven by technology, and in this spiraling explosion of information, AAERT credential holders must keep abreast of new developments or face being left behind. The obvious benefits of continuing education are learning new skills, keeping up with technological advances, and developing new areas of expertise. However, the hidden benefits may be even more valuable—keeping the mind open to new ideas, honing the skills of learning and developing as a well-rounded professional.

Section 1.02 Authority
AAERT’s Continuing Education Program is established and administered under the authority of the Education Committee. The operation of this Committee is mandated by the Bylaws of AAERT and its Chair is appointed by the AAERT President. Any request for exemption from the policies outlined below must be addressed to the Education Committee.

Section 1.03 CEU Program Accreditation and Standards
AAERT's certifications and other credentials are developed, independently validated, and maintained on an ongoing basis. AAERT strives to meet the highest credentialing standards in an effort to prepare our membership for success.
Section 1.04 Definition of the Continuing Education Unit (CEU)

The International Association of Continuing Education and Training, defines the CEU as: Ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction and qualified instruction. Old Dominion University uses this definition.

The Continuing Education Program uses the definition of The International Association of Continuing Education and Training, and defines the Continuing Education Unit (CEU) as: Ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction and qualified instruction. Old Dominion University.

The Continuing Education Unit (CEU) is in the public domain and is the nationally recognized standard unit for measuring participation in noncredit continuing education particularly as it applies to the personal and professional development of adult learners in a formalized, educational setting. Individuals and organizations value the CEU’s as a measure and documentation of programs that meet nationally agreed upon criteria assuring program quality.

To compute the number of clock hours that can be awarded, the number of 60-minute clock hours attributed to actual classroom activity is divided by ten. Therefore, if a class is two days at 8 hours per day, the units awarded would equal 1.6 CEUs. Instructional hours do not include breaks, meals, registration time, etc.

AAERT strongly believes that different individuals learn differently, and therefore continuing education must be flexible. To that end, credential holders may earn CEUs either through activities that have been pre-approved by AAERT, or they may apply for CEUs for non-pre-approved activities, provided that those activities meet the criteria contained in this document. Both pre-approved and non-pre-approved activities are subject to the same criteria for CEU eligibility.

Section 1.05 Mandatory Credit Requirements and Cycles

Each AAERT credential requires the holder to earn a certain number of credits (CEUs) per continuing education cycle and continue to maintain a yearly AAERT membership. A continuing education cycle consists of a three-year period. An individual's first cycle shall begin immediately upon being awarded his or her first AAERT credential.

The cycle end date for the first cycle will be the membership renewal date that occurs at least three years after the cycle start date. The cycle will continue every three years. Once the requisite 3.0 CEUs have been obtained, please reference the fee schedule on the website for the applicable fee to complete the CEU process. The credit requirements for each AAERT credential are below:

AAERT Credential(s) Credit Requirement per Cycle
Certified Electronic Reporter
3.0 total credits
AAERT Credential(s) Credit Requirement per Cycle
Certified Electronic Transcriber
3.0 total credits

Section 1.06 Failure to Complete CEU Requirement
In the event that an AAERT Certified Member fails to earn the required credits by the cycle end date, the AAERT Certified Member must retake the entire exam(s) and will be charged the appropriate exam fee(s).

Section 1.07 Reinstatements
Reinstatement will not be given to anyone that has allowed their certification and/or membership to lapse without having completed one or both of the following:
- Retake and pass the required exam(s)
- Renew your membership for the lapsed years or pay the recertification fee that is described on our website for those that did not keep a three year consecutive AAERT membership.

Article II. Criteria for CEU Eligibility
In order to be eligible for CEUs an activity must meet ALL of the following criteria:

Section 2.01 Valid Educational Learning Objectives
The activity must include stated learning objectives. Those learning objectives must be designed primarily to provide instruction within an eligible topic area(s).

Section 2.02 Primary Target Audience(s)
The activity must be designed primarily to meet the continuing education needs of a specific AAERT credential holder segment or segments, including court reporters, transcriptionists, court reporting educational instructors and administrators.

Section 2.03 Relation to Professional Competence
The learning objectives of the activity must be closely related to improving or maintaining the professional competence of one or more of the target audiences mentioned above.

Section 2.04 Capable Instructor(s)
Each activity or session must be led by at least one instructor who is demonstrably and objectively capable to instruct participants on the topic(s) relevant to the stated learning objectives.

Section 2.05 Qualified Responsible Sponsor(s)
The activity must be sponsored by at least one established education provider in good standing with AAERT. Qualified sponsors include, but are not limited to:
(a) Independently accredited schools, colleges, and universities
(b) Local, state, national, and international professional and trade associations
(c) Entities that employ or contract the services of AAERT certification-holders.
Sponsor organizations or entities formed exclusively for the purpose of conducting one educational activity typically are not considered qualified for the purposes of determining CEU credit.

Section 2.06 Minimum Duration
In order to qualify for CEUs, each portion of the activity must be at least 60 minutes in duration, excluding any breaks and non-CEU-eligible content.

Section 2.07 Attendance Verification for In-Person Activities
The sponsor must be willing to certify that the participant was present and participated in the activity. For in-person activities, the exact method of attendance verification may be determined by the sponsor. If a participant does not fully complete an activity, it is his or her ethical duty to report partial completion to the sponsor. The sponsor must then certify only partial credit for that participant.

Section 2.08 Evaluation Procedures
The sponsor must establish and implement evaluation procedures in order to determine participant satisfaction and the effectiveness of the continuing education offering.

Section 2.09 Attendance Verification for Distance Learning Activities
For distance learning activities (i.e., those that are delivered remotely, with the participant in a different physical location from the instructor), the sponsor must use an approved tracking method to verify completion of at least 80% of the approved activity. Approved verification methods include:
(a) Key letters or words embedded in the content which are required to certify completion
(b) Intermittent prompts that require input from the participant before the activity can continue
(c) Mandatory quizzes or content summaries at the completion of the activity
(d) Minute-by-minute tracking of how long the attendee participated in the activity
Verification must be established in such a way that at least 80% of the activity is verified. For instance, if a distance learning activity consists of 60 minutes of continuing education, the final verification point cannot occur more than 12 minutes before the end of the activity. Asynchronous activities must prevent the user from bypassing attendance verification points or skipping ahead to complete the activity in less time.

Article III. Topics Eligible for CEUs
