

## ABOUT GHENT UNIVERSITY

Ghent University is a world of its own. Employing more than 8,000 people, it is actively involved in education and research, management and administration, and technical and social services on a daily basis. It is one of the largest, most exciting employers in the area and offers great career opportunities. With each of its 11 faculties and more than 100 departments offering state-of-the-art study programmes that are grounded in research in a wide range of academic fields, Ghent University is a logical choice for its employees as well as its students.

## YOUR TASKS

- At least 50% of your assignment will be spent on academic research in preparation of a doctoral dissertation in pharmacokinetics and pharmacodynamics of antimicrobials intended for livestock.
- You will assist in the teaching activities at the department, specifically the course pharmacokinetics for veterinary medicine students.
- You will assist in the internal and external services of the department, more specifically veterinary pharmacology and toxicology.

## WHAT WE ARE LOOKING FOR

- You hold a Master's degree in veterinary medicine (DVM or equivalent), pharmaceutical sciences (PharmD, MSc or equivalent) or an equivalent degree. The degree requirements need to be fulfilled at the start of your appointment. Final year students are also eligible to apply.
- Preferably graduated with honors. Excellent study results is an asset.
- You are willing to handle experimental animals (poultry and livestock) in an ethically acceptable manner. Experience is not required.
- You are interested in academic and/or project-based research and services.
- Any teaching experience or participation in extra training, conferences, etc. is recommended.
- You have excellent teaching and communication skills in English (both written and verbal).

## WHAT WE CAN OFFER YOU

- We offer you a two-year appointment, which may be renewed twice for two years, on condition that the previous term was given a positive evaluation. Attention: If you have been previously appointed as a junior assistant or doctoral fellow at a university within the Flemish Community, this appointment will be deducted from the maximum term of appointment, which is six years at the most according to the Codex of Higher Education.

- Your appointment will start on 1 November 2017 at the earliest.
- Your remuneration will be determined according to salary scale AAP3. More information is available on our [website](#).
- All Ghent University staff members enjoy a number of benefits, such as a wide range of training and education opportunities, 38 days of paid leave, bicycle commuting reimbursement, ecocheques, etc. A complete overview of all our fringe benefits can be found on our [website](#) (in Dutch).

## INTERESTED?

Apply **online before** the last application date (**May 15, 2017**). Make sure you upload the following documents:

- application letter
- cv, including an overview of study results (merged into one file of maximum 5 MB)
- a transcript of the required degree
- for diplomas awarded outside the European Union: certificate of equivalence (NARIC) (if you already have it)

**You can access the online application form through the following link which is accessible from April 18 to May 15, 2017:**

<https://www.ugent.be/en/work/vacancies/assisting/applyonline-aap.htm>

We do not accept applications that are sent by e-mail or applications that lack (one of) the above-mentioned documents.

As Ghent University maintains an equal opportunities and diversity policy, everyone is encouraged to apply for this position.
