RABIES IN THE AMERICAS

RABIES IN THE AMERICAS (RITA) 2026

Advancing Rabies Science
• Prevention • One Health

OCTOBER 18–23, 2026
TEMPE, ARIZONA, USA

**ARIZONA STATE UNIVERSITY
MEMORIAL UNION**

Since 1990, the Rabies in the Americas (RITA) Conference has brought together experts from more than 20 countries across five continents to advance the science, surveillance, prevention, and control of rabies.

Join researchers, public health professionals, veterinarians, wildlife experts, laboratory scientists, and students for an exceptional opportunity to learn, collaborate, and build lasting global partnerships.

CONFERENCE HIGHLIGHTS

- 🐾 International scientific presentations
- 🐾 Rabies surveillance and epidemiology
- 🐾 Wildlife and domestic animal rabies
- 🐾 Human and veterinary public health
- 🐾 Laboratory diagnostics
- 🐾 Prevention and control strategies
- 🐾 One Health collaboration
- 🐾 Networking with international colleagues

WHO SHOULD ATTEND?

- 👤 Researchers
- 👤 Veterinarians
- 👤 Physicians
- 👤 Public Health Professionals
- 👤 Wildlife Biologists
- 👤 Laboratory Scientists
- 👤 Epidemiologists
- 👤 Students and Trainees
- 👤 Government Officials
- 👤 Rabies Program Managers

WHY ATTEND?

- ✓ Learn about the latest advances in rabies research and control.
- ✓ Exchange ideas with internationally recognized experts.
- ✓ Develop new collaborations across disciplines and countries.
- ✓ Help advance the global effort to eliminate human rabies.

EXPERIENCE TEMPE, ARIZONA

Located in the heart of the Sonoran Desert, Tempe offers a vibrant university setting with convenient hotels, restaurants, cultural attractions, and outdoor recreation—all within easy reach of the conference venue.
