What is Respondus® Lockdown Browser®?

Respondus® provides a custom browser that secures the testing environment. Lockdown Browser® is the “gold standard” for securing online exams in classrooms or proctored environments.

Why use Respondus?

Kryterion is transitioning to the use of the secure browser provided by Respondus because it provides the following benefits over Sentinel.

- Every year Respondus is used by 2,500+ institutions around the world delivering 100+ Million exams
- It provides exam security to combat:
  - Virtual machine and safe mode exploits
  - Extended desktop, multiple-monitor, and screencast exploits
  - Undesirable applications running in the background (ex: video recording)
- It enables enhanced accessibility support that:
  - Meets all web content accessibility guidelines
  - Supports major screen readers, text-to-speech, and magnification applications
  - Provides additional accessibility features, the details of which can be found here: [Respondus Accessibility Features](#)
