  – Technology
BPM CBOK®
The 9 Knowledge Areas

Knowledge Areas

Business Process Management
- Process Modeling
- Process Analysis
- Process Design
- Process Transformation
- Process Performance Management

Business Process Management Technologies

Process Management Organization

Enterprise Process Management
Desired Provider Courses

• BPM CBOK 9 Knowledge areas plus any of the new material in the BPM CBOK 4.0 (see slides 3-4)

• Process Modeling / Analysis / Design

• New BPM Technologies like Process Mining, RPA, Blockchain, AI / ML, IoT

• Business / Digital Transformation

• Change Management, Risk Management, Performance Management, Organizational Design
Benefits of Registered Training Provider Program

• Registered Training Provider database
  – Provider can offer in person or virtual courses that
    • allows for members/non-members to search for training in their home country by knowledge area and by local language
    • Virtual training can be delivered live globally (via Zoom, Teams, etc.)

• Learning Management Platform
  – Allows for providers to record their courses in English or their local language and offer them globally to anyone “on demand”
  – ABPMP manages backend registration, payment, etc. Provider will get monthly statements of who took what courses along with payment wired to their bank in home country.
Registered Training Provider Program

- Registered Training Providers (RTPs) can be individuals, organizations or Educational Institutions that offer training in the BPM CBOK 9 knowledge areas.
  - Requirements:
    - At least one person (company) or individual is CBPP certified
    - Courses must cover any of 9 knowledge areas and/or content covered in BPM CBOK

- The initial fee* to become a new RTP are as follows:
  - Individual/Company: $350 USD
  - Educational Institution: $300 USD

* The fee gives each provider all the benefits of membership (Free download of BPM CBOK, discounts on exams and courses, etc. and includes the setup charges to put Provider’s online courses into the Learning Management Platform)
Learning Management Platform

- (RTPs) can put their courses in ABPMP’s LMS.
- ABPMP will manage the backend and globally market the courses to over 17,000 individuals.
- There is a distribution contract that the RTP signs to license the course to ABPMP to market it, and the revenue is a shared model (70% to Provider, 30% to ABPMP)
  - The 30% covers:
    - Loading and launching courses into LMS platform
    - All financial transactions (collect money, backend accounting, bank wiring, etc.)
- A quarterly statement is sent to Provider and the proceeds are (preferred) wired to Provider quarterly.
- It is a way for Providers to get their courses marketed globally and collect money (passively).
