Conference!

25th National Mother Baby Nurses Conference

9th ANNUAL Symposium for Nurse Leaders

September 7–10, 2022
Renaissance Palm Springs
Palm Springs, California

Preconference Sessions

Wednesday, September 7

7:00 AM–7:00 PM Registration Open

9th ANNUal Symposium for Nurse Leaders

8:00 AM–4:00 PM Full Day Session (6.5 contact hours)

010

Death of the Skills Fair: Competency Assessment Done the Wright Way

James Edwards, MSN-ED, RN, NPD-BC, CCRN-K, CEN

Staff competency assessment and validation is an important part of any patient safety program. Skills fairs are fraught with challenges and are not proven methodologies to better patient outcomes. This intermediate-complexity workshop shares one hospital's experience on a journey to change its way of assessing and validating employee competence—and the lessons that inform its work today.

Leading From the Front: Managing Change and Competencies to Improve Care

Lakisha Flagg, DrPH, MPH, RN, CPH

Dr. Flagg's presentation includes an overview of foundational considerations for managing the 'people side of change' as well as review of use cases for skills application. Implications of and opportunities for promoting systems-level thinking will also be discussed.

LRN5 MNN4 OB6

Preconference Sessions

8:00 AM–11:30 AM Morning Programs
(3.25 contact hours)

020 Neonatal Pharmacology, Part I:
Go with the Flow: Pharmacotherapy
for Hypotension and PDA

Christopher McPherson, PharmD
Amy Inah, DNP, MSN, NNP-BC

Our speakers describe the physiology and pharmacology of neonatal cardiovascular support. The first half focuses on the physiologies of hypotension and hypoperfusion. Volume expanders, inotropes, and vasopressors utilized to support these physiologies are explored in detail. The second half focuses specifically on cardiogenic hypoperfusion caused by patent ductus arteriosus. The physiology of ductal steal is described, and the risks and benefits of available pharmacotherapies utilized to constrict the duct are explored.

LRN4 Rx=3.25

040 Legal Risk and Professional
Responsibility: REAL Survival Skills!

Laura Mahlmeister, RN, PhD

Heightened demands for accountability have made front-line nurses, educators, and managers increasingly vulnerable to claims of negligence. Our work environments demand competence, quality, and safety as well as compliance with healthcare law and accreditation standards. Dr. Mahlmeister focuses on skills that empower nurses, enhance work satisfaction, and improve patient outcomes.

LRN5 MNN4 OB6

12:30 PM–4:00 PM Afternoon Programs
(3.25 contact hours)

030 Neonatal Pharmacology, Part II:
Breathe Easily and Go with Your Gut:
Pharmacotherapy for BPD Prevention
and Neonatal Gastrointestinal
Challenges

Christopher McPherson, PharmD
Amy Inah, DNP, MSN, NNP-BC

The first half of this in-depth workshop focuses on the pathophysiology of BPD and describes the risks, benefits, and optimal timing of pharmacotherapy to prevent this morbidity. The second half describes the pathophysiology of common neonatal gastrointestinal challenges. We explore in detail the mechanisms and data supporting pharmacotherapies utilized to address these challenges.

LRN4 Rx=3.25

050 Improving Quality Improvement:
A Hands-On Methods Workshop

Munish Gupta, MD, MMSc

Effective quality improvement (QI) interventions, using robust and rigorous methods, is a foundation of excellent newborn care. This workshop provides a hands-on approach to learning basic and not-so-basic QI methods. Participants will be asked to identify a QI target in the clinic, and then will complete a series of exercises to move from an idea to a structured framework for improvement.

LRN5 MNN4 OB6

Conference Opening Keynote & Welcome Reception

4:15–5:15 PM

Doing What We Do...With a Lot Less!

Kelley Shultz, MD, FAAP

Dr. Shultz shares accounts of work being done in a developing country that has been very successful at decreasing maternal mortality and the mortality of infants less than a week old without the technology that we take for granted. She shares the successes of a train-the-trainer model and discusses the future of this mission work and what it means to the children of this region.

LRN5 MNN4 OB6

5:15–6:30 PM

Welcome Reception, Exhibit Hall Opening, and Poster Viewing. Welcome to the conference! Food, Music, Networking, Posters, and Exhibits. Come join us as we gather in-person to welcome you!

- Rx Hours of Pharmacology Content

Thursday September 8

7:00 AM–4:30 PM Registration Open

General Sessions

8:00–8:15 AM Welcome/General Announcements

8:15–9:15 AM

301 Legal Tools Mother Baby Nurses Need to Know

Laura Mahlmeister, PhD, RN

Although Mother Baby units are often considered low-risk settings, nurses caring for families in the postpartum period still face potential legal liability. In many Mother Baby units, 20–30 percent of women are post-surgical patients. Infants formerly placed in “observation” nurseries now room-in with mothers who may not be ready to care for them. Dr. Mahlmeister examines legal risks for Mother Baby nurses and strategies to minimize liability.

LRN5 | MNN4 | OB6

9:15–10:15 AM

302 Early Recognition of Maternal Compromise

Suzanne McMurtry Baird, DNP, MSN, RN

Dr. Baird describes the early warning signs of maternal compromise and explores steps to assess and manage.

OB3

10:15–11:30 AM Refreshment Break—Exhibits and Posters Open

11:30 AM–12:30 PM

303 Are We Safe—Electronically Speaking?

Kelley Shultz, MD, FAAP

Dr. Shultz explores medication safety, including some history and how electronic medical records and other technology have impacted it. Issues specific to pediatrics in conjunction with general issues are discussed. Examples of medication errors are presented with possible strategies to avoid them.

LRN5 | MNN4 | OB6

12:30–1:45 PM

Lunch Break—Exhibits and Posters Open

1:45–2:45 PM

304 Obstetric Maternal Sepsis Bundle

Suzanne McMurtry Baird, DNP, MSN, RN

Sepsis resulting from maternal infection is the second leading cause of pregnancy-related death. Although screening and initial care of a septic nonpregnant patient with sepsis is standardized in nonpregnant adults, many challenges exist for early recognition and management of sepsis and septic shock in the obstetric population. This lecture will outline maternal sepsis bundle components.

LRN1 | MNN1 | OB3

2:45–3:45 PM

Refreshment Break—Exhibits and Posters Open

3:45–4:45 PM

**A Workshops
(Concurrent Sessions)**

321 Swallow Dysfunction and Infant-Driven Feeding: It's a Lot to Digest

Katy Peck, MA, CCC-SLP, CBIS, CLE, BCS-S

Speaking from a speech-language pathologist's perspective, Ms. Peck discusses dysphagia in late preterm infants. She addresses principles of oropharyngeal dysphagia, tracheal aspiration, and common etiologies of swallow impairment often associated with this population. Modified barium swallow studies and fiberoptic endoscopic evaluation of swallow are used to facilitate understanding of the biomechanics of swallowing. Methods to optimize oral feeding safety are discussed.

LRN2 | MNN3 | OB5

322 Our Journey to Family-Centered Care in the OR

Julie Vasher, DNP, RNC-OB, CNS, C-EFM, C-ONQS

Dr. Vasher describes her community hospital's journey to provide a Family Centered Care experience for families in the OR. This includes the initiation of immediate skin-to-skin care, see-through drapes, and other enhancements to the families' experiences in the OR.

LRN5 | MNN4 | OB6

FRIDAY, SEPTEMBER 9

7:00 AM–4:30 PM Registration Open

General Sessions

7:45–8:00 AM Announcements

8:00–9:00 AM

305 A Modern Take on the Motherhood Fable: The Reality of PMADs and a Framework to Mitigate Them

I. Christine E. Lee, PhD, MPH, RN, PHN, CPH, CHES

The picturesque moment of happiness once a baby is born is a timeless, yet modern, fable of motherhood. This vision neglects the dark side of childbirth, that of postpartum mood and anxiety disorders (PMADs). Dr. Lee discusses a maternal adaptation framework that can serve as a mitigation strategy in these disorders. In addition, it helps to protect the fundamental attachment and bonding within the maternal-infant dyad.

MNN2 OB4

9:00–10:00 AM

306 The Puzzle of Pre-eclampsia: Creating an Escape Room to Reinforce the Principles of Pre-eclampsia Care

Julie Vasher, DNP, RNC-OB, CNS, C-EFM, C-ONQS

In providing evidence-based care, pre-eclampsia can be a complicated situation. Dr. Vasher shares her experience of an escape room created by her hospital for nursing staff and physicians to provide the opportunity to reinforce the principles of pre-eclampsia. The discussion includes recognition of a mother's deteriorating clinical condition and use of first-line medications.

LRN1 MNN1 OB3

10:00–11:00 AM Refreshment Break—Last Chance to Visit Exhibits

11:00 AM–12:00 PM

307 Weed to Know: Cannabis in Pregnancy and Breast Feeding—Why Shouldn't I Use?

Maureen Gordon Shogan, MN, RNC

How do I differentiate THC and CBD? Does smoking have a greater effect than using edible cannabis? How does cannabis affect the fetus or newborn when either parent uses? How long does it stay in human milk and how is the baby affected? Should we use a mother's milk if she tested positive for THC? Using current evidence-based data, Ms. Shogan will creatively facilitate your ability to share the answers on this emotionally charged topic with parents and colleagues.

LRN2 MNN2 OB4 Rx .5

12:00–1:30 PM Lunch on your own

1:30–2:30 PM B Workshops
(Concurrent Sessions)

341 We Brought VBAC Back!

Julie Vasher, DNP, RNC-OB, CNS, C-EFM, C-ONQS

Dr. Vasher describes the steps her hospital took to offer the option of vaginal birth after cesarean (VBAC) to the patients in her community. She includes some historical information related to VBAC and the steps taken to gain confidence with their teams and present a successful VBAC implementation plan. Lessons learned and key data collection are discussed.

LRN1 MNN1 OB2

342 You are Entering the Danger Zone: How to Actually Be the Best Place to Work!

Sherri Lee Simons, MSN, RNC-NIC, CCRN

Nurses spend most of their lives at work. In fact, the only place they spend more time is in bed! Even before the pandemic triggered a new wave of workplace burnout, nurses reported dissatisfaction in the workplace. Nurses should hope (if not expect) that the workplace is an environment of joy. Ms. Simons explores how to make your work the best place to be. Come join the lesson, learn some great stuff, and have fun!

LRN5 MNN4 OB6

343 Neonatal Hyperbilirubinemia: How to Mellow Out the Yellow

Tara L. Billings, DO

Dr. Billings discusses neonatal hyperbilirubinemia. The various causes of jaundice are explored as well as how to treat.

LRN3 MNN3 OB5

2:45–3:45 PM C Workshops
(Concurrent Sessions)

351 No Mother Left Behind: Reducing Breastfeeding Disparities in the African American Community

Kimberly Seals Allers, BA, MS

Despite some improvements, lingering racial disparities in breastfeeding rates still exist, particularly at the 6-month and 12-month exclusivity milestones. Ms. Allers identifies five key cultural and structural barriers to breastfeeding for the African American community as well as eight strategies for overcoming barriers, engaging with community and communicating effectively with Black women, men and birthing people. You will better understand how current breastfeeding messaging and protocols may be disconnected from the lived experience of African American women and will understand strategies for developing more culturally appropriate messaging and outreach.

LRN2 MNN2 OB4 or LRN5 MNN4 OB6

352 The Taste of Sweet Success: Oral Glucose Gel for Newborns with Asymptomatic Hypoglycemia

Timothy J. Chinnock, MD

Oral glucose gel has been shown to be an effective treatment for asymptomatic neonatal hypoglycemia. Dr. Chinnock describes the clinical effectiveness of oral glucose gel, its effect on the number of transfers to a higher level of care for hypoglycemic infants, its cost effectiveness, and his center's experience in initiating a protocol to treat infants identified with asymptomatic hypoglycemia in the well newborn nursery.

LRN2 MNN3 OB5

353 Podium Presentations

Multiple Presenters

Peer-reviewed abstracts have been selected for podium presentations. Each session has multiple presenters. These cutting-edge presentations will bring you up-to-date on innovative research and clinical practice projects. Discover what your colleagues from across the country are doing as they share their unique experiences. A balance of clinical, research, and education-themed abstracts are presented.

*Combined Sessions with Mother Baby
and Advanced Practice Conference*

8:00–9:00 AM

401 **Battling Bias: Centering the Lived Experience to Advance Perinatal Care**

Kimberly Seals Allers, MS

Implicit bias has been well documented as directly linked to the Black maternal mortality crises and high rates of Black infant deaths. In addition to anti-bias training and evidence-based maternity care, how can centering the lived experience of care of Black birthing people advance equity and improve perinatal care? Using data from Irth (as in Birth, but without the B for bias), a hospital review platform for Black and brown women to find and leave experiences of care at OB/GYNs, birthing hospitals, and pediatricians. Irth captures the intersectional experiences of birth at U.S. hospitals from Black women, including lactation support, and analyzed the data to identify trends and patterns of bias to develop insights, and actionable strategies to improve perinatal care and support for Black and other families of color.

LRN5 MNN4 OB6

9:00–9:15 AM Break—Coffee and Tea

9:15–10:15 AM

402 **Panel Discussion: Palliative Care in the Perinatal Setting**

Lori Wood, MSN, CNS, RNC-NIC, IBCLC

Tracy Gill, BSN

Timothy J. Chinnock, MD

This session includes a presentation of the evidence and science surrounding palliative care programs in the perinatal setting. Clinical presentations of infants, common diagnoses necessitating palliative care, program inclusions, and family needs and participation are included. Collaboration between providers: nursing, NICU, pediatrics, and perinatal departments is discussed. Program development and roll out are shared.

LRN3 MNN3 OB5

10:15–11:15 AM

403 **Nursing: The Future is Ours!**

Donna Cardillo, RN, MA, CSP, FAAN

Nursing stands at the precipice of radical change. As such, a unique opportunity presents itself for us to take on a larger and more pivotal role in healthcare beyond anything that most of us could have ever imagined. As this new role takes shape, nurses will need to change their way of seeing themselves, their profession, and their capabilities. It's time to start owning our power!

LRN5 MNN4 OB6

11:15 AM–11:30 AM Concluding Remarks

Topics and Speakers are Subject to Change

Call for Abstracts

We invite you to submit an abstract for a poster or podium presentation to present at this outstanding conference. Posters and podium presentations offer the perfect opportunity to network, exchange ideas, and improve the quality of nursing education for neonatal and mother baby nurses. **Submission deadline is June 30, 2022.** See academyofneonatalnursing.org for guidelines and submission information.

Statement of Purpose

The purpose of this conference is to provide current and clinically applicable information for prenatal, intrapartum, and postpartum care of the mother as well as infant care, both in the hospital and through transition to home. The educational sessions provide information to nurses and other health care professionals who care for the expectant and postpartum mother and her newborn. Specific objectives for each presentation will be listed in the conference program materials.

Continuing Education

Attendees may earn up to 35 contact hours of continuing education for this conference, based on a 60-minute hour. (The main conference sessions provide 14 contact hours, preconference sessions up to 6.5, and poster sessions up to 8.) An additional 6 bonus credits will be added for full conference attendees when the conference concludes. Participants must be registered for the conference, attend at least 90% of each session, and complete evaluations to earn continuing education contact hours.

The Academy of Neonatal Nursing is accredited with distinction as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

The provider, the Academy of Neonatal Nursing, is approved by the California Board of Registered Nursing, Provider #CEP 6261; Florida Provider #FBN 3218, CE Broker #50-3006.

Planning Committee

Deb Fraser, MN, CNeon (C)

Associate Professor, Athabasca University
Neonatal Nurse Practitioner
St. Boniface General Hospital
Winnipeg, Manitoba, Canada
Editor-in-Chief, Neonatal Network

Tracy Gill, BSN

Perinatal Educator
Desert Regional Medical Center
Palm Springs, California

Maxine Ogbaa, BSN, RNC-NIC, CLC

Charge Nurse
Children's Hospital Los Angeles
Los Angeles, California

Sherry Lee Simons, MSN, RNC-NIC, CCRN

Senior Program Manager
Pharos Group
Stafford, Virginia

Lori Umanzio, RN, MSN, NNP-BC

Neonatal Nurse Practitioner
Desert Regional Medical Center
Palm Springs, California

Lori Wood, MSN, CNS, RNC-NIC, IBCLC

Neonatal/Pediatric Clinical Nurse
Specialist Eisenhower Health
Rancho Mirage, California

Weather

Typical temperatures in Palm Springs in September will get up to about 100 degrees during the day and a low of 72 degrees in the evenings. Be sure to pack a sweater, light jacket or wear layers in the air-conditioned meeting rooms. We also suggest that you bring comfortable walking shoes for your conference activities.

Airport & Transportation

Palm Springs International Airport is 1.5 miles away from the hotel. Estimated taxi fare: \$7 (one way). Estimated ride share service fare: \$15–25 (one way).

Ontario International Airport is 70 miles from the property. Los Angeles International Airport is 124 miles from the property.
