CODING FOR NCC MAINTENANCE

Spring 2023 National Advanced Practice Neonatal Nurses Conference
April 26–29, 2023

Competency categories are provided for your information. The final decision regarding the competency categories is at the discretion of NCC.

NNP Codes	Session Names
Physical Assessment (Code 1)	• Neurodevelopmental Assessment and Follow-Up: If We Only Had a Crystal Ball, We Would we be Able to Predict the Outcomes • Palliative Care: Fetus to Neonate
Embryology, Physiology, Pathophysiology and Systems Management (Code 2)	• To Close or Not to Close: The Never-Ending PDA Story • Gut, Sweat, and Tears • NAVA: Is it better than NIPPV? • Cardiac Case Studies • Tiny Bubbles for Tiny Babies. Surfactant for Respiratory Distress Syndrome: Past, Present and Future • Small Baby Ventilation Strategies
General Management (Code 3)	• Everything You Need to Know to Upskill Your NICU from Family-Centered Care to Family Integrated Care • Neonatal Nutrition
Pharmacology (Code 4)	• Choosing the Right Antibiotic • Pharmacogenomics: It's Getting Personal! • The Use of Antiviral Drugs in Neonates
Professional Practice (Code 5)	• Misadventures in the NICU: The Challenge of Evidence, Past and Present • The Evolution of Family-Centered Neonatal Care: Where We've from and Future Possibilities • Telehealth to Provide Clinical Services and Outreach Education for Neonatal and Pediatric Patients in Rural Hawaii • No NEC Babies: A QI Bundle Approach to NEC Reduction • NNP Mentorship • Podium Presentations • Experiences and Lessons Learned From Forming a Tiny Baby Team • The Future of NNPs: Panel Discussion • Health Inequities in the NICU • Nursing Leadership: Now and Future

NIC Codes	Session Names
General Assessment (Code 1)	• Neurodevelopmental Assessment and Follow-Up: If We Only Had a Crystal Ball, We Would we be Able to Predict the Outcomes • NAVA: Is it better than NIPPV? • Neonatal Nutrition • Small Baby Ventilation Strategies
Physiology and Pathophysiology (Code 2)	• To Close or Not to Close: The Never-Ending PDA Story • Gut, Sweat, and Tears • Palliative Care: Fetus to Neonate • Everything You Need to Know to Upskill Your NICU from Family-Centered Care to Family Integrated Care • Cardiac Case Studies • Tiny Bubbles for Tiny Babies. Surfactant for Respiratory Distress Syndrome: Past, Present and Future
Pharmacology (Code 3)	• Choosing the Right Antibiotic • Pharmacogenomics: It's Getting Personal! • The Use of Antiviral Drugs in Neonates
Professional Practice (Code 4)	• Misadventures in the NICU: The Challenge of Evidence, Past and Present • The Evolution of Family-Centered Neonatal Care: Where We've from and Future Possibilities • Telehealth to Provide Clinical Services and Outreach Education for Neonatal and Pediatric Patients in Rural Hawaii • No NEC Babies: A QI Bundle Approach to NEC Reduction • Podium Presentations • Experiences and Lessons Learned From Forming a Tiny Baby Team • Health Inequities in the NICU • Nursing Leadership: Now and Future

LRN Codes	Session Names
Mother/Fetus (Code 1)	
Physical Assessment and General Management (Code 2)	• Neurodevelopmental Assessment and Follow-Up: If We Only Had a Crystal Ball, We Would we be Able to Predict the Outcomes • Palliative Care: Fetus to Neonate • Neonatal Nutrition
Assessment and Management of Pathophysiological Conditions and Neonatal Complications (Code 3)	• To Close or Not to Close: The Never-Ending PDA Story • Gut, Sweat, and Tears • Everything You Need to Know to Upskill Your NICU from Family-Centered Care to Family Integrated Care

	• Cardiac Case Studies • Tiny Bubbles for Tiny Babies. Surfactant for Respiratory Distress Syndrome: Past, Present and Future
Pharmacology (Code 4)	• Choosing the Right Antibiotic • Pharmacogenomics: It's Getting Personal! • The Use of Antiviral Drugs in Neonates
Professional Practice (Code 5)	• Misadventures in the NICU: The Challenge of Evidence, Past and Present • The Evolution of Family-Centered Neonatal Care: Where We've from and Future Possibilities • Telehealth to Provide Clinical Services and Outreach Education for Neonatal and Pediatric Patients in Rural Hawaii • No NEC Babies: A QI Bundle Approach to NEC Reduction • Podium Presentations • Health Inequities in the NICU • Nursing Leadership: Now and Future

Subspecialty codes	Session Names
Care of the Extremely Low Birth Weight Neonate (Code 7)	• Antimicrobial Stewardship • To Close or Not to Close: The Never-Ending PDA Story • Neurodevelopmental Assessment and Follow-Up: If We Only Had a Crystal Ball, We Would we be Able to Predict the Outcomes • Gut, Sweat, and Tears • The Use of Antiviral Drugs in Neonates • NAVA: Is it better than NIPPV? • Experiences and Lessons Learned From Forming a Tiny Baby Team • Neonatal Nutrition • Tiny Bubbles for Tiny Babies. Surfactant for Respiratory Distress Syndrome: Past, Present and Future • Small Baby Ventilation Strategies
Neonatal Neuro-Intensive Care » NNIC (Code 20)	• Neurodevelopmental Assessment and Follow-Up: If We Only Had a Crystal Ball, We Would we be Able to Predict the Outcomes
