

*Spring 2026*

# National Advanced Practice Neonatal Nurses Conference

April 21–24  
Honolulu,  
Hawaii

# Learn, Relax, Recharge— Island Style

Join us in Honolulu, Hawaii for a unique conference experience. Attend in person or catch the recorded sessions with our on-demand option. With both Advanced Practice and Neonatal Tracks to choose from you have four half-day programs to grow your skills PLUS time to enjoy paradise!

## Who Should Attend

APNs, DNPs, NNPs, CNSs, neonatal nurse managers, neonatal educators, experienced staff nurses and bedside neonatal nurses. Choose your track—Advanced Practice or Neonatal.

## Nursing Continuing Professional Development

You may earn up to 32.75 main conference ANCC NCPD contact hours for this conference, based on a 60-minute hour. Contact hours are earned for conference sessions, poster session evaluations, and conference evaluations.

To earn ANCC NCPD contact hours, you must be registered for the conference, attest to your attendance of at least 90% of the session, and complete session and overall evaluations.

This educational activity is jointly provided by Anthony J. Jannetti, Inc. (AJJ) and the Academy of Neonatal Nursing (ANN).

Anthony J. Jannetti, Inc. is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

## Learning Outcome

At the end of this conference, the learner will increase their knowledge of current information related to the technical, medical, and nursing aspects of neonatal care.

## Planning Committee

### **Debbie Fraser, MN, NNP, CNEON(C), FCAN**

Associate Professor, Athabasca University  
Neonatal Nurse Practitioner  
Winnipeg, Manitoba, Canada  
Editor-in-Chief, *Neonatal Network*  
Executive Director, Academy of Neonatal Nursing

### **Sarah Wooley, DNP, APRN, NNP-BC**

NICU Clinical Nurse Educator  
Tripler Army Medical Center, Honolulu, Hawaii

### **Miranda Bingle, NNP**

Neonatal Nurse Practitioner  
Kaiser Permanente, Honolulu, Hawaii

### **Misty Lilinoe N. Smith, DNP, APRN, NNP-BC**

Neonatal Nurse Practitioner  
Neonatal Intensive Care Unit of  
Kapi'olani Medical Center for Women & Children  
Clinical Faculty/Lecturer, School of Nursing  
Clinical Educator, John A. Burns School of  
Medicine, University of Hawai'i at Mānoa

### **Danielle Butler, MSN, APRN, NNP-BC, CLC**

Neonatal Nurse Practitioner  
Kapi'olani Medical Center for Women & Children  
Honolulu, Hawaii

# MAIN CONFERENCE PROGRAM

Registrants are welcome to move between tracks.

## Tuesday, April 21

**7:00 AM–8:00 AM - Coffee and Tea Service**

**7:00 AM–1:45 PM - Registration Open**

**8:00 AM–8:30 AM - Welcome and Hall of Fame Induction**

**8:30 AM–9:30 AM**

**101 - From Past Trauma to Present Health: A Look into Native Hawaiian Historical Trauma and Mental Health**

*Zachary Kim, DO*

*Naneo Cavaco, MD*

Dr. Kim and Dr. Cavaco will focus on the historical trauma that Native Hawaiians face and its impact on mental health outcomes. They will also explore mental health disparities affecting Native Hawaiians and highlights initiatives to address Native Hawaiian mental health.

AP/NN

**NNP5 NIC4 LRN5**

**9:30 AM–10:30 AM**

**102 - Updated Guidance on Therapeutic Hypothermia: New 2026 AAP Guidelines**

*Ashley Lucke, MD*

Dr. Lucke will review the updated guidelines from the American Academy of Pediatrics Committee on Fetus and Newborn due to be published in spring of 2026. Key changes in the recommendations for management of therapeutic hypothermia for infants with hypoxic-ischemic encephalopathy will be covered including hypothermia on transport, time to initiation of hypothermia, mild HIE, hypothermia for late preterm infants, key concepts in pharmacologic management of infants undergoing hypothermia, feeding during hypothermia, family support, and key areas with insufficient evidence and future research needs. By the end of the session, participants will have a full overview of the updated 2026 guidelines.

AP/NN

**NNP2 NIC2 LRN3 NNIC20 NPT27**

**10:30 AM–11:30 AM - Exhibits Open, Poster Viewing, Coffee & Tea Service**

**11:30 AM–12:30 PM**

**111 - Cold Stress, Cooling Protocols, and the Heart: Avoiding Hemodynamic Pitfalls**

*Ashley Lucke, MD*

Discover the hidden cardiovascular risks behind cold stress and therapeutic hypothermia in this essential, clinically focused session. Dr. Lucke will break down how temperature instability and cooling protocols impact preload, afterload, cardiac output, and shock recognition—and why missteps can lead to rapid hemodynamic decline. Attendees will gain a clear, bedside-ready approach to assessing perfusion, preventing complications, and supporting the most fragile infants undergoing cooling. Strengthen your cardiac assessment and critical thinking during hypothermia care.

AP

**NNP2 NIC2 LRN3 NNIC20 NPT27**

## NCC codes

**NNP** - Neonatal Nurse Practitioner

**NIC** - Neonatal Intensive Care

**LRN** - Low Risk Neonatal Intensive Care

**ELBW** - Extremely Low Birth Weight Neonate

**NNIC** - Neonatal Neuro-Intensive Care

**Rx** - Pharmacology

**NPT** - Neonatal Pediatric Transport

**112 - Feeding Very Preterm Newborns in the First 1-2 Weeks After Birth: When to Start? How Much? When to Advance?**

*Gregory Valentine, MD, MEd*

Dr. Valentine will discuss evidence from clinical trials and systematic reviews focused on feeding very preterm newborns. He will discuss enteral fasting, trophic feeds, and when to advance enteral feeds to seek to answer: When should we start feeds? How much should we start with? When do we advance feeds? He will conclude the discussion with future directions and unanswered questions in the field of enteral feeding of very preterm newborns, including discussing pressing questions that need to be answered to continue to move our field forward in providing optimal early nutritional care for vulnerable very preterm newborns.

NN

**NNP3 NIC1 ELBW7**

**12:30 PM–1:30 PM**

**120 - Fresh is Best: Unlocking the Power of Maternal Milk for Preterm Infants**

*Lyndsay Long, DO*

Dr. Long will review emerging evidence on the bioactive properties of maternal breast milk and their influence on preterm infant outcomes. Key topics will include immunoglobulins, lactoferrin, human milk oligosaccharides (HMOs), and live cells—components unique to human milk—and how these elements are affected by storage and processing. Particular emphasis will be placed on the comparative benefits of fresh versus previously frozen maternal milk, with attention to current research that informs clinical practice and future directions in neonatal nutrition science.

AP

**NNP3 NIC1 LRN2 ELBW7**

**12:30 PM–1:45 PM**

**121 - NNP Forum**

*Misty Lilinoe Smith, DNP, APRN, NNP-BC*

*Debra Armbruster, PhD, APRN, NNP-BC, CPNP-PC*

*Meredith Farmer DNP, APRN, NNP-BC*

AP

**NNP5**

**5:00 PM–8:30 PM - Waikiki Starlight Luau, Hilton Hawaiian Village - Ticket Required**

## Wednesday, April 22

**7:00 AM–1:30 PM - Registration Open**

**7:15 AM–8:00 AM - Exhibits Open, Poster Viewing, Coffee & Tea Service**

**8:00 AM–9:00 AM**

**201 - NICU Potpourri: Jeopardy Knockoff**

*Christopher Traudt, MD*

Dr. Traudt will discuss random cases and NICU trivia. These are cases that are discussed at the bedside to teach nurses, students, respiratory therapist, residents, nurse practitioners, and fellows. He will span the gamut of laboratory findings, medications, x-rays, math, and diagnoses.

AP/NN

**NNP5 NIC4 LRN5 RX=.25**

## 202 - Fluids and Weight Loss: How Much Is Too Much In the First 2-Weeks After Birth Among Very Preterm Newborns?

Gregory Valentine, MD, MEd

Dr. Valentine will discuss how fluid intake and weight loss are related to beneficial and adverse health outcomes among very and extremely preterm newborns. He will similarly discuss time to regain birthweight and its subcomponents, and their relationship with long-term developmental outcomes. He will conclude with a discussion on key questions that remain unanswered and the next steps needed to overcome these critical gaps to ensure that we understand how to provide the best nutritional care for vulnerable very preterm newborns in the first two weeks after birth.

NN

NNP3 NIC1 LRN2 ELBW7

**9:00 AM–10:00 AM - Exhibits Open, Poster Viewing, Coffee & Tea Service**

**9:00 AM–9:45 AM - Poster Viewing - Visit with Poster Authors!**

**10:00 AM–11:00 AM**

## 211 - Thinking on the Fly: Lessons from Neonatal Air Transport

Michael Guindon, MD

Neonatal transport is frequently required for movement of patients to a facility with resources that are unavailable at the birthing hospital. While medically necessary, these transfers expose the patient and team members to risks that are not present in other clinical settings. Although resources exist to help transport teams prepare, situations often arise that challenge team dynamics, critical thinking, and communication skills. During this session, several high-acuity transport cases will be reviewed to inform the practice of neonatal transport with applicability to hospital-based team-centered care.

AP

NPT27

## 212 - Let's Go Surf! Less Invasive Surfactant Administration Options

Miranda Bingle, NNP BC

Past surfactant administration could only be performed with traditional endotracheal intubation. Less invasive methods are available, and are well tolerated by infants who are on less invasive respiratory support.

AP

NNP2 NIC1 LRN2 ELBW7 NPT27 RX=.25

## 213 - Palliative Care

Kandie George, MD

NN

NNP3 NIC2 LRN2 ELBW7 NNIC20

**11:15 AM–12:15 PM**

## 221 - Podium Presentations

Multiple Presenters

AP

NNP5 NIC4 LRN5

## 222 - Podium Presentations

Multiple Presenters

AP

NNP5 NIC4 LRN5

## 223 - Podium Presentations

Multiple Presenters

NN

NNP5 NIC4 LRN5

**12:30 PM–1:30 PM**

### **231 - Mission Im-Possible: Syphilis in the NICU**

*Bryscen Prothero, APRN*

Mr. Prothero aims to provide a clear and practical overview of congenital syphilis, from maternal screening during pregnancy to neonatal evaluation and treatment in the NICU. He will review diagnostic pathways, clinical manifestations, and evidence-based management strategies relevant to NICU teams. Gain actionable tools for assessing risk, interpreting labs, coordinating care, and ensuring appropriate long-term follow up.

AP

**NNP2 NIC2 LRN2 ELBW7**

### **232 - High-Frequency Jet Ventilation**

*Christopher Traudt, MD*

Dr. Traudt will discuss the mechanism of ventilation using the jet ventilator. Indications, pitfalls, and management of blood gases will be covered, as well as when to notify staff that there may be a problem.

AP

**NNP2 NIC1 ELBW7**

### **233 - Retinopathy of Prematurity in Hawaii. Even in Paradise...**

*David Young, MD*

Dr. Young will discuss retinopathy of prematurity in Hawaii. He will review the disease and describe the experience in Hawaii along with the unique challenges. He will cover current treatments and the impacts that the condition has on patients and families.

NN

**NNP2 NIC2 LRN3 ELBW7 RX=.25**

## **Thursday, April 23**

**7:00 AM–1:00 PM - Registration Open**

**7:15 AM–8:00 AM - Exhibits Open, Poster Viewing, Coffee & Tea**

**8:00 AM–9:00 AM**

### **301 - POCUS in the NICU**

*Rutuja Kibe, MD*

AP

**NNP1 NIC2 LRN1 ELBW7 NNIC20**

### **302 - Non-Invasive Ventilation Not All NIV is Created Equal**

*Danny Rausch, RRT*

Mr. Rausch will discuss the efficacy of various types of NIV. He will also look at the challenges associated with each type of NIV.

NN

**NNP2 NIC1 LRN2 ELBW7 NNIC20 NPT27**

**9:00 AM–10:00 AM**

### **311 - Silent Threats: Rethinking Neonatal Sepsis and Antibiotic Stewardship**

*Jennifer Cerdena, PharmD*

Neonatal sepsis remains a leading cause of morbidity and mortality — but when cultures are negative, uncertainty drives prolonged and often unnecessary antibiotic exposure. Dr. Cerdena explores the challenges of diagnosing culture-negative sepsis, highlighting data collection tools to guide clinical decision making and optimal treatment duration. She also examines the unintended consequences of antibiotic use in neonates, emphasizing the importance of stewardship in protecting both immediate and long-term outcomes.

AP

**NNP4 NIC3 LRN4 ELBW7 RX=1.0**

## 312 - It's the Small Things that Matter Most

*Patricia Wilhelm, PhD*

Dr. Wilhelm will identify some core concepts and focus on nursing intervention strategies to impact outcomes not only for preterm infants but for any infant admitted to the NICU. She will also highlight the family and their role in engagement and present work that has been done at TAMC with the SENSE Program, including how it changed their approach to parental involvement and engagement.

NN

**NNP1 NIC1 LRN2 ELBW7 NNIC20**

**10:00 AM–11:00 AM - Exhibits Open, Poster Viewing, & Beverage Break**

**10:00 AM–10:45 AM - Poster Viewing- Visit with Poster Authors!**

**11:00 AM–12:00 PM**

### 321 - Ventilation Case Studies The Trials and Tribulations of High Frequency Ventilation in Neonates

*Danny Rausch, RRT*

Mr. Rausch will discuss several case studies involving high frequency ventilation, including both high frequency oscillation ventilation and jet ventilation.

AP

**NNP2 NIC1 ELBW7**

### 322 - Protection of Mothers and Babies Against RSV: Past, Present and Future

*Rodolfo Begue, MD*

Dr. Begue will review the history of RSV prevention, outline the present status of best-practice recommendations, and discuss the gaps of knowledge and future strategies.

NN

**NNP5 NIC4 LRN5 ELBW7 RX=.25**

**12:00 PM–1:00 PM**

### 331 - Walking the Steroid Tightrope: Corticosteroids and Bronchopulmonary Dysplasia

*Jennifer Cerdena, PharmD*

Corticosteroids remain one of the most debated therapies in neonatal care, walking the fine line between benefit and harm. Dr. Cerdena explores the pharmacology, efficacy, timing, and dosing strategies of corticosteroids in preterm neonates with or at risk for bronchopulmonary dysplasia (BPD). She will explore the pros and cons of therapy, look at the evidence, and examine the largest concerns with repeated courses (including outcomes and long-term safety).

AP

**NNP4 NIC3 LRN4 ELBW7 RX=1.0**

### 332 - Small Baby Challenges: One Step at a Time

*Debra Armbruster, PhD, APRN, NNP-BC, CPNP-PC*

Dr. Armbruster provide a roadmap for the essential elements of bedside care for extremely premature infants. Using a systems approach, plan to emphasize respiratory support, thermoregulation, nutrition, and neurological protection while promoting family inclusiveness and noting the ethical concerns for this population of infants. A collaborative, evidence-based framework facilitates clinical skills, confidence, and team coordination. The goal is to empower nurses to provide safe, developmentally supportive, and holistic care for these vulnerable infants.

NN

**NNP3 NIC2 ELBW7**

## Photography

Please note that attendance at this conference constitutes an agreement by the participant to ANN's use and distribution (now and in the future) of the participant's image. These images are for ANN's use only and may appear on ANN's website, in printed brochures, or other promotional materials.

# Friday, April 24

**7:00 AM–8:00 AM - Coffee & Tea Service**

**7:00 AM–12:15 PM - Registration Open**

**8:00 AM–9:00 AM**

## **401 - Beyond Cultural Competence: Practicing Cultural Humility with Micronesian Patients and Families**

*Julianne Walsh, MA, PhD*

*Misty Lilinoe Smith, DNP, APRN, NNP-BC*

When it comes to working with Micronesian communities, “cultural competence” often falls short. Many different island groups, each with their own languages, traditions, and values, are too often grouped under one broad label. Dr. Walsh and Dr. Smith introduce a more meaningful approach: cultural humility. Instead of assuming we can fully “master” another culture, cultural humility asks us to reflect on our own biases, stay open to learning, and recognize the rich diversity within Micronesian communities. Together, they will explore how cultural values shape views on authority, family and community decision-making, health and illness, caregiving, and consider the critical role of language access for positive outcomes.

AP/NN

**NNP5 NIC4 LRN5**

**9:00 AM–10:00AM**

## **402 - An Evidence Based Approach for Improving Care of Tiny Patients**

*Debra Armbruster, PhD, APRN-CNP, NNP-BC, CPNP-PC, C-ELBW, C-NNIC*

Improving the care of extremely preterm infants begins prenatally through counseling, coordinated planning to prepare families and care teams for a high-risk birth as well as obstetrical interventions that facilitate and promote the best outcomes for the neonate. In the delivery room, evidence-based practices that support a team approach to all aspects of care is imperative and includes respiratory care, temperature regulation, and gentle handling set the stage for safer transitions. In the NICU, interdisciplinary teamwork, evidence founded small baby guidelines, neurological protection, optimized nutrition, and active family partnership and communication drive day-to-day progress. Ethical considerations—especially in cases of extreme prematurity—ensure decisions honor the infant’s best interests while supporting families through complex choices.

AP/NN

**NNP5 NIC4 LRN5**

**10:15 AM–11:15 AM**

## **403 - From Burnout to Balance: Building Resilience and Preventing Burnout in Nursing**

*Rachel Prokop, PsyD*

*Ciera Nicholson*

Nurses face unique challenges that place them at high risk for burnout, including heavy workloads, emotional demands, and systemic pressures. Dr. Prokop will explore the connection between nursing practice, stress, and mental health, highlighting evidence-based approaches to recognize early warning signs of burnout. Participants will learn practical strategies for resilience, self-care, and peer support, as well as organizational practices that foster healthier work environments. Emphasis will be placed on actionable tools that nurses can apply immediately to protect their own well-being while sustaining high-quality patient care.

**NNP3 NIC2 ELBW7 NNIC20 NPT27**

NNP5 NIC4 LRN5

**11:15 AM–12:15 PM**

### **404 - Everybody Matters: Show Them by Pouring Value into Their Lives and Valuing Them — with a Little Neurochemistry Sprinkled Throughout the Process**

*Robert Erick Ridout, MD*

Dr. Ridout will provide actionable approaches to assess one's ability to influence those they serve as leader and to grow that influence. Everyone can benefit from this discussion: leadership doesn't require a title, just the desire to add value to others, to see them become the full expression of themselves, and to send them home each day safe, valued, and loved. The discussion will include levels of leadership and how one can leverage biology (how we are wired) to enhance teamwork to the benefit of patients, their families, and caregivers.

AP/NN

NNP5 NIC4 LRN5

**12:15 PM–12:30 PM - Closing Remarks**

*Note: Topics and speakers are subject to change. All times listed are in Hawaii Time.*

*ANN does not tolerate racism, discrimination, harassment, or hate. We believe everyone attending our meeting should be free from all forms of harassment, and be treated with respect and appreciation.*

## **Hula! Music! Amazing Cuisine! Fire Dancers!**

Be sure to join us for the *Waikiki Starlight Luau* to be held at our conference hotel, the **Hilton Hawaiian Village**. This is Waikiki's only outdoor luau and features hula performers, acrobatic fire dancers, and authentic Hawaiian cuisine!

**Tuesday, April 21, 2026**

**Doors open at 5:00 PM**

Tickets: ANN has arranged a special discount price for ANN conference attendees of \$135 per adult (12 years and up) and \$70 per child (4 -11 years old) including tax (Adult regular price \$238.50/Children regular price \$137.80). A portion of each ticket will be donated to the Foundation for Neonatal Research and Education (FNRE).

Tickets can be purchased during the conference registration process. Space is limited.

## Attention NNP and DNP Students!

ANN invites you to submit a poster of your capstone project for our **6th Student Poster Showcase**. This exclusive opportunity will allow you to present your work to 300+ AP colleagues. Please select "Poster: AP Student Showcase" during the submission process. A prize will be awarded for the best student poster!

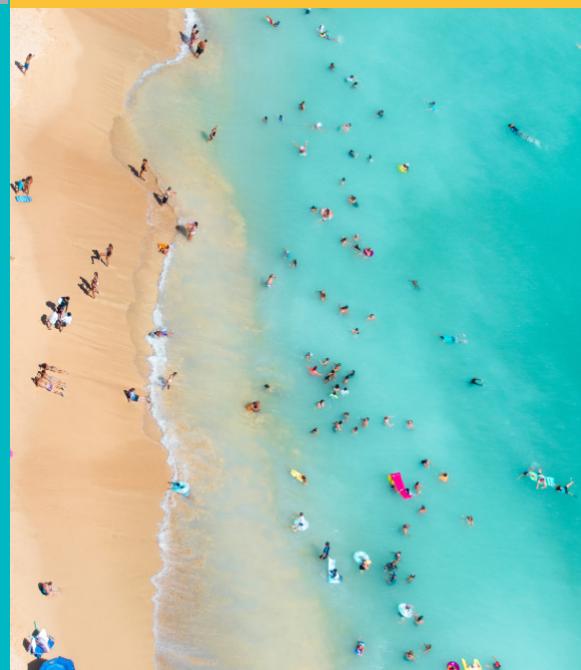

## Group Discounts

Any facility registering four (4) or more ANN members together for the main conference, will qualify to receive a \$50 discount per registrant. Non-members or expired members choose the Registration + Membership option to be eligible. To provide separate payments for your group, submit by fax or mail. To provide a single form of payment for your group, register online, or send by fax or mail, **DOWNLOAD PRINTABLE FORM**. All group registrations must be submitted together, no exceptions. Please note: If a member of the group cancels, creating a group of less than 4, the group is no longer eligible for this discount and the discount is forfeited. Cannot be combined with any other offer. One discount per registrant.

## Looking for an Online Option? Purchase the On-Demand Conference

Purchase access to the conference for convenient, on-demand viewing beginning May 12, 2026. You will have access to any recorded lectures (synched with slides) from the conference to view or listen to anytime from the convenience of your work, home, or mobile device. This purchase includes over 25 lectures! (This conference will not be live-streamed.) You will have a full year to evaluate the sessions and earn up to 32.75 hours of Nursing Continuing Professional Development (NCPD).

## Delta Airlines

Delta Air Lines is pleased to offer special discounts for Academy of Neonatal Nursing. Please [CLICK HERE](#) to book your flights.

You may also call 1.800.328.111 Monday–Friday, 8:00 a.m. – 8:00 p.m. (EST) and refer to Meeting Event Code **NY48A**.

## Weather

In April, the weather in Honolulu will be warm with average temperatures in the mid-80's during the day and low 70's at night. Be sure to pack a sweater for air-conditioned conference rooms in the hotel and comfortable walking shoes for your conference activities

## Airport & Transportation

The resort is approximately 25 minutes from Daniel K. Inouye International Airport. Uber and Lyft Rideshare available. Roberts Airport Shuttle one-way \$27.50. For more information, please see the options listed on the Hilton website.

## Hotel Information

Hilton Hawaiian Village  
2005 Kalia Road  
Honolulu, Hawaii 96815  
(808) 949-4321

A block of rooms has been secured at the special rates of **\$269 resort view, \$289 partial ocean view, \$309 ocean view. There is an additional person charge (3rd and 4th) of \$50 per person, per night.** This rate is subject to applicable state and local taxes, currently 18.71%. This rate is available until March 21, 2026. Basic in-room WIFI is included in the rate.

There is an optional \$25 resort charge per room, per night that includes: Cultural activities; morning exercise classes; outdoor movies; 20% off catamaran adventure sail & elite beach package; 15% off at Reyn Spooner Shop & Spa retail; 10% off Waikiki Beach activities & services; Waikiki Aquarium offer; DVD/game use; photo session.

Check-in is 4:00 pm and Check-out is 11:00 am.

**Parking:** Self-Parking: \$72+/day, Valet Parking: \$93+/day. Rates are subject to change.
