

CONFERENCE SURVEYS

The dust has settled a bit from the week of collaboration, education, and networking that took place at #acct2019 in Denver. We often say the volunteers of ACCT are the lifeblood of our association. We have a core group of folks on our Conference Work Group as well as our Partners with HPN Global that assist in magnificently pulling everything together each year. We also need to tip our hats to the Exhibitors, Presenters, Service Crew, and Sponsors that continue to keep things running and force us to improve from year to year. This year was a HUGE success with yet again record breaking attendance!

The Conference Team will spend some time over the next few weeks debriefing our event and we'd love to hear from each attendee! It's crazy to think that the 2020 conference in Raleigh is just around the corner, but the reality is we will begin working on those details as early as March. Heck we're already accepting presenter submissions! That said, all attendees should've received an e-mail from CVENT (check your junk folders to be sure you get it) with links to the [2019 Conference Survey](#), 2019 Shared Presenter Materials, as well as the [2020 CALL FOR PRESENTER SUBMISSION FORM](#). Please take just a few moments to share your thoughts so we can continue to improve your conference experience!
