

Is Time To Renew Your Inspector Certification?

We are coming up on Inspection Season! If it has been a while since you have checked your Inspector Certificate, you could be doing your inspections on an expired certification.

There is a 60 day grace period to renew your certification, before having to start the process over. If your certification expired March 1, 2019 you have until April 30 to renew.

If it has been 2 years since you last took the Inspector Certification Test, it is now time to do your 2-year renewal. A 2-year renewal will be looking more at your Inspector Portfolio to ensure that it is both current and includes your 32 Continuing Education Units. You will still be asked to add in a current eye exam, Insurance Certificate and Supervisor Affidavit.

If it has been 4 years since you have taken the Inspector Certification Exam, it is time to take your exam again. ACCT will be hosting a Fall testing event in Harrisburg, Pennsylvania, November 7th, 2019. If it is time to retest, you will also need to submit the same forms and retest at either this event or wait until the 2020 ACCT Conference in Raleigh, North Carolina if it is still within that grace period.

This association is here to serve and to promote a set minimum standards for installation, operation, and inspection. Based on extensive discussions with representatives from all segments of business and industry, ACCT has identified the following potential benefits of Inspector Certification:

- Fewer accidents, injuries, and fatalities
- Reduced risk of loss
- Assurance of inspector abilities
- Improved safety records and increased focus on risk management
- Enhanced public image of challenge course industry

If you are unsure about your certification or have any questions, please contact Heather Brooks, Program Manager, at your earliest convenience by email, heather@acctinfo.org or you can call 303-827-2432
