

WHY DO WE ATTEND LEGISLATIVE VISIT DAY?

Because it's good for our industry. LVD provides the opportunity to meet face to face with legislators and their staff to discuss pending legislation and other matters of importance to our industry. These meetings help to build the relationships that have resulted in an impressive track record of ACEC-California legislative accomplishments that include infrastructure funding, indemnity reform and Quality-Based Selection.

Because it's good for our firm. LVD is a great place for our member firms to network and get exposure. They can enhance their visibility by becoming an LVD sponsor; multiple sponsorship levels are available. The reception in the evening provides an excellent opportunity to network with ACEC-California staff, legislators and their staffs, as well as the leaders of the other member firms.

Because it's good for our people. LVD attendance benefits all levels within our firms. Young future firm leaders especially have the unique opportunity to participate in discussions with key public policy decision-makers. LVD is also a great opportunity for chapters to invite our scholarship award winners, to highlight their accomplishments and to showcase our scholarship program.

Because it's fun. LVD participation is an opportunity for our leaders and future leaders to get away for a fast-paced day with other like-minded engineers and surveyors to participate in lively, informative discussions on issues of importance to our profession. The reception afterward provides an opportunity to socialize with peers, ACEC staff, local legislators and their staff. And, it's a great opportunity to visit our wonderful, historic state capitol building!
