CONTINUE

Paid for the course but can't find it on the website.

Go to: <http://acec.mycrowdwisdom.com/diweb/dashboard>

Sign in.

Go to "Course Catalog" and hit "Launch" (where the "Buy Now" button is.)

The screenshot shows a navigation bar with three items: "eLearning Home", "Course Catalog" (highlighted in yellow), and "Active and Completed Courses". Below the navigation bar is a search refinement button labeled "Refine Search" and a "Sc" label. The main content area features a table with the following data:

Format	Title	Credit(s)
1	 Ethics Course 2017-18 ★★★★★ (0 votes)	1.0

Below the table, there is a link "View Details" and a "3 Year Subscription (\$25.00)" label, followed by a "Buy Now" button.

## Does ACEC Indiana share the results with the PE Board?

NO! Instruct the user to save the PDH Certificate with their other CEU/ PDH certificate records. The user would only need to supply the certificate should they get audited by the Indiana Professional Licensing Agency.

When you renew your license for the next biennium, there will simply be a box to check stated that he/ she completed the required continuing education (which includes Indiana Rules & Statutes and Ethics FROM ANY STATE) and a signature. The applicant NEVER needs to submit the PDH certificate at the renewal time, that is only required if the user is audited.

## I am not getting all the questions correct, how do I see what I missed?

As a reminder, when you purchased the course it noted:

### Indiana Rules & Statutes Course 2017-18

3 Year Subscription (\$25.00) [Buy Now](#)

Average Rating: Poor ★★★★★ Excellent (0 votes)

Indiana Rules & Statutes is a mandatory course for professional engineers wishing to renew active status licensure in Indiana.

Credit PDH:1.0

#### Description

Indiana Rules & Statutes is a mandatory course for professional engineers wishing to renew active status licensure in Indiana. ACEC Indiana is pre-approved by the Professional Licensing Agency Professional Engineers Board to provide relevant and appropriate continuing education to professional engineers working in and outside of Indiana.

Approximately 50 minutes needed to complete course.

**1 PDH credit is awarded upon successfully answering ALL QUESTIONS correctly.** Please be sure to review the "Reference" notes by clicking on the + sign to identify where in the rules and statutes the particular question is rooted.

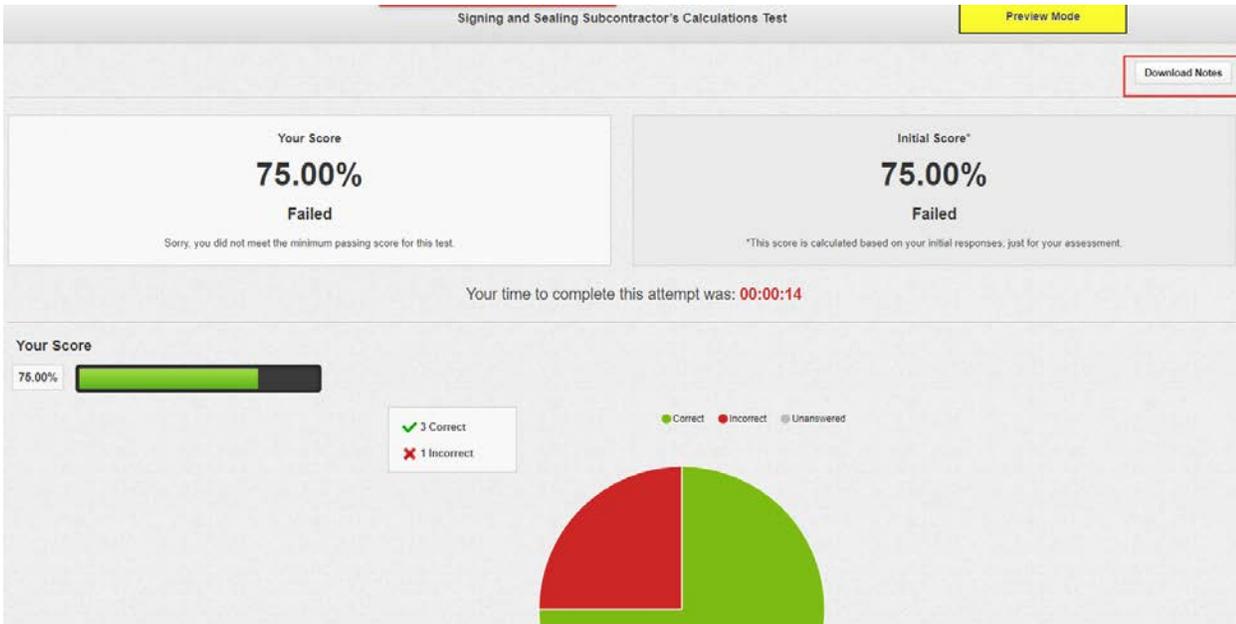

User has infinite attempts to successfully complete the course.

**If the user answers any questions incorrectly and must re-attempt, the user may click on the "Download Notes" button and it will display which questions the user answered correctly (awarded 1 point) and which questions were answered incorrectly (awarded 0 point.)**

Once the user identifies which questions the user got wrong, the user may re-attempt the test by selecting the "Launch" button.

Courses in package:

Be sure to look in the NOTES, not the TRANSCRIPT.

After the you completes the “test portion” you will receive a score, unless that score is 100 percent, he/ she will NOT pass.

Click on the “Download Notes” button on the top right. This will allow you to identify WHICH question(s) you are answering incorrectly.

<b>Test Name</b>	Signing and Sealing Subcontractor's Calculations Test	<b>Completion Date</b>	2018-04-26T09:58:35
<b>Score</b>	3.0 of 4.0 (75.00%)	<b>Timespent</b>	00:00:14
<b>Result</b>	Failed		

**Question Result / Notes**

Order	Name	Score	Notes
1	Signing and Sealing Subcontractor's Calculations  Engineer A hires Subcontractor B to provide technical design services for a component of a project for which Engineer A is not technically competent. Engineer A may sign and seal the engineering documents for the project if:	1.0	
2	Signing and Sealing Subcontractor's Calculations  Engineer C is the engineer of record on a project. Engineer C is approached by one of their subconsultants, Engineer D, who proposes to retain the Engineer C to third party review and stamp their calculations and design documents in connection with the project. Which of the following statements is true?	1.0	
3	Signing and Sealing Subcontractor's Calculations  Engineer E is retained by a municipality to perform permit reviews. It is ethical for Engineer E to review documents submitted for permit by another Engineer from Engineer's E's company if:	1.0	
4	Signing and Sealing Subcontractor's Calculations  Under what circumstances is it appropriate for Engineer F to sign and seal the engineering documents for an entire project when multiple engineers worked on separate portions of the project?	0.0	

In this case, the user should go back and retake the test and attempt a different response for question #4.

If you want their PDH Certificate, go to “Completed Courses” under “Active and Completed Courses” and then look for the small “Certificate” text next to the total course (not just the tests/ reference documents.)
