This New Year, resolve to use Qualifications Based Selection (QBS) in your community’s projects. It’s as simple as asking for an RFQ and then working with your chosen professionals to define contract terms for engineering and architectural services.

QBS helps owners and providers to develop accurate pricing as the scope of work is negotiated. It also enables project teams to understand project terms and work together to deliver a quality project.

**QBS results in stronger relationships with owner and project team.** It also provides greater clarity from the project outset regarding schedule, costs, deliverables, and expected outcomes.

Start your New Year off strong, with the proven procurement method: QBS.

What is QBS?

QBS is a proven step-by-step process that facilitates selecting the right professional design firm based on overall merit of their qualifications and design approaches. This creates a fair competition, and encourages creativity, innovation, and deeper thinking about the entire life-cycle of the project.
