Strategic plan underway
ACEC Indiana is developing a new strategic plan, with the direction of the Executive Committee and Somerset CPAs.
In early September, ACEC members will receive an e-mail with a link to complete a membership survey. Results of this short online survey will allow us to make informed decisions and allocate resources.

The best way to help maximize your firm’s return on investment from your ACEC Indiana membership is to provide your opinion about the current effectiveness of the association’s services and benefits and identify priorities for the future.

Members will receive a direct link to complete the brief, 10 minute survey via e-mail. Deadline for submissions is is Friday, Sept. 23.

Select ACEC members will serve on a task force to create the new strategic plan mid-November. The plan will be presented to the Board of Directors for consideration/ adoption at the December meeting, and implementation of the new plan will occur in the 2017-18 fiscal year.
