ACEC Indiana PAC: What it Means for You and Your Business

ACEC Indiana understands the need to have a collective “voice” with the Indiana General Assembly on important issues impacting the professional consulting engineering firms. This year, our industry was successful in ensuring a long-term, dedicated and adequate source of funding for state and local roads.

Next, our association would like to focus on generating funding for water infrastructure and expanding Qualifications Based Selection (QBS) as the preferred procurement process.

ACEC Indiana’s PAC is vital to fighting for these causes. Your Indiana State PAC only supports candidates for the Indiana House and Senate; it does not contribute to candidates seeking statewide office (i.e. Governor) or local offices.

“Now is the time to make our voice heard. PAC funds are the currency of the conversation, and we are serious about this conversation for the General Assembly,” stated Phil Beer, Chairman of the ACEC Indiana PAC. “Each firm within Indiana needs to join that conversation by supporting the ACEC Indiana PAC... either corporately or individually.”

Because all ACEC Indiana PAC funds are only used within Indiana, corporate contributions are accepted, and many firms support in conjunction with payment of annual dues.

Individuals may contribute to the ACEC Indiana PAC, too, and to make it easier, we established an easy process online, at www.acecindiana.org.

State law imposes no limits on personal contributions. Thank you to the firms that supported it in the past. It’s not too late to give corporately or individually! Contact us at staff@acecindiana.org for more information.

Transportation Funding advocates Drew Bender, State Sen. David Niezgodski (D- South Bend), Bill Bailey and Jesse Combs attend Build Indiana Council's successful Road Funding Day at the Statehouse.

2017-18 Engineering Leadership Program Accepting Applicants

CFO asks CEO

“What happens if we invest in developing our people and they leave us?”

CEO

“What happens if we don’t, and they stay?”

This program targets P.E.s and/or young members of your firm that show great promise and a bright future in engineering firm management. This educational experience will prepare and position these rising stars for firm partnerships, management and potential succession ownership opportunities.
