(Re)Habilitation Connect Forum

As the ACI Alliance has grown in number and in reach, awareness of the need to engage and support therapy practitioners and educators in a better way has also grown. The forum is a featured event at CI2022 DC and will emphasize clinically-applicable, research-based information presented by experts. Following the presentations, we will Continue the Conversation at a reception allowing attendees to interact with speakers and other attendees. Registration information for CI2022 DC can be found at www.ci2022dc.org.

Special Education Services for Infants and Children with Cochlear Implants: What is Appropriate?
Research on parent and professionals needs to support children with CIs has driven the development of support materials to address common questions about what services are needed as well as how to handle transitions.

Marguerite Vasconcellos, Ed.D., LSLS Cert. AVT, Retired Director of Itinerant Services, Bucks County Intermediate Unit and currently Adjunct Professor, Drexel University, School of Education

Andi P. Hill, Parent, Advocate, ACI Alliance State Champion

Maximizing Cochlear Implant Adult Outcomes with Short-term Aural Rehabilitation (AR) Intervention
New research on AR suggests strategies and recommendations for adults in clinic and telehealth settings as well as pre and post assessment measures.

Claire Marcus Bernstein PhD, Co-Principal Investigator. Deaf/Hard of Hearing Technology Rehabilitation Engineering Research Center, Department of Hearing, Speech, and Language Sciences, Gallaudet University

Nancy J. Muscato AuD, Rehabilitation Audiologist/Clinical Instructor, Retired, University of South Florida Department of Communication Sciences and Disorders, Tampa, Florida

Diane Majerus Brewer MA, Co-Principal Investigator, Contributing Author. Associate Professor Emerita, Department of Speech, Language and Hearing Sciences, George Washington University
