(RE)HABILITATION CONNECT FORUM AT CI2025 BOSTON — GUIDING INTERVENTION IN COCHLEAR IMPLANT CARE FOR CHILDREN AND ADULTS

Friday Afternoon, May 2, 2025

SCHEDULE

- 1:30 PM—2:45 PM: (Re)Habilitation Connect Forum: Part 1**
- 2:45 PM—3:00 PM: Coffee Break with Exhibitors**
- 3:00 PM—4:15 PM: (Re)Habilitation Connect Forum: Part 2**
- 4:30 PM—5:15 PM: *Continue the Conversation* Reception**

At CI2025 Boston, we will hold **(Re)Habilitation Connect Forum** sessions Friday afternoon with a Research to Practice focus on two topics:

- Cochlear Implants in single-sided deafness and asymmetric hearing loss
- Cochlear Implants when deafness exists with one or more concomitant conditions including syndromes, developmental delay, and cognitive impairment or decline

Each of these topics will be explored from a research and intervention perspective for adults and children focused on the (re)habilitative care to maximize patient success.

The research-to-practice format, with prominent researchers and experts in the field, will allow attendees to walk away with applicable intervention information.

See our list of (Re)Habilitation Connect Forum expert presenters at right.

***Continue the Conversation* Reception**

Friday, May 2

Following the conclusion of the two sessions, we will *Continue the Conversation* with refreshments and an opportunity for the (Re)Habilitation Connect Forum presenters and attendees to interact and delve deeper into the Forum topics in a less formal setting. This is an opportunity not to be missed!

We are grateful to **Hearing First** for sponsoring the reception.

(Re)Habilitation Connect Forum Presenters:

Dr. Lori Bobsin, Univ. of Utah Health | **Becky Clem**, Cook Children's Medical Center | **Dr. Richard Gurgel**, Univ. of Utah Health | **Sandra Hancock**, UNC at Chapel Hill | **Michelle Havlik**, UChicago Medicine | **Rebecca Piper**, NYU Langone Health | **Blair Richlin**, Mass Eye and Ear | **Molly Schoenfeld**, The Ear Institute, New York Eye and Ear Infirmary of Mount Sinai | **Adrienne Stewart**, The Moog Center for Deaf Education | **Dr. Brittany Wuebbles**, Central Institute for the Deaf | **Dr. Dan Zeitler**, Virginia Mason Medical Center/Univ. of Washington | **Lindsay Zombek**, University Hospitals Cleveland
