The Association of Change Management Professionals®

ACMP® is a professional membership association dedicated to advancing the career growth of individuals and the effectiveness of organizations by advancing the discipline and practice of change management. We engage with change management organizations and complimentary disciplines around the world so that our diverse and dynamic discussions continue to elevate the change management profession.

ACMP Membership Offers:

Learn More About ACMP’s Products and Offerings

**Standard for Change Management**

The ACMP Standard for Change Management ("Standard®") is a collection of generally accepted practices in change management and is one of the foundational elements in advancing the change management profession and discipline. Released in September 2014, the Standard provides the foundation for the Certified Change Management Professional (CCMP™) credential, the Qualified Education Provider (QEP) Program and empowers change practitioners to lead the way change works.

**The Certified Change Management Professional Program**

The CCMP is a globally recognized credential developed based on ACMP’s industry-leading Standard for Change Management that defines best practices in change management. The CCMP is a way for professionals to demonstrate their investment in ongoing development while successfully applying their experience to respond to a breadth of change management situations.

**The Qualified Education Provider Program**

The QEP program, developed and managed by ACMP, promotes the consistency of change management training by qualifying courses that align to ACMP’s Standard for Change Management and adult education best practices. The QEP Registry offers potential students one place to quickly find these qualified courses across the globe. The QEP Program benefits training organizations by boosting their credibility in the field.

**ACMP Career Center**

Whether you are an employer interested in posting a job opportunity or an individual exploring new career options in the change management field, the ACMP Career Center is the ultimate place for candidates and employing organizations to connect.

**ACMP Practitioner Directory**

The Practitioner Directory is a resource open to the public, allowing organizations or individuals the ability to search by location or industry for change management practitioners. This list is an opportunity to increase your credibility by affirming your commitment to the change management community.

**Networking and Professional Development Opportunities**

ACMP’s annual conference is the largest gathering of change management professionals and provides practitioners the opportunity to connect, learn and grow. ACMP also hosts smaller, regional conferences and educational webinars throughout the year. Additionally, with more than 30 chapters around the world, ACMP members always have opportunities to network and engage with the community.
