WHY VOLUNTEER WITH ACMP?

As we know, change is inevitable. Help ACMP and your fellow colleagues lead the way change works by contributing your time, knowledge, and experience at the volunteer level. In return, you will not only be helping your profession, you will develop new skills, make professional connections, and be part of making a difference.

The time and knowledge ACMP volunteers give is invaluable and irreplaceable. Because of our volunteers, ACMP has developed programs and activities for ACMP members that has advanced the discipline of change management worldwide.

Join these change leaders to make an impact on YOUR community! Learn more about the different ACMP committees and you may find one that is the right fit for you.

Interested in volunteering? Visit www.acmpglobal.org/volunteer or email membership@acmpglobal.org.

NOTE: Only standing committees that recruit volunteers openly through the Call for Volunteers are featured in this book. Committees may change from year to year. The following committees are included to give you a snapshot of committees as of April 2019; however, the committees or leaders will change over time and as needed to align with ACMP’s strategy and growth.

“We make a living by what we do. We make a life by what we give.”

WINSTON CHURCHILL
How does the CFC impact ACMP and the profession of change management?

ACMP chapters are the grass-roots of ACMP around the world, and our volunteers help members to form their local change management communities. Each new chapter brings more awareness of ACMP and enhances growth and opportunity of the change management profession across the globe. The growth of these communities worldwide, as a result of our committee’s ongoing work, is something that our coaches are very proud to be part of!

Why should I join the CFC?

Serving as a chapter coach gives members the opportunity to be part of growing ACMP’s presence, and our coaches get to experience working with change management professionals worldwide. The opportunity to give back to the profession, support and network with peers around the world, and learn and work with an amazing committee is very rewarding!
How does the CGC impact ACMP and the profession of change management?

An ACMP volunteer can make a difference through the CGC because they’re helping the change management profession be recognized through a professional credential. Our committee helps people recognize the significance of change management and is helping to lead change through best practices.

Why should I join the CGC?

Our committee is a tad more exclusive than other committees because all members are required to be a current CCMP™. Additionally, we meet on a regular basis to help maintain or update the current certification processes to ensure everyone who attempts to become a CCMP has a seamless experience and understands what is expected to earn the credential. We have a great group of people from across the globe who bring their change experience to help us achieve great things by having a change credential.
How does the Conference Committee impact ACMP and the profession of change management?

The Conference Committee shapes many of the networking activities and gatherings during the annual conference. From the opening night reception to the new speed networking activity, it is the volunteers that make this happen every year. We are planning for eight months prior to the conference and during that time, change can and does happen. We work closely with ACMP to ensure alignment and collaboration, while making sure that every attendee will walk away with an incredible experience. See your thoughts and ideas become reality!

Why should I join the Conference Committee?

The Conference Committee begins to plan for the next conference once the prior year’s conference is over. The work is initially light and as we get closer to conference, the excitement builds, and things start to take fold. Consider volunteering with the Conference Committee to help make the annual conference a success!
MEMBERSHIP COMMITTEE

How does the Membership Committee impact ACMP and the profession of change management?

Our Membership Committee is focused on the heart and soul of ACMP – our members. We strive to engage all our members from the moment they first join, delivering value in whatever form that means most to them – professional networking, training, webinars, conferences, volunteer opportunities, or certification. We get to know our members through personal contact and survey data analysis, then we act on that information to optimize the member experience. Engaged and satisfied members contribute to help advance our CM profession throughout the world.

Why should I join the Membership Committee?

There are many excellent volunteer opportunities at ACMP, but if you are interested in making an impact for the people of ACMP, then the Membership Committee is the place for you. Our mission is to engage and deliver value to our members from the moment they join. One role of our committee is to develop and deliver the New Member Orientation, providing valuable information on how they can get the most out of ACMP in their first year and all the years after. We constantly seek to understand our members’ needs through analyzing the Member Experience survey data, observing interactions on webinars, and personally contacting members to remind them that this is their organization and we are here to serve them.
How does the QEP Governance Committee impact ACMP and the profession of change management?

Qualified Education Providers™ are one of the foundations of the Certified Change Management Professional™ (CCMP) certification. Additionally, QEPs offer ACMP members a simple way to identify change management training providers whose programs have been evaluated for quality and alignment to the ACMP Standard for Change Management©. The QEP Governance Committee strengthens these programs by ensuring our QEP guidelines and criteria remain up to date and in alignment with the change management profession.

Why should I join the QEP Governance Committee?

Members of the QEP Governance Committee have a unique opportunity to understand and contribute to the foundation and strength of ACMP’s signature offerings, including the QEP program and the CCMP certification.
SPEAKER COMMITTEE

How does the Speaker Committee impact ACMP and the profession of change management?

Our committee’s objective is to select the best possible speakers for the annual ACMP conference. It’s a huge responsibility as volunteers bring their expertise and their understanding of the change profession to review and help ACMP select speakers. These speakers will then share their experiences, provide insights, and give concrete tools and techniques to their audience. The annual conference session agenda is a direct result of all the hard work from this committee.

Why should I join the Speaker Committee?

It starts with having the opportunity to collaborate within a rewarding coalition of change professionals – all coming together with one common goal: bringing the best line up of speakers for the annual event. It’s an opportunity to see what other industries and organizations are doing, such as providing innovative concepts and new ideas to the change profession. Upon completion of the review, you can choose to work with a speaker and support them as they prepare for their presentation. Ultimately, the satisfaction is in attending the conference and observing smiling faces around you knowing you selected the sessions they are about to attend!
How does the VEC impact ACMP and the profession of change management?

An ACMP volunteer can make a difference by contributing to ways that we can acknowledge, recognize and engage all volunteers in any committee or task force within ACMP. Our committee impacts ACMP because it is focused on the needs of every volunteer – no matter the work they are doing. Our goal is to engage all volunteers in the organization and to enhance the volunteer experience.

Why should I join the VEC?

The VEC is the best because we can impact every volunteer, across the ACMP organization, in a positive way. It is a tremendous opportunity to support the membership in the most visible way to make a difference for them!
WEBINAR COMMITTEE

How does the Webinar Committee impact ACMP and the profession of change management?

The webinars are the biggest benefit to ACMP members as noted in the membership survey. As an ACMP volunteer, you have the opportunity to handpick the content that is available to members. ACMP webinars aim to be high-quality content on topics that are meaningful and important to moving the profession forward. By curating this content, ACMP volunteers have an opportunity to represent the change management field and influence the growth of the field. Additionally, ACMP volunteers are asked to come up with new and innovative ways to provide valuable educational content that keeps members engaged and continuously learning!

Why should I join the Webinar Committee?

When you volunteer with the Webinar Committee, you get insight into the webinars that are taking shape in the coming months. When you facilitate a webinar, you get to build your network with industry thought leaders, because you have the opportunity to work together to deliver high-quality webinars. Being part of the Webinar Committee, you are pivotal in creating a valuable member experience while expanding your network in the change management discipline.

WHITE PAPER COMMITTEE

How does the White Paper Committee impact ACMP and the profession of change management?

The White Paper Committee helps to discover, refine and illuminate new ideas in change management through the white papers submitted by members. New ideas are presented, and the committee helps to flesh out and polish those ideas for an easier and broader consumption.

Why should I join the White Paper Committee?

The White Paper Committee is an excellent opportunity for those who like to write and to help others write and express their ideas. It gives volunteers an opportunity to see new ideas, share opinions and help authors to clearly and convincingly express their ideas. The audience for white papers is made up of those of us in the field of change management and, therefore, a perfect positioning for new ideas.
