CITIES, REGIONS, & GROWTH: SMART, INCLUSIVE, EQUITABLE?

With its explosive amenity-driven growth, the Denver metropolitan region is emblematic of much of the American West. While growth brings tremendous economic opportunities, it is often accompanied by significant challenges, such as: housing supply shortages and increasing housing costs; land consumption and loss of open space; increasing exposure to natural hazards; traffic congestion and delay; inability to scale transit to meet demand; lack of coordination between jurisdictions; inequitable public education; sectoral imbalance in the economy; gentrification; and congestion of amenities. But amidst these challenges, regional growth also offers valuable opportunities for cities to redefine, re-invent, and revitalize themselves.

In Denver, for instance, we see a renaissance in infill development and an overall increase in density, walkability, mixed use, and traditional design elements in the urban core—accompanied by a reverse migration of many back from the suburbs to the city.

This reinvestment in central places has brought with it a vibrant mix of uses and allowed transit to become feasible in places where previously it was not, opening up a less automobile-intensive lifestyle to large numbers of people. Yet, such development must be carefully managed to avoid uneven development, gentrification-induced displacement, out-migration of poor and minority resident from urban cores to under-invested suburbs, and loss of public goods.

How do we create a more inclusive strategy to leverage opportunities from growth to promote a sustainable, equitable, and healthy metropolis? Our theme welcomes discussion of all these tangled threads that form the complex tapestry of growing and changing metropolitan regions.

CURRENT TRACK CHAIRS

Track 1: Analytical Methods & Computer Applications
The Analytical Methods and Computer Applications track presents innovative analysis methods or novel applications of technology to cities, urban studies and planning. Areas of continuing interest include but are not limited to: GIS mapping, spatial analysis, and planning support systems; statistical and computational modeling of urban and regional environment; and sensing techniques. Areas of growing interest include smart systems and infrastructure, mobile communications and sensing, open data, big data, data analysis, visualization, and representation of the built environment. We welcome any papers that demonstrate new applications, analyses, methods, or technology that assist all areas of planning practice, theory or concerns.

Track 2: Economic Development
The Economic Development track solicits papers that help tell the economic development story as it evolves in the 21st century. We focus on issues of land, labor, capital, people, amenities, and entrepreneurship. This track invites scholars, theoretic and pragmatic, to present their work in a manner that will help us to more deeply understand the forces that drive economic development and practically offer policy and takeaways to improve the quality of life of our citizens.

Track 3: Environmental Planning & Resource Management
Environmental Planning and Resource Management presentations encompass a broad range of topics centered on or closely related to the natural environment. It includes research on the planning and management of fundamental resources (i.e., air, land, water, energy) across a variety of scales and from a variety of perspectives. Emerging research topic areas, both in practice and principle, include climate change mitigation and adaptation measures, sustainability, coastal and social-ecological resilience, green infrastructure, biodiversity conservation in the Anthropocene, alternative energy sources, and novel resource policy and governance structures from the rural to the increasingly dense urban landscapes.

Track 4: Gender & Diversity in Planning
The Gender and Diversity in Planning track explores the variety of methods, issues, and topics addressed when groups of difference analyze, develop and implement plans and planning activities. All aspects of diversity are encouraged in this track from race, ethnicity, gender, sexual orientation to geography, physical or cognitive disability, and class. We encourage papers and discussions on planning research and pedagogy that speak to issues of justice, equity, and inclusion related to gender and diversity.

Track 5: Housing & Community Development
The Housing and Community Development track accepts papers broadly addressing any aspect of housing and community development. In the housing area, papers routinely address issues of housing policy and programs designed to correct market failures in the provision of affordable housing. In the community development area, papers examine issue of neighborhood change whether it is revitalization, stabilization, gentrification, growth or decline.
Track 6: International Development Planning
The International and Comparative Development Planning track focuses on planning issues directly relevant to developing and transitional countries as they navigate an increasingly interconnected world. International development emerged as a specific planning concern in the post-war period following decolonization across Africa and Asia and in the wake of reconstruction and nation building efforts in Asia, Africa, the Middle East and Latin America. Many late developing countries continue to share demographic, social, economic and structural attributes that create challenges for planning: demographic shifts; uneven development; struggles over land and infrastructure; tensions between economic growth, equity and environmental degradation; and the difficulty of providing decent employment opportunities amidst rapid urbanization, technical change, new kinds of informality, migration and the risks of a changing climate. Significant differences also exist among developing countries (e.g., diverse planning cultures), which creates rich debates over governance and institution building as countries negotiate their positions in a volatile global economy. The track supports comparative scholarship as well as in-depth analysis of specific countries, regions, rural contexts, cities and networks. By encouraging such work the track aims to foster bi-directional flows of knowledge, science and culture between the global north and south.

Track 7: Land Use Policy & Governance
Land Use Policy and Governance papers generally focuses on issues relating to and where land is developed, the impacts of state and local regulations on the use of land, and the role of different actors in the land development process. Additionally, papers in this track examine the impact of state and regional policies and plans on land use including growth management and smart growth programs. Land Use Policy and Governance papers usually employ a variety of methods such as statistical analyses, detailed case studies, and policy evaluations. The scale of analysis also varies widely, from jurisdiction-level studies, to regional or state analyses, and sometimes includes comparisons between cities or regions in different parts of the globe.

Track 8: Food Systems & Community Health
The Food Systems, Community Health, Safety track focuses on the burgeoning research and community-based practice of planning scholars and practitioners on community food systems, community health, community well-being, or community safety in both urban and rural settings. The track welcomes submissions focused on: assessments of the health impacts of environmental change or land use plans; disparities in food access and health outcomes; the impacts of the built or food environments on community health, community well-being and/or food security; community safety; refining concepts and/or measures for use in these fields; linkages between community food systems, health, and well-being and economic development; and the effects of disasters or assessing the impact of disasters on community food systems, community health, or community well-being.

Track 9: Planning Education & Pedagogy
The Planning Education and Pedagogy accepts papers that illuminate and help improve understanding of the purposes of planning education and the uses of curriculum and pedagogy as strategies for serving these purposes. Papers should refer to and build on literature on education, teaching, learning, and planning. Reflective accounts or evaluations of educational practice, critiques of contemporary educational practices, and proposals for more focused and influential educational practices are welcome.

Track 10: Planning History
Planning History presentations aim to shed light on the emergence and evolution of modern planning at various geographic scales (from the local to the global), in a variety of sub-fields (land-use planning and regulation, housing, transportation, etc.) and in various modes (community action, professional practice, theoretical debates, etc.). Case studies of very recent planning events should be submitted to tracks according to the issue at hand. Papers dealing with the themes of this year’s conference will be given priority.
Track 11: Planning Process, Administration, Law & Dispute Resolution
The Planning Process, Administration, Law and Dispute Resolution track focuses on the nature, design and management of decision making processes; plan administration; the development, content, implementation, and effects of laws and regulations; and, approaches to conflict management and dispute resolution.

Track 12: Planning Theory
The Planning Theory track focuses on the role of planning theory in understanding and informing planning scholarship and practice. We encourage papers that make connections between theoretical and substantive knowledge in planning. Of particular interest are theoretical papers that shed light on current social movements or contemporary planning phenomena related to environment or economy that links theory with planning practice.

Track 13: Regional Planning
The Regional Planning track encompasses a range of topics central to regional planning scholars and practitioners, including governance, inter- and intra-metropolitan relations, regional economic development, international comparisons of regional policy, and applications relevant to land use, growth, transportation, environmental and social systems at the regional scale. All methodologies, including quantitative analyses, theoretical work, detailed case studies and comparative analyses, are welcome.

Track 14: Transportation & Infrastructure Planning
The Transportation and Infrastructure track encompasses research on the processes by which transportation and other infrastructure is planned, designed, and developed; the performance of transportation and infrastructure systems and the policies that guide them; the nature of the demand for transportation and other services provided via public infrastructure. Of interest are passenger and freight transport by all possible modes, as well as other public infrastructure such as water systems, power utilities, and community facilities.

Track 15: Urban Design
The Urban Design track solicits papers that examine the planning, design and development of the urban environment. The track addresses diverse urban design practices (including design, strategy, governance, visioning, regulation, and development) and concerns (including livability, walkability, health, resilience, heritage, regeneration, informality and place making). The track encompasses a variety of forms of research that contribute to our understanding of the design of the urban environment. Innovative papers that make connections across disciplines, scales, and substantive concerns are particularly encouraged.

The Continuing City: 
People, planning, and the long haul to urban resurgence

The Association of Collegiate Schools of Planning
58th Annual ACSP Conference
October 25-28, 2018
Buffalo, New York

Local host:
Department of Urban and Regional Planning
School of Architecture and Planning
University at Buffalo
State University of New York
On behalf of the Department of Urban and Regional Planning at the University of Colorado Denver, we are delighted to welcome you to Denver and the 57th Annual Conference of the Association of Collegiate Schools of Planning!

You are visiting Denver at one of the most exciting times in its history. Our city is growing by leaps and bounds, with more than 1,000 newcomers arriving on a monthly basis. Denver is flourishing because of its diverse and dynamic economy, high quality of life, and access to incredible natural amenities. Thanks in part to this economic boom, it now claims a thriving downtown and vibrant string of historic urban neighborhoods, which we hope you will explore during your stay. Denver is at the cutting edge of many trends in planning, being one of the early adopters of form-based code and a pioneer in sustainability and green design. Projects like Union Station—a recently revitalized transportation hub in the heart of downtown—have come to define the city’s collaborative approach to development.

At the conference, you will have numerous opportunities to learn about Denver and the Front Range region’s many accomplishments and challenges. Our mobile tours will feature planners, business owners, and policy-makers who are helping to build vibrant and equitable communities. The two local host sessions will critically engage with some of the key planning issues facing our city, namely affordable housing and a burgeoning marijuana industry. The welcome reception will be held at Wynkoop Brewing Company, one of the oldest microbreweries in Denver and a business that helped spur the revitalization of the Lower Downtown neighborhood.

We are honored to be your local hosts, and wish you a fun and productive stay in the Mile High City.

Sincerely,

Austin Troy, Local Host Co-Chair
Andrew Rumbach, Local Host Co-Chair

ABOUT THE LOCAL HOST

The Master of Urban and Regional Planning Program at the University of Colorado Denver has evolved to become one of the strongest, most unique planning programs in the United States. We offer a very hands-on, real-world oriented program that uses Colorado as our classroom and engages students with top planning/design professionals and the community.

We believe that successful city building requires expertise, breadth, interdisciplinary understanding, and creativity. Our program looks beyond traditional professional silos and instead centers on issues at the forefront of planning practice. Our three Initiatives—Healthy Communities, Urban Revitalization, and Regional Sustainability—form the basis of our research, instruction, and community outreach.

We encourage all students to follow their passion and develop expertise in the areas that matter most to them. Thus, we offer a unique, self-directed curriculum that allows students to understand the breadth of the planning field while gaining the technical expertise demanded by the profession.
The UCLA Luskin Department of Urban Planning congratulates Donald Shoup for receiving the Distinguished Educator Award from the Association of Collegiate Schools of Planning (ACSP).
ACSP DISTINGUISHED EDUCATOR

The ACSP Distinguished Educator Award is presented in appreciation of significant contributions to the field of planning. The awardee is selected from candidates who are nominated by ACSP members. Nominations must come from members of the faculty of ACSP member schools. Nomination criteria:

- Scholarly Contributions: Publications and presentations, seminal work, research grants, etc.
- Teaching Excellence: Awards, teaching evaluations, reference of colleagues, and student community, etc.
- Service: Ranging over twenty years or more; contributions to ACSP, APA, AICP, and other professional and academic organizations; roles in local, state, federal commissions and agencies as policy advisors; contributions to one’s university.
- Significant Contributions: Contributions that have made a significant difference to planning scholarship, education and practice.

WINNER: DONALD SHOUP

Professor Shoup has made exceptional contributions to the planning field in each of three areas: (1) planning scholarship, (2) teaching, and (3) planning practice.

Professor Shoup’s collegial and collaborative nature has made him an effective mentor as well. The letters from many of his now prominent former students in this dossier all speak to Professor Shoup’s dedication as a mentor, and respect for his students’ ideas. In addition to supporting students as research assistants on research projects, each year Professor Shoup hires many of UCLA’s best and brightest planning students to critique his research and writing. Over the past several years, many of his graduate advisees have met with considerable success upon graduation.

Professor Shoup has an especially distinguished record of public service, much of which has been described in the discussion of the influence of his research on planning practice. He serves and has served on a very large number of government and non-profit boards and commissions related to his broad research interests.

One example of the merging of his research and service concerns his work on public transit pricing. Given that many universities and other very large employers frequently struggle to accommodate the traffic generated and parking demanded by drivers to school or work, Professor Shoup and his students in the early 2000s examined the use of universal transit pass programs to reduce driving. Such programs allow universities and other large employers to purchase transit service for all students (or, in many cases, students, faculty, and staff) allowing them to ride transit free of charge. In such cases, the employer purchases universal transit coverage when such coverage is cheaper, at the margin, than providing additional parking. Contrary to most research on the price elasticity of demand for transit service, Shoup and his students found that university transit pass programs significantly increase transit ridership and reduce driving.

“At UCLA Professor Shoup has been an exemplary citizen, which is amply detailed in his curriculum vitae. He directed the Institute of Transportation Studies for five years, served as chair of the Department of Urban Planning for four years, and has ably served on a very long list of university, school, and departmental committees – notably as a member and chair of the UCLA Faculty Welfare Committee and as a very active member of the UCLA Transportation Services Advisory Board.” ~ Brian D. Taylor, FAICP, UCLA Luskin School of Public Affairs

Each year, ACSP is proud to honor faculty and students who have distinguished themselves or made major contributions to the academy or to the profession via outreach efforts, public service or for service to ACSP, the Academy, or the profession. A complete listing and history for all awards can be found at www.acsp.org. Faculty awards are presented at the Saturday Awards Luncheon, 12:30 – 2:00 PM in the Colorado Ballroom E&F.
ACSP 2017
Annual Conference ~ Denver, CO
October 12-15, 2017
Denver Marriott City Center

Local Practitioners – daily registration fees are available: www.acsp.org.

The ACSP Annual Conference attracts more than 1000 scholars representing roughly half the planning faculty in the U.S. and Canada, plus important clusters of faculty from planning programs across the globe, a substantial group of doctoral students, and local practitioners seeking CM credits.

Urban planning is unique and important because, as a field, it grapples with the study of real problems in real places; professional degree programs train those who will not only study but act.

Theme
With its explosive amenity-driven growth, the Denver metropolitan region is emblematic of much of the American West. While growth brings tremendous economic opportunities, it is often accompanied by significant challenges, such as: housing supply shortages and increasing housing costs; land consumption and loss of open space; increasing exposure to natural hazards; traffic congestion and delay; inability to scale transit to meet demand; lack of coordination between jurisdictions; inequitable public education; sectoral imbalance in the economy; gentrification; and congestion of amenities. But amidst these challenges, regional growth also offers valuable opportunities for cities to redefine, re-invent, and revitalize themselves.

As one of the largest gatherings of planning academics, this conference is as an opportunity to build the conversations about what urban planning in the academy is and means, how it is important to universities, and what it means to the places we inhabit and serve.

We look forward to seeing you in Denver and beyond!
MARTIN MEYERSON AWARD FOR DISTINGUISHED LEADERSHIP IN HIGHER EDUCATION

The ACSP award called the Martin Meyerson Award for Distinguished Leadership in Higher Education, recognizes sustained contributions in academic administration by an urban/regional planning scholar/educator that have led to significant national and/or international impacts on higher education.

2017 Committee
Chris Silver, Committee Chair, University of Florida
Michael Oden, University of Texas at Austin
Sonia Hirt, University of Maryland

WINNER: WIM WIEWEL

While at University of Baltimore, Wim led the university and its faculty to become engaged with the communities around it. As the chief academic officer, he was able to secure Carnegie designation for UB as a “community engaged university,” evidence both of his vision for what universities can and should mean to their communities and to his ability as an academic leader to enlist the faculty in making signature institutional changes. Finally, since 2008, Wim has served as President of Portland State University. Over the last eight years, Wim has provided leadership for continued institutional growth and change.

In the nomination letter for Dr. Wiewel for the Meyerson Award, it was noted as follows:

“We believe that Wim Wiewel’s career exemplifies both the spirit and the outcomes expected of the work of a Meyerson Award honoree. Wim’s career has been marked throughout by the institutions he has strengthened and built. During his many years at the University of Illinois at Chicago, he melded a successful and productive scholarly career with key posts wherein he provided administrative leadership for expanding, managing, or establishing units on that campus. For 21 years he served at the highest levels as an administrator and academic leader.

We believe that the record of Wim Wiewel demonstrates a clear commitment throughout his career, and through his accomplishments, to enabling institutions of higher education to innovate, grow, and lead. Like Meyerson, Wiewel is associated with the advancement of institutions of higher education in a manner that reflects both the best of academic traditions and the challenges of the world we live in today. As such, he represents the best of what planning scholars can contribute to the advancement of higher education. His “sustained contributions in academic administration” have had a profound impact, making him deserving of ACSP’s important recognition as the 2017 Meyerson Award winner.”

Each year, ACSP is proud to honor faculty and students who have distinguished themselves or made major contributions to the academy or to the profession via outreach efforts, public service or for service to ACSP, the Academy, or the profession. A complete listing and history for all awards can be found at www.acsp.org. Faculty awards are presented at the Saturday Awards Luncheon, 12:30 – 2:00 PM in the Colorado Ballroom E&F.
Located in the heart of New York City, **NYU Wagner’s Master of Urban Planning** program prepares students to address critical urban challenges. The faculty are at the forefront of vital issues and debates about the future of global cities and the solutions required to ensure that they remain livable, sustainable, and inclusive.

**Salo Coslovsky** is writing a book on how protective regulations can induce productivity gains. He is also developing a new course where students will conduct research on the economy of cities.

**Ingrid Gould Ellen** is co-authoring a book on racial and economic segregation. She is also studying how affordable housing influences people’s lives and how policies can address its challenges.

**Jacob William Faber** is researching the mechanisms responsible for sorting people across space and how the distribution by race and class interacts to create disparities.

**Zhan Guo** is the Director of NYU Wagner’s urban planning program. He is analyzing whether Uber has slowed down traffic in NYC and is evaluating the parking policy of Tianjin City for the World Bank.

**Natasha Iskander** studies labor migration, skill, and urban transformation, and the connection between these areas. She is also writing a book on migrants in Qatar in the lead-up to the 2022 World Cup.

**Mitchell L. Moss**, Director of the Rudin Center for Transportation, leads studies on urban transportation issues. He was recently appointed as a member of NY’s MTA Advisory Board.

**Daniel Neill** is developing machine learning methods for event and pattern detection and working with city leaders to apply them to public health and safety, crime prediction, preventing rat infestations, and detection of disease outbreaks.

**Kathy O’Regan** is researching the intersection of poverty and space, with a focus on affordable housing and community development. She recently served as HUD Assistant Secretary of Policy Development and Research.

**Paul Smoke**, Director of NYU Wagner’s International Specializations, is researching urban finance in developing countries, with a focus on the development and evolution of infrastructure finance options.

**Rae Zimmerman**, Director of NYU Wagner’s Institute for Civil Infrastructure Systems, is analyzing interconnections among urban infrastructure services and their effect on resilience.

**Atul Pokharel** joins NYU Wagner’s urban planning program after finishing his PhD at MIT. He is researching ways communities can maintain physical and digital infrastructure, the greening of South Asia’s urban transportation systems, and machine learning and artificial intelligence in public agencies.
PAUL DAVIDOFF BOOK AWARD

The Paul Davidoff award celebrated its 30th year in 2015. It is given by the Association of Collegiate Schools of Planning (ACSP) to honor the memory of Davidoff, an eminent planner who established the field of advocacy planning and who was an unyielding force for justice and social equity in the profession. This award has been given every other year since 1985.

WINNER: GLOBAL HEARTLAND: DISPLACED LABOR, TRANSNATIONAL LIVES, AND LOCAL PLACEMAKING, BY FARANAK MIRAFTAB, UNIVERSITY OF ILLINOIS

Global Heartland is the account of diverse, dispossessed, and displaced people brought together in a former sundown town in Illinois. Recruited to work in the local meat-processing plant, African Americans, Mexicans, and West Africans re-create the town in unexpected ways. Drawing on ethnographic research conducted in the US, Mexico, and Togo, Faranak Miraftab shows how this workforce is produced for the global labor market; how the displaced workers’ transnational lives help them stay in these jobs; and how they negotiate their relationships with each other across the lines of ethnicity, race, language, and nationality as they make a new home. Beardstown is not an exception but an example of local-global connections that make for local development. Focusing on a locality in a non-metropolitan region, this work contributes to urban scholarship on globalization by offering a fresh perspective on politics and materialities of placemaking.

The committee wrote enthusiastically that her book engages us in the "present historical conjuncture, its specific injustices, and what this moment therefore demands of us as topics of scholarship." One member noted that Global Heartland "is a beautifully written, theoretically rooted study, of great current importance, and it suggests how planners should intervene." The committee noted that Miraftab "makes a great contribution to planning scholarship both in terms of her translocal relational methodologies and her analytical framework of the global restructuring of social reproduction." Another member noted that the “spirit of Davidoff comes through in multiple places, such as when different immigrant groups and African-Americans advocate and create a place of their own.”

Global Heartland’s Other Accolades
- Winner 2017: Global & Transnational Sociology section Book Award, American Sociological Association (ASA).
**MARSHA FELD AWARD**

This award recognizes a FWIG colleague for outstanding leadership within the ACSP organization.

**2017 Committee**

Kathy Quick, Committee Chair (Administrative, Non-Voting), University of Minnesota

Hazel Edwards, Howard University

Lisa Schweitzer, University of Southern California

**WINNER: CARISSA SLOTTERBACK**

While serving ACSP, Carissa has maintained a critical bridge to planning practice. She has served as faculty liaison to the Minnesota state chapter of the APA and on APA national committees on student membership, the AICP exam, and fellowships. In addition to these more formal roles, one of Carissa’s most important contributions to ACSP was her survey work on parental leave policies in ACSP-member universities. As our programs push towards greater faculty diversity, parental leave has become a fundamental issue that ACSP had not previously addressed. As an Assistant Professor, Carissa initiated and led the ACSP parental leave survey that documented the widely varying conditions under which planning faculty make choices about when to have children and how to care for them. With support from ACSP and FWIG, Carissa conducted a survey of faculty and administrators to gather data on their experiences in making decisions about parental leave, addressing bias, interpreting leave policies, and accounting for parental leave in promotion decisions. She used that data to recommend ways that ACSP and member schools can better support faculty members as they navigate the balance of their professional and personal lives.

The Feld Award committee members lauded her work to tackle challenging and important issues that women in the planning academy face, notably work on surveying, analyzing, and promoting improvement in faculty birth and adoption policies.

The Feld Award committee members praise Carissa’s “absolutely exemplary record of service” and “excellent leadership” within ACSP. Nominators documented your many years of sustained and thoughtful service across numerous roles, including her service on ACSP’s diversity committee, as chair of the environmental planning track, and as local host or conference committee, and now as Secretary of ACSP.

Her leadership experiences within the ACSP organization are substantial and ongoing, as detailed below:

- Diversity Committee (2004-2006)
- Local Host Committee for the annual conference (2009-2010)
- FWIG Awards Committee (2010)
- Environmental Planning Track Co-Chair (2011, 2012, 2014)
- Conference Committee (2013-2015)

JPER TOP REVIEWERS

Each year, ACSP is proud to honor faculty and students who have distinguished themselves or made major contributions to the academy or to the profession via outreach efforts, public service or for service to ACSP, the Academy, or the profession. A complete listing and history for all awards can be found at www.acsp.org. Faculty awards are presented at the Saturday Awards Luncheon, 12:30 – 2:00 PM in the Colorado Ballroom E&F.
EDUCATOR AWARD WINNER: EMIL MALIZIA, PH.D., FAICP, PROFESSOR, UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL

Emil Malizia is Professor of City and Regional Planning and Director of the Institute for Economic Development at the University of North Carolina-Chapel Hill. His expertise spans the related areas of regional economic development, real estate development, and urban redevelopment. For almost five decades, he has conducted research, taught graduate-level and in-service courses, and engaged in consulting for private, non-profit, and foundation clients. His current research and practice focuses on vibrant centers of employment in the U.S. with emphasis on real property performance and economic development synergies.

Dr. Malizia has written five books and is author or co-author of over 170 scholarly articles, monographs, and other publications. During university leaves, he has held positions of senior real estate adviser in a major life company, visiting professor, special assistant in Federal service, and Fulbright Senior Scholar. He is a member of the American Real Estate Society, the American Planning Association, the International Economic Development Council, the Urban Land Institute, and AICP (Fellow). He received his baccalaureate from Rutgers University and his Master’s and doctoral degrees from Cornell University. He served in the U.S. Marine Corps Reserves.

PRACTITIONER AWARD WINNER: CAROL BARRETT, FAICP, SENIOR ASSOCIATE, ZUCKER SYSTEMS

Carol D. Barrett has been a professional planner in both the private and public sectors for more than forty years. Her graduate degree in City Planning came from Georgia Institute of Technology. She has worked on the east coast, west coast, and Texas. She has been the Director or Assistant Director in Annapolis, Austin, Berkeley, Burbank, and San Marcos (Texas). She participated in the first of her seven site visits in the late 1980’s and the most recent in 2017.

Carol has a life-long interest in planning ethics and has taught courses around the country. In 2001, her book, Everyday Ethics for Practicing Planners, was published.

Carol has been active in the American Planning Association. She is a past-president of the National Capital Area Chapter and the Texas Chapter. She served as Vice President for Professional Development of the California Chapter. She was Secretary and President of the California Planning Foundation which raises funds for planning student scholarships. Last year the Foundation awarded more than $50,000 in scholarships.

Carol served on the Board of Directors of the American Planning Association and received the organization’s Distinguished Service Award in 1993. In 1999, Carol was inducted with the inaugural class into the Fellows of the American Institute of Certified Planners.
2017 ACSP STUDENT AWARDS

THE MARSHA RITZDORF AWARD FOR THE BEST STUDENT WORK ON DIVERSITY, SOCIAL JUSTICE AND THE ROLE OF WOMEN IN PLANNING

The Marsha Ritzdorf Award for the Best Student Work on Diversity, Social Justice and the Role of Women in Planning has been given by the ACSP Faculty Women’s Interest Group since 1998 and recognizes superior scholarship reflecting concern with making communities better for women, people of color and/or the disadvantaged, quality of planning education.

2017 WINNER: “ADVOCACY PLANNING IN THE GROWTH MACHINE: TOWARD A POLITICAL URBAN PLANNING”

WES GROOMS
UNIVERSITY OF LOUISVILLE

As is well known, advocacy planning has long been the most frequently taught planning theory aimed at improving communities for the disadvantaged and disenfranchised by addressing inequitable and unjust planning outcomes. Because of this, Wes selected it as a proxy for planning theory’s attempts at understanding the causes of these inequitable and unjust outcomes, and its proposed planning practice methods intended to solve them. To offer new insights into why normative planning theories and practice have insufficiently mitigated the conditions suffered by disadvantaged urban communities, Wes utilizes Harvey Molotch’s The City as a Growth Machine: Toward a Polictical Economy of Place (Growth Machine) as a lens through which he examines Advocacy Planning (and normative planning theory more generally).

2017 WINNER: “AN EQUITY ANALYSIS OF THE U.S. PUBLIC TRANSPORTATION SYSTEM BASED ON JOB ACCESSIBILITY”

ARMIN JEDDI YEGANEH
VIRGINIA TECH UNIVERSITY

Armin successfully defended his thesis earlier this month and received the MURP Best Paper Award for his research. Armin’s research expands previous work on equity analysis of the U.S. public transportation system by studying the 45 largest Metropolitan Statistical Areas (MSAs) and their counties. A unique aspect of this work is the combination of two nation-wide datasets of socioeconomic status (SES) and job accessibility with accurate estimates of user characteristics and transit schedules. His paper includes an analysis of more than 100,000 data points and more than 50 group regression analyses. By emphasizing SES variables such as income, race, and English speaking ability, Armin’s research provides information that can inform the planning of transportation services that promote social equity.

WINNER: “CRYSTAL BALLS & BLACK BOXES: OPTIMISM BIAS IN RIDERSHIP & COST FORECASTS FOR NEW STARTS RAPID TRANSIT PROJECTS”

CAROLE TURLEY VOULGARIS
UNIVERSITY OF CALIFORNIA, LOS ANGELES

We were impressed that Carole compiled an original data set to investigate the issue of forecast accuracy in transit planning. She turns the microscope on planners themselves to determine whether any observable improvements in forecasting project cost and ridership in the Federal Transportation Administration’s New Starts capital program resulted from changes in policy, practice, project type, and proposal period. Carole approaches the issue of forecast accuracy from multiple vantage points: through interviews, a historical narrative of changing administrative practices, and statistical analysis of her dataset. She provides clear explanations of her methods even when they do not always bear fruit in terms of significant statistical relationships. Carole’s dissertation could inform predictive techniques and government decision-making in the future; program evaluation and project selection are areas where planners and policy makers actually have power.

“This dissertation perfectly meets the selection criteria for the Jones award. Carole employed sophisticated and elegant statistical techniques to compare forecast made for transit new starts program submissions since the inception of the program, yet her presentation of the results is wonderfully accessible to readers who may not themselves be sophisticated statisticians,” noted Martin Wachs, Distinguished Professor Emeritus, UCLA.

GILL-CHIN LIM BEST DISSERTATION AWARD

This award is funded annually by the Consortium of Development Studies (CODS), which was founded by Dr. Gill-Chin Lim in 1982. This award recognizes superior scholarship in a doctoral dissertation completed by a student enrolled in an ACSP-member school.

WINNER: “ADAPTIVE EFFICIENCY IN COFFEE CLUSTERS: RESILIENCE THROUGH AGGLOMERATION, GLOBAL VALUE CHAINS, SOCIAL NETWORKS, & INSTITUTIONS”

THOMAS DOUTHAT
GEORGIA TECH UNIVERSITY

This award was given to Thomas Douthat who received his Ph.D. at Georgia Tech with a dissertation titled “Adaptive Efficiency in Coffee Clusters: Resilience through Agglomeration, Global Value Chains, Social Networks, and Institutions.”

Douthat’s interest in Coffee Cooperatives in Costa Rica and Mexico grew from his long-term engagement with Central-American land and water management begun as a law student at the University of Puerto Rico. During doctoral studies, Douthat saw connections among theories of resilience, social capital/social networks, and land tenure/land use that led to a creative mixed-method proposal and a Fulbright year in Costa Rica and Mexico. In country, Douthat forged relationships with many dozens of NGOs and firms. The resulting analysis is theoretically rich and detailed, engaging, and provocative. Douthat’s empathy for coffee growing workers, families and cooperatives is obvious. The findings suggest institutional adjustments that are promising to improve resilience among coffee cooperatives and in other agricultural industries.

Among the many excellent applications we received this year, his study of Coffee Cooperatives in Costa Rica and Mexico impressed us particularly because of his creative and very effective use of mixed methods, extensive fieldwork, insightful in-depth analysis of ecological and economic resiliency, and consideration of economic structures and agglomerations, as well as social and knowledge-sharing networks.

WINNER: “PLANNING EQUITABLE FOOD SYSTEMS: AN OVERVIEW OF PROBLEMS AND OPPORTUNITIES”
RACHEL GAFFNEY, UNIVERSITY OF OKLAHOMA

The Edward McClure Award winning entry this year is Rachel Gaffney’s “Planning Equitable Food Systems: An Overview of Problems and Opportunities”. This paper is a comprehensive examination of the topic of community food systems and the roles that planners and local planning organizations can play in designing and sustaining them to be more locally-oriented and equitable. Beyond being remarkably well-organized and lucidly written, Gaffney’s paper draws on an impressively wide range of sources to present an up-to-date synopsis of a rapidly evolving and increasingly visible and important topic within planning practice and scholarship. Gaffney, of the University of Oklahoma, not only describes the state-of-the-art in food system planning but also offers innovative ideas for extending practice, in the process linking areas of planning that are typically viewed as separate.

Rachel describes her inspiration for her project, “I think that examining food systems can encourage a more ecological perspective towards planning. Incorporating food into planning encourages a renewed focus on the human experience of space and society, which traditional planning theories have sometimes lacked. As my project progressed I began to see many connections that I had not considered before: from food and public health to housing policy, economic development policies, land use priorities, public education, and mass incarceration. When I examined inequalities in access to food, I found that it could not truly be separated from other societal inequities. Societal inequities are incredibly interconnected and food systems illustrate that very compellingly.”

STUDENT TRAVEL AWARDS

ACSP-POCIG Scholarship for Student Travel
The Planners of Color Interest Group provides travel scholarships for underrepresented minority doctoral students to attend the annual ASCP conference. The conference is an important venue for students to meet other students, planning faculty, and attend conference activities such as panels, workshops, business meetings, and receptions. The scholarship’s purpose fits with the larger POCIG goal to support and mentor minority doctoral students as they can complete their degrees and increase the number of planning faculty of color.

ACSP Book Fair Publishers Student Travel Scholarship
Generous publishers have become accustomed to leaving books behind from their Book Fair participation at ACSP conferences. This allows the ACSP to use them as a fundraiser, selling them for 1/2 the retail price on Sunday morning of the conference. Since 2005 all sale proceeds have gone toward travel scholarships for first-time student presenters at the next year’s conference.

OPENING RECEPTION

Wynkoop Brewing Company, Breckenridge on Blake & Ale House at Amato’s

ACSP is proud to host its Opening Reception at this landmark venue. Enjoy a wide array of delicious food and sample the legendary craft brews on tap. Brew Masters will provide attendees the chance to sample some of the brewery’s best beers and ciders, while other brew staff will show you how it’s all made with mini-tours of the onsite brewery.

About the Wynkoop
Wynkoop Brewing Company, located in LoDo and one of the best examples of downtown revitalization, was once home to the J. S. Brown Mercantile Building. In the late 1980s, four friends partnered to open Denver’s first Brewpub in an area that was, at the time, void of a ballpark, pedestrian-only streets, farm-to-table restaurants and valet parking.

Almost 30 years later, the craft brewery welcomes visitors daily and offers some of the best and most original craft beers in the city. The brewery has welcomed its share of prominent patrons, including a surprise visit by former United States President Barack Obama in 2014. He enjoyed the brewery’s signature Rail Yard brew and played a friendly game of pool with Governor John Hickenlooper, one of the four founding members of Wnykoop Brewing Company.

Emeriti Breakfast
Friday: 7AM – 8:15AM
Saratoga-LL1

Dear colleagues! I have been thinking about ways for ACSP old timers (like me) can get together at the ACSP Annual Conference. I suggested that the ACSP arrange an Emeriti Breakfast. I’m definitely not thinking of having a formal program or speaker(s), just providing a time and place for us to get together. There is no cost to attend. I’d also appreciate any other ideas you may have on ways for us to get together during future conferences or communicate throughout the year. — Sincerely, Dick Klosterman

PRESIDENTIAL SESSION: THE STATE OF DIVERSITY WITHIN ACSP
THURSDAY: 4:15 PM – 5:30 PM
Colorado B-LL2

With support from ACSP President, Lois Takahashi, this session is hosted by the ACSP Committee on Diversity (CoD). CoD will present their 2016 Report on Race, Ethnicity, and Foreign Origin Data; describe activities undertaken to enhance ACSP’s commitment to inclusive and equitable diversity in education and research; and allow for discussion of their work on programs and incentives for increasing faculty and student diversity as well as expanding diversity in the curriculum.

Speakers
• Ann Forsyth, Harvard University
• Arnab Chakraborty, University of Illinois at Urbana-Champaign
• Jeffrey Lowe, Texas Southern University, Committee Chair

CASE TEACHING & WRITING FOR PLANNERS: THE LINCOLN INSTITUTE OF LAND POLICY
FRIDAY: 1:30PM – 3PM
Colorado I-LL2

To address the rising social, economic, and environmental challenges facing cities across the globe, planners need to acquire foundational knowledge and skills in planning and public finance as well as opportunities to apply them in real world situations. Thus the Lincoln Institute of Land Policy created a case library for teaching and learning. A case study re-creates a real-world problem, and asks students to walk in the shoes of public officials, business leaders, and citizens. Through debates, group work, and continuous feedback from educators and peers, participants develop a deep understanding of pertinent issues, analytical skills, and empathy for opposing views.

The workshop will introduce the Lincoln Institute Case Library initiative; strategies and supports for case research, writing, and teaching; ten ($1000) case study awards; and how you can use and contribute to the case library. Using two case study examples, we will review the definition of a teaching case, the learning goals and expected outcomes of using cases, and provide guidance on how to write them. During the last part of the workshop, participants will be invited to brainstorm cases they may be interested in writing. Prior to the workshop, participants will be asked to read two short cases that will be distributed in advance.

Speakers
• Ge Vue, Instructional Designer, Lincoln Institute of Land Policy
• William Ellet, Management Communication Faculty, Brandeis University and the University of Miami Executive MBA Program for Athletes & Artists

LEAPING THE HURDLES & NAVIGATING THE MAZE: GETTING FUNDING FROM NIH & NSF
FRIDAY: 3:15PM – 4:45PM
Colorado I-LL2

Organized by the ACSP Executive Committee. This session is intended for faculty members, professionals, and graduate students interested in learning how to prepare successful proposals for research grants. Current and recently retired program officers from the National Science Foundation (NSF) and the National Institutes of Health (NIH) will highlight the hurdles commonly experienced by applicants and guide participants through the maze of NSF and NIH. They will discuss NSF’s and NIH’s review criteria and will also provide information on doctoral student support, early investigator funding opportunities, and faculty submission guidelines.

Speakers
• Susan Newcomer retired to the high mountains of Colorado in May of 2017 after a 29 year stint as a health science administrator in the Population Dynamics Branch of the US National Institute of Child Health & Human Development.
• Antoinette WinklerPrins, PhD, Program Director, Geography & Spatial Sciences Program; Antoinette is a people-environment geographer specializing in nature-society relations, with an emphasis on cultural landscapes and environmental knowledge systems, especially in the Brazilian Amazon.

BEING HEARD—AND AGREED WITH—IN THE POLICYMAKING ENVIRONMENT
FRIDAY: 3:15PM – 4:45PM | TICKET REQUIRED: $25
Colorado H-LL2

Organized by the ACSP Executive Committee. From environmental regulations to infrastructure to social justice to community development, what happens in Washington, DC doesn’t stay there. Every day legislators and staff make decisions that dramatically impact the planning community. ACSP members can influence those decisions—just need to know how! Join us in this interactive session to learn the four specific things you can do to ensure your legislators and their staff listen up and take notice. We’ll also go over what legislators are looking for from academic interests, the most important things to know about your legislators, and how to develop a winning message. Participants will come away with a specific plan for engaging effectively in the policymaking process. If you want to make a difference for communities across the country, this is the workshop for you.

Speaker
• Stephanie D. Vance, also known as the “Advocacy Guru”, is the author of five books including Citizens in Action: A Guide to Influencing Government and the recently released The Influence Game.
BIG IDEAS SESSION: PLANNING’S ENGAGEMENT WITH MASS-IMPRISONMENT
SATURDAY: 9:45AM – 11:15AM
Colorado A-LL2

Organized by the ACSP Executive Committee. The United States imprisons its residents at a higher rate than any other country in the world. In many neighborhoods, criminal justice agencies are the primary government actors interacting with the public, and spending on police and prisons is the largest public expenditure. The criminal justice system also displays some of the widest racial disparities of any U.S. government institution. Despite the significant role of the criminal justice and penal systems in shaping the built environment of cities and the lives of urban residents, as well as its significant contribution to continuing urban inequality, the penal system is often not a primary focus of urban planning research or education. The goal of this session is to create an opportunity for debate and critical reflection on the implications of incarceration for planning and to explore the possibilities for planning education in prisons and jails.

INSTITUTIONALIZING COMMUNITY – UNIVERSITY ENGAGEMENT: SCALING UP COLLABORATION THROUGH PLANNING LEADERSHIP
SATURDAY: 3:30PM – 5PM
Colorado A-LL2

Organized by the ACSP Executive Committee. Inspired by the growing relevance and impact of community – university engagement in the urban planning academy, this session will highlight next steps for further institutionalizing engagement in our programs, colleges, and universities. The session will draw on the insights of planning leaders who, through their own research and teaching, as well as administrative efforts, have worked to advocate for, demonstrate, and embed meaningful engagement in their institutions. The speakers will share their perspectives on scaling up individual engagement efforts within universities and communities. They will envision what our institutions might look like if engagement were integrated across our structures of research, education, and service, and will consider the nature of our relationships with and commitment to communities, stakeholders, and the broader public.

GPEIG ROUNDTABLE: THE NEW URBAN AGENDA & GLOBAL PLANNING EDUCATION
THURSDAY: 1PM – 2:30PM
Colorado B-LL2

Hosted by the Global Planning Education Interest Group. The New Urban Agenda (NUA) was presented and adopted at the UN-HABITAT III Conference held in Quito, Ecuador in October 2016. The document sets a new global standards of achievement for sustainable urban development for the next twenty years. The need for meaningful urban interventions is emphasized in the document including the role of urban planning. The main idea of the roundtable is to discuss the following questions: What are the challenges and opportunities from the NUA to global planning education? How should global planning education respond to those challenges and opportunities? What are some new and emerging questions and conundrums from the NUA that global planning education confronts and that students need to be prepared to engage with? The session will begin with brief remarks of the NUA and the ACSP/GPEAN roles and then go round the room and hear from each on their thoughts on any of the questions outlined above.

Speakers
• Bruce Stiftel is professor and chair of the School of City and Regional Planning at Georgia Tech. He represents the Global Planning Education Association Network (GPEAN) to UN-Habitat’s University Network Initiative. His research concerns collaborative governance of environmental/water policy, global movement of planning ideas, and international responses to urbanization.
• Eugenie L. Birch holds the Lawrence C. Nussdorff Chair in Urban Research at the University of Pennsylvania where she is Professor of City and Regional Planning, School of Design and the founding co-Director, Penn Institute for Urban Research. She is currently president, General Assembly of Partners (GAP), an engagement platform for the implementation of the UN's New Urban Agenda and associated global agreements. Her research interests include global urbanization, planning history and urban revitalization.

EMERGING CHALLENGES FOR PLANNING & COLLABORATIVE STRATEGIES TO PREPARE FOR THEM
THURSDAY: 2:45PM – 4PM
Colorado A-LL2

Hosted by the ACSP Committee on the Academy. This session follows issues raised at the 2017 ACSP Administrator’s Conference held in Reston, VA. Given the changing environment across the country marked by budgetary challenges for public universities, declining enrollment, changing demographics and an aging population, the planning academy faces several internal and external challenges. In this session, panelists will share some ideas that emerged from the Administrator’s conference that show the nature of these challenges, their similarities and differences across different parts of the world, and the kinds of strategies that have been adopted to address them.

Participants
• Ed Feser, Provost, Oregon State University
• Bruce Stiftel, Professor & Chair, Georgia Tech
• Heather Campbell, Sheffield University
• Niraj Verma, Virginia Commonwealth University

CONTENT CONNECTIONS: REACHING PRACTICING PLANNERS
THURSDAY: 5:45PM – 6:45PM
Colorado A-LL2

Join the conversation with editors from the American Planning Association’s JAPA and Planning magazine, the editor of JPER, and a practicing planner to find ways to bridge the gap between academics and professionals. We’ll ask for your ideas, and talk about which research topics can help advance the profession, how to get your research in front of planners, and how to translate it for a nonacademic audience.

PUBLIC COMMUNICATION STRATEGIES FOR PLANNING ACADEMICS
FRIDAY: 1:30PM – 3PM
Colorado G-LL2

Hosted by the ACSP Communications Committee. Interested in sharing your research with practitioners, connecting with media, and better communicating about your work for a public audience? Come hear from leading planning researchers about these topics and more. The speakers will share their insights on venues for sharing their research and expertise, engaging with social and traditional media, and framing planning research for broad audiences. In addition to sharing personal strategies and examples, the speakers will offer advice about integrating communication efforts with teaching and research expectations, developing relationships with writers and editors relevant to planning, and engaging colleagues around communication efforts. The session will offer ample opportunities for discussion about communication strategies, as well as ways that ACSP can support faculty and students in enhancing their communications skills.

Moderator
• Carissa Slotterback, Associate Dean, Humphrey School of Public Affairs, and Associate Professor of Urban and Regional Planning, University of Minnesota, slchv005@umn.edu

Panels
• Geoff Boeing, Post Doc, City and Regional Planning, University of California, Berkeley, gboeing@berkeley.edu
• Jennifer Dill, Professor of Urban Studies and Planning, Portland State University, jdill@pdx.edu
• Justin Hollander, Associate Professor of Urban and Environmental Policy and Planning, Tufts University, justin.hollander@tufts.edu
• Yingling Fan, Associate Professor of Urban and Regional Planning, University of Minnesota, yingling@umn.edu

FWIG: PATHWAYS TO ACADEMIC LEADERSHIP FOR WOMEN & FACULTY OF COLOR
FRIDAY: 1:30PM – 3:00PM
Colorado H-LL2

Hosted by the Faculty Women’s Interest Group. There are a number of different pathways to academic leadership positions in the academy. While some are better understood (faculty chair dean), other are not. Panelists will discuss the opportunities for academic leadership positions and the different pathways available to women, faculty of color, and other underrepresented groups.

Featured Panelists
• Dr. Marlon Boarnet is the founding and current chair of the Department of Urban Planning and Spatial Analysis at the University of Southern California. Prior to that, he was vice dean for academic affairs in the USC Sol Price School of Public Policy. From 2003-2006, Dr. Boarnet served as chair of the Planning, Policy, and Design Department at UC Irvine. Dr. Boarnet is currently the Vice-President/Presdent elect of ACSP and has been a major leader on issues of diversity. He led a USC/ACSP partnership to design, build, and host the first-ever pre-doctoral workshop for students of color in urban planning.
• Dr. Jennifer Evans-Cowley was appointed the Provost and Vice President for Academic Affairs at the University of North Texas on July 1, 2017. Prior to this, she was Vice Provost for Capital Planning and Regional Campuses at the Ohio State University. In this role, she created and implemented the University’s six campus, $1+ billion capital plan to enable the advancement of the university’s mission and foster an environment of excellence for faculty, students and staff. She has held positions as the Associate Dean for Academic Affairs and Administration and Department Chair for the City & Regional Planning Department at Ohio State.
• Dr. Jennifer Evans-Cowley

Additional Panelists
• Mai Thi Nguyen, FWIG President and Associate Professor, UNC-Chapel Hill, moderator
• Jennifer Clark, Associate Professor, Director of the Center on Urban Innovation and Associate Director for Smart Cities and Inclusive Innovation
• Meghan Gough, Associate Professor and Chair, Urban and Regional Planning/Studies, Virginia Commonwealth University
• James H. Spencer, Professor and Associate Dean of Research and Graduate Studies, School of Architecture, Arts, and Humanities, Clemson University
• Lois Takahashi. Professor and Director, USC Price School of Public Policy, Sacramento Center and President of ACSP
MEASURING & ASSESSING STUDENT LEARNING OUTCOMES AT THE PROGRAM-LEVEL
FRIDAY: 3:15PM – 4:45PM
Colorado G-LL2

Provided by the ACSP Governing Board. For over a decade, assessment of student learning has been a focus in higher education. Accreditors, like PAB, require that programs define, measure, and assess what and how much students learn throughout their education. In this hands-on interactive session, we will discuss various methods for measuring student learning. We will use measurement examples from specific planning programs as well as ideas brought forward by session participants. In addition, we will examine assessment approaches and the types of curricular feedback that can improve student learning in the future. Participants in this session should leave with examples and strategies for measuring and assessing levels of student learning in their programs and ways for documenting and enhancing that learning.

This session is designed for planning program administrators and faculty involved in student learning assessment.

Speaker
- Cheryl Contant has over 30 years of experience in urban and regional planning education and university administration. She has served as a member of PAB and visited many programs on accreditation site visits. In the past four years, Cheryl has been assisting PAB with their site visitor training programs, with particular attention toward student learning outcome assessment. Most recently, she has been consulting with Morgan State University’s School of Architecture and Planning in the development of program-level student learning outcomes and devising efficient and effective ways to measure and assess those desired outcomes. Cheryl is providing this session, with the support of ACSP, as professional development for program administrators and planning faculty.

EXAMINING GLOBAL PLANNING EDUCATION: AN OPEN CONVERSATION
FRIDAY: 6PM – 7:30PM
Mattie Silks-LL1

Hosted by the ACSP Global Planning Education Task Force. Global planning education in North America finds itself at a crossroads once again. Since the 1950s planning approaches to understanding international and global contexts have gone through several turning points. Early theories in comparative planning, influenced by modernization theory, assumed that Europe and the United States were to be emulated as the apogee of planning theory and practice.

Beginning in the 1960s, however, planning pedagogy and research began to emphasize the particularity of cities, and the need to root planning approaches in an understanding of societies, cultures, and the historical and contemporary role of economic and political structures operating at an international scale in shaping urban issues. The 1980s saw a turn towards an interest in issues of globalization and neoliberalization, and the challenges that these forces presented to cities across the globe. Today, we witness a dramatic turn inwards in national political discourse, as political leaders in the United States ratchet up discourses of American exceptionalism, and cast immigrants and other nations as threats to American security and prosperity.

What do these changes mean for global planning education? Educate our students to tackle the inward and nationalistic turn in political discourse? How do we train students to understand and reflect on the ways that the global intersects with local planning practice, whether in the US or in other contexts? What challenges and opportunities does the current political moment present to planning education more generally in its efforts to bring the global dimensions of local issues to the attention of current and future planning practitioners?

Moderators
- Gavin Shatkin, Associate Professor, School of Public Policy and Urban Affairs, Northeastern University
- Gabriella Carolini, Assistant Professor of International Development and Urban Planning, Massachusetts Institute of Technology

Speakers
- Lesli Hoey, Assistant Professor, Urban & Regional Planning, University of Michigan
- Renia Ehrenfeucht, Professor/Director of Community & Regional Planning, University of New Mexico
- Noreen McDonald, Associate Professor & Chair; Director, Carolina Transportation Program, University of North Carolina
- Shannon Van Zandt, Professor, Landscape Architecture & Urban Planning, Texas A&M University
SPECIAL SESSIONS

STUDENT WORKSHOP: PUBLISHING IN PLANNING: WHERE & HOW?
SATURDAY: 8:30AM – 9:30AM
Colorado B-LL2

Organized by the ACSP Student Governing Board Representatives.

This workshop focuses on the decisions that planning researchers face in the publishing process. The format of the workshop will be largely interactive with a panel of faculty—some of whom are current/former editors—to share valuable tips and insights and answer questions. Topics of discussion will include: journal selection, publishing expectations of doctoral students, editorial interaction and revision process, web presence of one's publications, publishing a paper from the thesis/dissertation, and the merits of the various types of publication (e.g. peer-reviewed articles, technical reports, book chapters).

Moderator Mary K. Wolfe, Doctoral Student, Department of City & Regional Planning, UNC-Chapel Hill

Participants
- Marlon Boarnet [University of Southern California] boarnet@usc.edu
- Tisha Holmes [Florida State University] ttholmes@fsu.edu
- Nancey Green Leigh, Georgia Institute of Technology
- Todd BenDor, University of North Carolina
- Mary K. Wolfe, Doctoral Student, Department of City & Regional Planning, UNC-Chapel Hill

POCIG ROUNDTABLE
SATURDAY: 3:30PM – 5PM
Nat Hill, 3rd Floor

Lewis Mumford, in his seminal work The City in History, describes a historical duality of cities - they serve simultaneously as a sanctuary and a stronghold. While strongholds often connote safety, critics argue that the city in fact can have carceral qualities to it - the stronghold may double as a prison cell. The recent visibility of urban policing, police-involved killings, and immigration raids has surfaced the disparity in experience around urban safety and security. While planning often wields police powers in a far more subtle manner, planning serves as another form of policing which is often experienced disparately by race, income, gender, and nativity.

The victory enjoyed by Trump reflects a conservative populism that sees punishment and a vigilant police force, as an unquestioning response to the perceived threat of people of color in inner cities. Containment and imprisonment, - punishment - become the requirements per Trump's political base and their ideology. For example, the White House immigration policy is founded on a social construction that demonizes the "other."

Planning will need to respond to this conservative temperament that affects the poor and minorities as programs such as affordable housing and even the "Wall" becomes the focus of the Trump Administration. This roundtable hosted by the ACSP Planners of Color Interest Group calls into question the role of planning in policing urban space, at a moment when the Trump administration policy calls into question the right to sanctuary, particularly in urban spaces.

PAB - ASSESSING ASSESSMENTS: THE ROLE OF PROFESSIONALS
SATURDAY: 11:30AM – 12:30PM
Colorado A-LL2

Learning Objectives:
- Learn about the driver and fundamentals of student learning and outcomes assessment in higher education
- Understand the various ways planning programs are ensuring students have the skills required to work as planners
- Identify opportunities for professionals to work with universities and planning faculty in student learning and outcomes assessment

Student Learning and Outcomes Assessment are buzzwords flying around academia. Why should this matter to the profession? Explore the opportunities and challenges of engaging external stakeholders in outcomes assessment, and how feedback from practitioners is used to improve learning in the program.

Speakers:
- Hilary Nixon, PhD, Associate Professor & Chair, Department of Urban & Regional Planning, San Jose State University
- Charles Warnken, Ph.D., AICP, Associate Professor & Director, Division of Regional & City Planning, University of Oklahoma
- Kenneth Genskow, Ph.D., Professor & Chair, Department of Urban & Regional Planning, University of Wisconsin-Madison
LOCAL HOST SESSIONS & TOURS

LOCAL HOST SESSION: MILLENNIALS, MOUNTAINS, & MOBILITY: THE IMPACTS ON HOUSING IN COLORADO’S FRONT RANGE
FRIDAY: 8:30AM – 10AM
Colorado B-LL2

Denver is the second-fastest growing city in the U.S. Millennials, retirees, marijuana capitalists, IT professionals, people priced out of the coasts, and others are flocking to the region for jobs, access to the mountains, a perceived lifestyle, and yes, legal marijuana. The build out of the light rail system has stimulated development and investment throughout the region. However, this growth is creating pressures across the housing market—once-affordable central neighborhoods are being gentrified by millennials; since 2014 rental rates have increased by 20% and home values by 45%; mobile home parks in formerly forgotten areas are now in TOD zones; and only three of the 50 metro suburbs are still considered affordable. Planners and policymakers are seeking to create and preserve affordable housing within Colorado’s uniquely restrictive policy landscape, which includes budget and tax restrictions, constitutional prohibitions against inclusionary zoning for renters and tenant protections, and three failed attempts for a statewide housing trust fund. A fourth housing trust fund is working its way through the legislature, organizations are fighting to save mobile home parks through tenant buyouts, dozens of towns are supporting ADUs; densities are increasing; the Denver TOD fund has been expanded to the region; and the housing finance authority has initiated rolling 4% tax credit applications. Yet, these measures are not enough to meet the demand, and densification, traffic and NIMBY concerns are generating pushback from many neighborhoods. What else can be done to ensure that people across the income spectrum can find a place to call home in Denver?

The panel will include housing researchers from CU Denver, Jennifer Steffel Johnson and Carrie Makarewicz, and local housing advocates, policymakers, and funders.

Panelists
- Brad Weinig, Enterprise Community Partners
- Laura Brudzynski – City of Denver, Office of Economic Development, Affordable Housing Preservation
- Laurel Hayden, United for A New Economy, Lead Organizer
- Deyanira Zavala, Mile High Connects, Program Coordinator
- Andrea Chiriboga-Flor, 9 to 5 Colorado, Transit/Housing Organizer
- Jess Fear, Colorado Coalition for the Homeless, Social Impact Bonds Program Manager

LOCAL HOST ROUNDTABLE: PLANNING FOR POT
FRIDAY: 10:15AM – 11:45AM
Colorado B-LL2

Medical marijuana is now legal in 29 states while 8 states plus the District of Columbia have legalized marijuana use and sales for recreational purposes. Yet we know very little about the implications of this multi-billion dollar industry on urban economies, neighborhoods, and built and natural environments. Speakers in this local host session will address some of the most pressing questions facing urban planners attempting to accommodate this new and controversial land use. How does this burgeoning industry affect property values, industrial lease rates, housing prices, gentrification, and displacement of underserved residents? How do municipalities and environmental justice advocates ensure that nuisance uses are equitably distributed and environmental externalities are properly managed? How does dispensary and growhouse density affect personal and property crime? And what are the local and regional economic development factors associated with the industry, including its impact on tourism?

The panel will include researchers on marijuana planning, as well as representatives from state and local governments and non-profit organizations.

Speakers
- Chad Brue, Chief Executive Officer & Founder, Brue Baukol Capital Partners
- Andrew Howard, Lieutenant, Vice & Drug Control Bureau, Denver Police Department
- Kristi Kelly, Executive Director, Marijuana Industry Group, Colorado’s oldest, largest and most diverse trade association for licensed marijuana businesses, where she also served as vice chair and a board member.
- Professor Sam Kamin, Faculty, Sturm College of Law at the University of Denver, Current Vicente Sederberg Professor of Marijuana Law & Policy
- Jill Jennings Golich, Deputy Director of Community Planning & Development Department, City & County of Denver
- Ashley Kilroy, Executive Director of Excise & Licensing, City & County of Denver
- Margie Valdez, Chair, Denver Inter-Neighborhood Cooperation Zoning & Planning Committee
- Jeff Romine, Chief Economist, City & County of Denver
LOCAL HOST: MOBILE WORKSHOPS  
(Advance Registration Required)  
FRIDAY: 1:30PM – 5:30PM  
Hotel Lobby, Gather Near Your Tour Sign  

River North, Arapahoe Square, & Five Points: Case Studies in Downtown-Edge Neighborhood Revitalization  
Explore three downtown-edge neighborhoods that are experiencing intensive growth and investment and the myriad issues that come from such profound change. River North: From industrial grit and railroads to arts and music spaces, microbreweries, super-block apartments, and co-working spaces. Arapahoe Square: From parking lots to homeless shelters to apartment towers. Five Points: From African American heritage, jazz, and affordable ownership, to TODs, demographic change, and Victorian renovations. Travel Mode: Biking, Walking, Transit  

Sun Valley/Mariposa Redevelopments: A Healthy & Holistic Approach to Public Housing Redevelopment  
Explore two public housing projects and the possibilities for redeveloping them into mixed-use, mixed-tenure, mixed-income communities focused on creating strong, healthy communities. Mariposa has nearly finished its redevelopment journey, while Sun Valley is just beginning its transformation. See extensive public/private/non-profit collaboration, planning, and investment in action. Travel Mode: Transit, Walking  

Marijuana, Beer, & Urban Planning: The Mile High City Perspective  
Often called “the Napa Valley of Beer,” the city of Denver alone boasts 150 breweries, many in fast-gentrifying areas of the city. Couple this with the voter-approved sale and consumption of recreational marijuana, and Denver and Colorado have led the nation in these intriguing social experiments. How have these “nuisance uses” impacted land use, zoning, and public health and safety? How is Colorado spending the hundreds millions of dollars in new marijuana tax revenues? Have large brewing and marijuana facilities launched a warehousing construction and reuse boom and caused industrial gentrification? How are neighborhoods dealing with the impacts of drinking culture as well as major grow facilities and storefront dispensaries? Travel Mode: Transit, Walking  

The South Platte: Challenges & Opportunities for an Urban River Corridor  
Explore Denver’s most important waterway that cuts through the heart of the city and learn about how the South Platte River corridor is evolving from a polluted dumping-ground to a regional spine of parks and recreational trails and how significant infill development and major public infrastructure projects add to the complexity of planning along this important natural resource. Travel Mode: Walking, Biking  

FRIDAY: 1:30PM – 3:30PM & 3:30PM – 5:30PM  
Downtown Denver: History, Culture, & Unprecedented Growth -- The Transformation Continues  
The undisputed economic, cultural, and governmental heart of the Rocky Mountain region, Downtown Denver’s growth and revitalization seems to have no end in sight. From the beautiful historic Lower Downtown district to the booming Union Station transit district to the skyscrapers of the Central Business District to the museums, iconic architecture and City-Beautiful era parks and monuments of the Civic Center district—explore the city’s vibrant core and its many challenges and opportunities. URBAN PLANNING at the Price School

Issues related to sustainability, economic development, human health, and democratic governance challenge cities across the globe. The Price School leads the way with cutting-edge programs in urban planning. Price urban planning graduates go on to shape our world as leaders in government, nonprofit agencies, and the private sector.

INTERNATIONALLY ENGAGED: USC Price sponsors several international studio and lab classes each year, in locations that include Brazil, China, Costa Rica, Japan, India, and Italy.

EXECUTIVE FOCUSED: Starting in Fall 2018, USC Price will launch an innovative one-year online Executive Master of Urban Planning degree, aimed at highly qualified and experienced professionals and bridging the intersection of urban planning and the economics of urban development. OPENING RECEPTION

Wynkoop Brewing Company, Breckenridge on Blake & Ale House at Amato’s

ACSP is proud to host its Opening Reception at this landmark venue. Enjoy a wide array of delicious food and sample the legendary craft brews on tap.

Brew Masters will provide attendees the chance to sample some of the brewery’s best beers and ciders, while other brew staff will show you how it’s all made with mini-tours of the onsite brewery.

About the Wynkoop
Wynkoop Brewing Company, located in LoDo and one of the best examples of downtown revitalization, was once home to the J. S. Brown Mercantile Building. In the late 1980s, four friends partnered to open Denver’s first Brewpub in an area that was, at the time, void of a ballpark, pedestrian-only streets, farm-to-table restaurants and valet parking.

Almost 30 years later, the craft brewery welcomes visitors daily and offers some of the best and most original craft beers in the city. The brewery has welcomed its share of prominent patrons, including a surprise visit by former United States President Barack Obama in 2014. He enjoyed the brewery’s signature Rail Yard brew and played a friendly game of pool with Governor John Hickenlooper, one of the four founding members of Wnykoop Brewing Company.
